Pantanal Trip Report July 18 - 27, 2022

Leaders: Eduardo Patrial & Dan Berard

TRIP HIGHLIGHTS & FAVORITES:

- **JAGUARS! JAGUARS! JAGUARS!**
- **Hospitality, drinks and food, company, The Guides!!**
- **Seeing Eduardo get excited for the Yellow-faced Parrot**
- **Tapirs!**
- **Bare-faced Curassow**
- **Guira Cuckoo**
- **Band-tailed Nighthawks following the boats**
- **Scissor-tailed Nightjar**
- **Horned Sungem**
- **Swallow-tailed Hummingbird**
- **Sungrebe & Sunbittern**
- **Maguari Stork**
- **Pale-bellied Tyrant-Manakin**
- **Subtropical Doradito**
- **Crested Black-Tyrant**
- **Curl-crested Jay**
- **Scarlet-headed Blackbird**
- **Sayaca Tanager**
- **Crab-eating Fox**
- **Giant Otter**
- **Jabiru!!**
- **Zigzag Heron**
- **Whistling Heron & Capped Heron**
- **Green Ibis**
- **King Vulture**
- **Long-winged harrier**
- **Spectacled Owl**
- **Black-banded Owl**
- **American Pygmy-Kingfisher**
- **Lettered Aracari**
- **Toco Toucan**
- **Red-legged Seriema**
- **Aplomado Falcon**
- **Hyacinth Macaw**
- **Peach-fronted Parrot**
- **Collared Crescentchest**
- **Great Rufous Woodcreeper**
- **Red-billed Scythebill**
- **Sharp-tailed Streamcreeper**
- **Chotoy Spinetail**
- **Helmeted Manakin**
- **Blue Finch**

Sunrise Birding LLC www.sunrisebirding.com
Pantanal Trip Report July 18 - 27, 2022

Arrival - Jul 18

Our flights arrived at different times throughout the day, when most of our group was in Brazil, we packed into our Birding and Party Bus (complete with disco lights), settled in, and enjoyed a few hours ride through amazing scenery with our eyes glued to the windows. Getting our first views of Chopi Blackbirds, a quick view of a White-tailed Hawk and other glimpses of excitement to come!

Our van arrived at our first pousada (or inn) of the trip, in Chapada dos Guimarães, and the welcoming committee of Chopi Blackbirds, Rufous Horneros, Purplish Jays, Rusty-margined Flycatchers greeted us at reception, and the Ruddy Doves, Saffron Finches and Thrush-like Wrens waited for us by the feeders in the back, as well as an out of place Blue Ground Dove!! That evening, we were treated to our first absolutely stunning sunset and owls of the trip, a pair of Tropical Screech-Owls, one of which our local guide Eduardo expertly spotted, allowing fairly extended views.

While viewing the owl, the rest of our group arrived. Now whole, we enjoyed our first evening together, eager for our adventure!

Jul 19 Chapada dos Guimarães Grounds

Our first morning began with a blast! The local species like Rufous Hornero, Narrow-billed Woodcreeper, Chalk-browed Mockingbird, Sayaca Tanager all wowed as they visited the feeders and environs, while Saffron-billed Sparrow and Great Antshrike hopped around in the thicket behind the feeders. We had some of our first toucans this morning with Toco Toucan stopping in to watch, while Thrush-like Wrens, Boat-billed Flycatchers serenaded us.

After breakfast, we explored more of the grounds, venturing up into the cattle fields, towards the observation tower on the hill and through some new habitats. We were quickly greeted by a Golden-crowned Warbler, of the 'white-bellied' sub-species. This widespread species has several sub-species, with the white-bellied often treated separately. We heard our first Flavescent Warbler's rocking song for the first time, saw our first **Southern Antpiper**, as we reached the summit and greeted by a pair of Planalto Tyrannulets, and a nearby group of White-wedged Piculets.

Atop the tower, we were rewarded with an absolutely breathtaking vista of the national park and beyond. Not to be outdone, Chestnut-eared Aracaris, Lettered Aracaris, Channel-billed Toucans, Lineated Woodpecker provided eye level views, and a flock consisting of 'every Sayaca Tanager in Mato Grosso' with some Gray-headed Tanagers as well.

After lunch, we relaxed on the grounds, watched a **White Woodpecker** on a Papaya (*Carica papaya*), viewed menus, and put in our orders for dinner and then back out to explore the pousada grounds! We started down the dirt entry road, carefully walking around Tapir tracks and stopping to scope Black-throated Saltators.

The trail led to a small pond where we found Least Grebe, a Ferruginous Pygmy-Owl being mobbed by Rufous Horneros and a Variable Oriole. The low canopy also provided excellent views of Burnished-buff Tanager, Silver-beaked Tanager, and a Saffron-billed Sparrow low, in the open.

We were also treated to a gorgeous Sister Butterfly (*Adelpha* sp) landing on our scopes. On the walk back for lunch, we saw Black-fronted Nunbird as well as a flock of a dozen Guira Cuckoos!

After lunch, we birded a nearby road that Eduardo had staked out. It was very productive with excellent views of Amazon Motmot, Pale-crested Woodpecker, and extended scope views of **Band-tailed Manakin**. The road was also lined with diverse vegetation

extended scope views of **Band-tailed Manakin**. The road was also lined with diverse vegetation that would make a houseplant enthusiast's day - Monstera, Philodendron, Syngonium, Anthurium, and large Calathea.

Another stunning sunset, delicious meal, caipirinhas and good company was a fitting end to a perfect first full day!

Jul 20 - Agua Fria Rd - Caixa D'Agua (Rodriguez Gilberto), forest patch, and GeoDesic Viewpoint

Before breakfast, we birded the grounds and the feeders catching up with Yellow-chevroned Parakeets, Pale-breasted Thrush, and Ruddy Ground-Dove. After breakfast, we ventured to the chapada ecoregion. It was immediately apparent by the sand and lush vegetation that we were certainly in a new habitat!

Immediately out of the van, it sounded like a different world. White-rumped Tanagers sounded the alarm, Chapada Flycatchers called from tops of shrubs, and **Curl-crested Jays** soared overhead, stopping atop a shrub now and again. Curl evident in every view! When we began our trek down the road, we saw our first Yellow-headed Caracara of the trip, an immature bird that was harassed by Curl-crested Jays with each pass.

Being not only a new habitat for the trip, the chapada is a unique habitat in general. Because of this, many birds can be found only here. As we explored this road further, we continued to add specialties like White-eared Puffbird, Rusty-backed Antwren, Suiriri Flycatcher, and Plain-crested Elaenia.

At a section of road, where the vegetation began to differ slightly, Eduardo thought it might be a good place to try for Collared Crescentchest, it didn't take long for one to pop up and began singing. This handsome creature prefers to stay hidden, and so time, effort and luck are often required to see one. We had all three, as we enjoyed stunning views of it sing and even able to see it in the scope!

We continued further into the Chapada, alternating between walking and riding in the van, often keeping an eye on flowering trees like the stunning yellow flowers of the Ipe (*Handroanthus* sp). We also were rewarded with stunning views of **Coal-crested Finch**, another specialty of the ecoregion, and not at all an easy bird to find!

We all know no birding trip is complete without a vehicle issue, so we thought we'd get it out of the way at the beginning of the trip. With our van 'parked' on the side of the road, we took some shelter in the shade of a nearby small building, and continued to scan the flowers.

Our perseverance paid off and diligent scanning picked up White-vented Violetear, Blue-tufted Starthroat, as well as two of our targets for the area, Swallow-tailed Hummingbird and **Horned Sungem**. The Horned Sungem lived up to its name, while putting on a stunning, point-blank showing, it seemed to cheer us on while the vehicle was sorted out.

Eventually, our group became the highlight of the area and several locals stopped by to assist and share some words of encouragement. After a few attempts to free the van, we were invited to a nearby home, where we were greeted with immense hospitality, cold coke, fresh coffee and 'statue' Seriemas that joined us as we waited. We were treated to a tour of the farm, where pineapples, dragon fruit, passionfruit were grown as well as a fruit new to us all we were able to try - inga, or known in English as Ice-cream-bean. We also picked up our only Rufous-collared Sparrows of the trip and saw yard Seriemas walk into a kitchen, good thing to have on our kitchen list!

After the tour of the farm, a new van came to pick us up and brought us to a nearby restaurant where we enjoyed lunch and ice cream while we awaited the return of our van.

Once reunited with our original van, we went to some secret areas Eduardo has that can be productive. The first, an unassuming road was active but we felt efforts would be better suited nearby. Just as we were getting in the van, a Crested Black Tyrant put a delay on that. We enjoyed scope views of this species, which would be a write in for our list at the end of the day.

The next secret spot was by the geodesic center of South America. This breathtaking overlook had some excellent species like **Blue Finch**, Cliff Flycatcher, and Red-crested Finch. A flock of hundreds of White-collared Swifts circled in the distance, as we overlooked the Pantanal.

Since it was becoming dark as we approached the lodge, we decided to make a stop for a Scissor-tailed Nightjar that frequents the area, and stop we did, in the middle of the road as the nightjar sat in the road and flew up into view. We pulled over and were treated to excellent views of it flying as well as perched through the scope. A fantastic end to the day!!

Jul 21 - Chapada dos Guimarães Grounds, waterfall trail; Pousada Pouso Alegre

This would be our last morning in Chapada dos Guimarães National Park before driving south for a few hours to the Pantanal. We made good use of our last morning here as we soaked in the sunrise and watched a Crab-eating Fox patrol the pousada grounds.

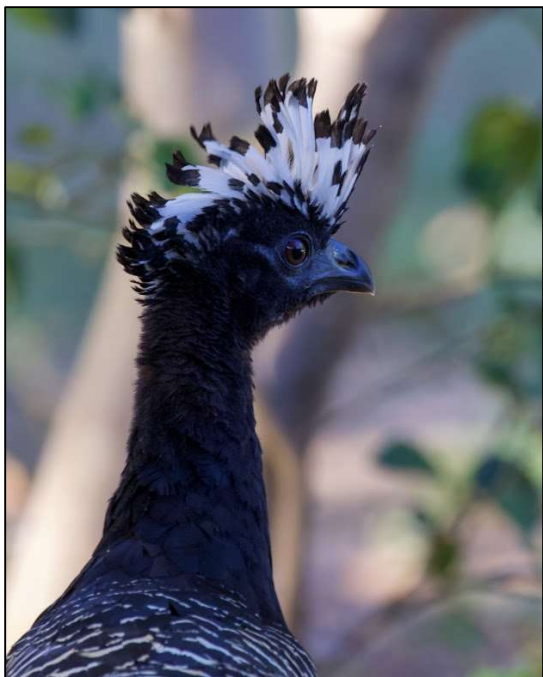

We explored another trail on site, one that goes by a seasonal waterfall, creating a much different, more lush habitat than the trail we had previously explored. Being the dry season, we sat where the waterfall would normally be rushing and watched Swallow Tanagers in the canopy and a Flavescent Warbler hopped around on the ground, sang, and made some quick fly through appearances.

A portion of trail by running water looked like a good place to set up shop for a bit, and we had great views of Helmeted Manakin, and an unexpected **Sharp-tailed Streamcreeper!** This little species has a very disjunct range, where it is uncommon and can be difficult to detect, let alone finding one out of normal-range!

After lunch, we packed into the van and began a several hour trip to our first Pantanal pousada, working our way to the Transpantaneira, the road in and out of the Pantanal.

This dirt road was lined with countless birds and caimans! Our eyes glued out the window as we saw Maguari Storks, Jabiru, Rufescent Tiger-Heron, Cocoli Heron, Bare-faced Ibis, Plumbeous Ibis and Buff-necked Ibis with some familiar faces like Wood Stork, Roseate Spoonbill, Great Egret, and Snowy Egret. Roadside Hawk, Savanna Hawk and Snail Kite perched atop snags and wires that were not already occupied by a Ringed Kingfisher.

When we arrived at Pousada Pouso Alegre, we found a Scaled Dove that would be rooming nearby and **Bare-faced Curassow** inspecting the grounds.

Once settled, we made a short ride down the entry road to a location known as the 'Tapir Waiting Spot'. No waiting for us, Eduardo spotted a Tapir in the vegetation immediately upon arrival! The Tapir stuck around for a bit but we were distracted by an Undulated Tinamou walking in the open. The Tapir is certainly worthy of naming this spot, however, we also found Great Black Hawk, Golden-green Woodpecker, Cream-colored Woodpecker, a calling Red-billed Scythebill, Pale-legged Hornero, and Rufous Cacholote.

Jul 22 - Pousada Pouso Alegre and Pousada Rio Claro

The stunning sunrises continued in the Pantanal proper, but the dawn chorus was very different with Plumbeous Ibis, Buff-necked Ibis both adding their piping calls with the occasional wing sonation from the Chestnut-bellied Guans.

A small group of horses joined us this morning as we birded the grounds, picking up Chaco Chachalaca roosting in a tree, and catching up with stunning views of **Red-billed Scythebill**, Greater Thornbird, and a huge mixed flock of Grayish Baywings and Shiny Cowbirds flew around the field.

This pousada had a bird feeder viewing area, we were eager to grab a seat and get some close views of some species we'd seen that morning and maybe some new ones. The feeders were very popular with the flock of Shiny Cowbirds and Grayish Baywings as well as Picazuro Pigeons, Buff-throated Saltator, Chestnut-eared Aracari, Chaco Chachalaca, Yellow-billed Cardinal, Great Kiskadee, Giant Cowbird, and a Gray-cowled Wood-Rail that walked by, just to see what was going on.

We then explored the marsh trail and board walk, which was immensely productive with **flyover Hyacinth Macaws**, Monk Parakeets, Peach-fronted Parakeets, perched Lesser Yellow-headed Vulture, Greater Ani, White-tailed Goldenthrout, and the stunning Scarlet-headed Blackbirds, as well as female Unicolored Blackbirds, which are not unicolored.

Our next destination is further south on the Transpantaneira, Pousada Rio Claro, where we would be exploring the Rio Claro by boat! En route, we stopped to view a Tapir roadside!

Some light exploring of the Pousada Rio Claro grounds before boarding the boat turned up White-rumped Monjita, Cattle Tyrant, and Rufous Hornero.

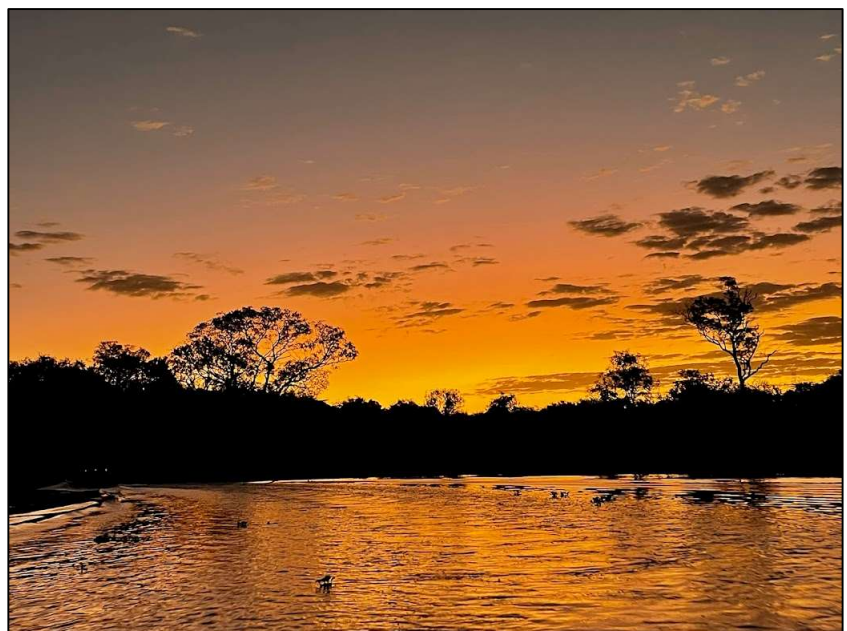

We split the group into two boats and set off on the Rio Claro, immediately adding new species and getting better views of some. Wasn't long before we stopped for a perched Yellow-collared Macaw, White-throated (formerly Blue-throated) Piping-Guan, Striated

Heron, and Black-collared Hawk. A flyover Crane Hawk was also a nice surprise as well as a female Black Howler with a baby.

Our boats stayed close together, allowing to follow and call out species, and they allowed us access to some narrow areas and close views. We spotted what looked like a heron rookery, and our skilled drivers turned us around and navigated us to a cove where we were surrounded by Boat-billed Herons and Black-crowned Night-Herons.

With sunset soon upon us, Band-tailed Nighthawks began to appear, seemingly following our boats at times and diving over mats of vegetation. Fish-eating bats including Black Mastiff joined the nighthawks and the river became alive with arial predators!

Jul 23 - Pousada Rio Claro Forest Trail, Secret Potoo Spot, Pantanal Mato Grasso + Pixiam

This morning we had some time to bird the grounds before we traveled further south. The fields surrounding the pousada held a different diversity of species, Picazuro Pigeons, Southern Lapwings and Chestnut-bellied Guans wandered in between horses. A Great Rufous Woodcreeper 'meow'ed and gave its location away, eventually following us as we birded the entry road, even perching on a post.

Also, in the business of following us down the road, was a pair of **Campo Flickers**, perching directly overhead, calling and putting on quite a show! A pair of showy Chotoy Spinetails allowed for scope views, while they tried to hide but were betrayed by their yellow throat and long tail.

After birding roadside, we took our adventure to a forested trail on the grounds. The trail winded by the Rio Claro, offering chances of new species in a different habitat. An American Pygmy-Kingfisher hidden in the shade over the river was an excellent find! We had our first encounter with 'a tree that keeps on giving' that played host to a diverse feeding flock including Rufous-browed Peppershrike, Plain Tyrannulet. A second tree that keeps on giving was nearby, as were the peppershrike and tyrannulet with a motley crew including - Fork-tailed Woodnymph, Barred Antshrike, Large-billed Antwren, Rusty-backed Antwren, White-lored Spinetail, Southern Beardless Tyrannulet,

Stripe-necked today-Tyrant, and Yellow-olive Flycatcher. At the end of the trail, we had more looks at Pale-legged Hornero, as well as Buff-breasted Wren and Rusty-fronted Tody-Tyrant. An Undulated Tinamou crossing our path on the way out offered a nice view.

En route to our next pousada, we pulled over to see a **Jabiru on nest, shading two chicks from the sun!!** We also stopped for our first Marsh Deer of the trip.

We settled in at our next pousada and got ready to bird the Pixiam River by boat.

The Pixiam awarded us with some of our first views of Capybaras, White-winged Swallows and stunning looks at Gray-cowled Wood-Rail, Wattled Jacana, Green Kingfisher, Amazon Kingfisher, and Neotropic Cormorant. We of course stopped several times for **Black-collared Hawks**, a fish-eating hawk.

Our persistence in scanning and listening for Sungrebe paid off, we had absolutely stunning views of two close, with other distant individuals. “Wait, which Sungrebe are you on?” Is not a sentence you expect to hear.

As the sun began to set, we pulled our boats into a quiet cove and were joined by a Giant Otter! Heading back to the dock, we learned that Snail Kites will roost several to a tree, saw more Band-tailed Night-hawks and one

and one Nacunda Nighthawk that made a quick pass by both boats. Not wanting to call it quits yet, we tried a few spots for Zigzag Heron, and while sitting quietly waiting, a Zigzag Heron called a distance away, and the chase was on! After some time, we were able to locate and get views of the Zigzag Heron perched!

Pulling back to the dock, we were surrounded by fish eating bats like Black Mastiff, and spent time watching them, Band-tailed Nighthawks feed over the Pixiam River.

Jul 24 - Pantanal Mato Grosso to Porto Jofre

We started the morning birding the grounds of the pousada, focusing on an area utilized as a runway, and a nearby trail. We added colorful local species like Orange-backed Troupial to our list, and found some uncommon species like Green-backed Becard and Pale-bellied Tyrant-Manakin both giving amazing views!

A good portion of the day was spent traveling with pull over birding to our next destination, Porto Jofre the furthest point south on the Transpantaneira.

The day was very productive with Brazilian Teal, White-headed Marsh-Tyrant, Black-and-white Water-Tyrant, Black-capped Donacobius, and Black-necked Stilt (this population is known as White-backed Stilt and some consider a separate species).

At one bridge, we spent a fair amount of time, rewarded with Gray-breasted Crake and Subtropical Doradito! A Long-winged Harrier flying by was not only a new one for the list, but a rarity for the area!!

Stopping to scan a pool, we noted a Nacunda Nighthawk roosting on the ground, then another, another... two more... a group of four over here... With the sun beginning to

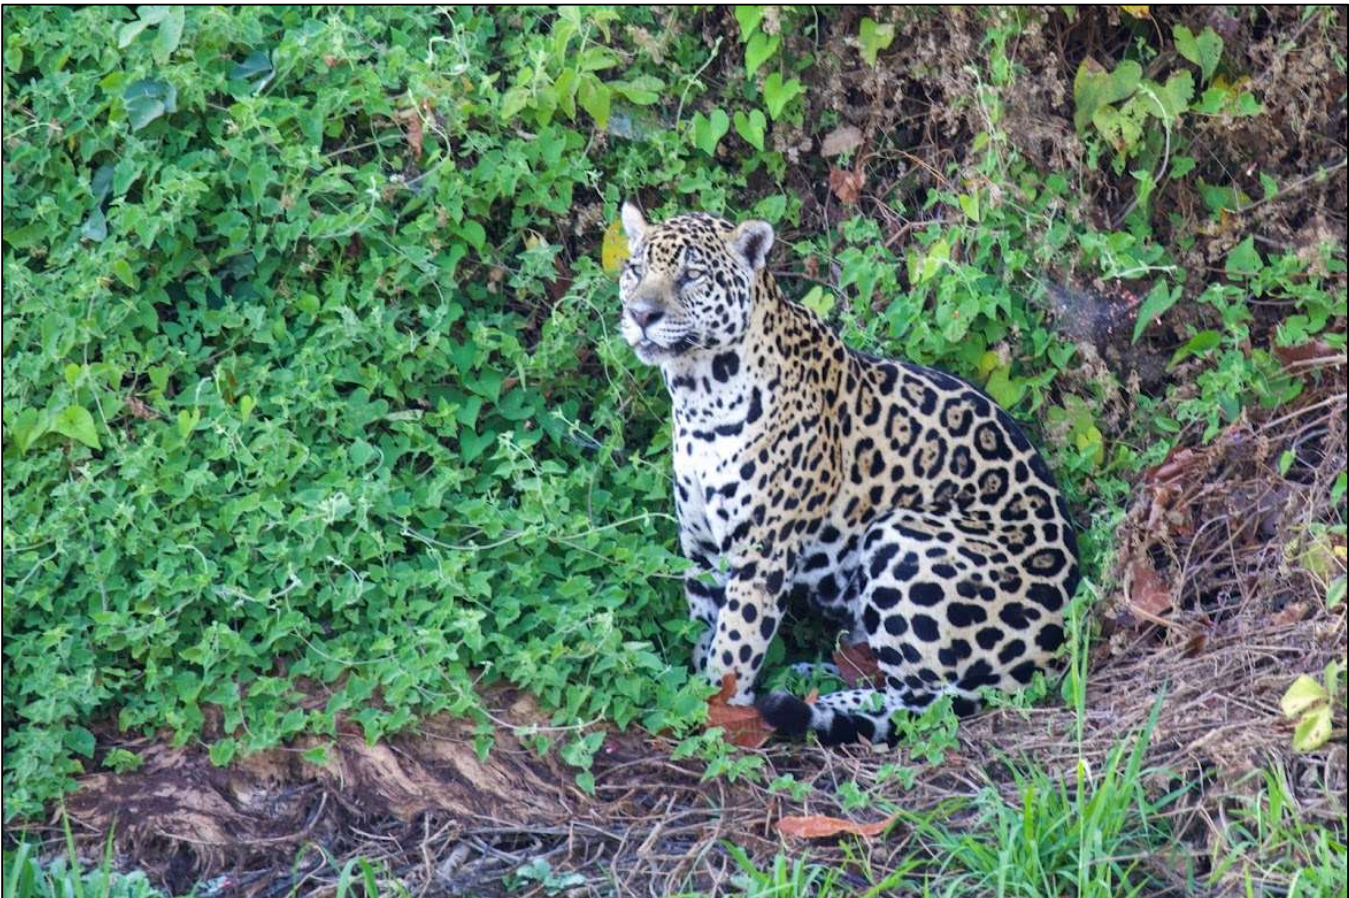

set, the Nacunda Nighthawks began to put up into the air, going the Large-billed Terns also circling overhead. The sky soon becoming peppered with nighthawks.

Pulling in to Porto Joffre, we had a quick debate if the Jabiru standing there was real or a statue, when it began to move the debate ended. Not believing that a Jabiru is just walking around, we were soon distracted by the Hyacinth Macaws that were on the ground just outside our rooms! The macaws roosted outside our rooms all night, often calling reminding us they're there. Quite a unique sound to fall asleep to.

Jul 25 - Porto Joffre - Cuiaba River (first Jaguar), to Black Channel (2 Cubs), river known as "three brothers"

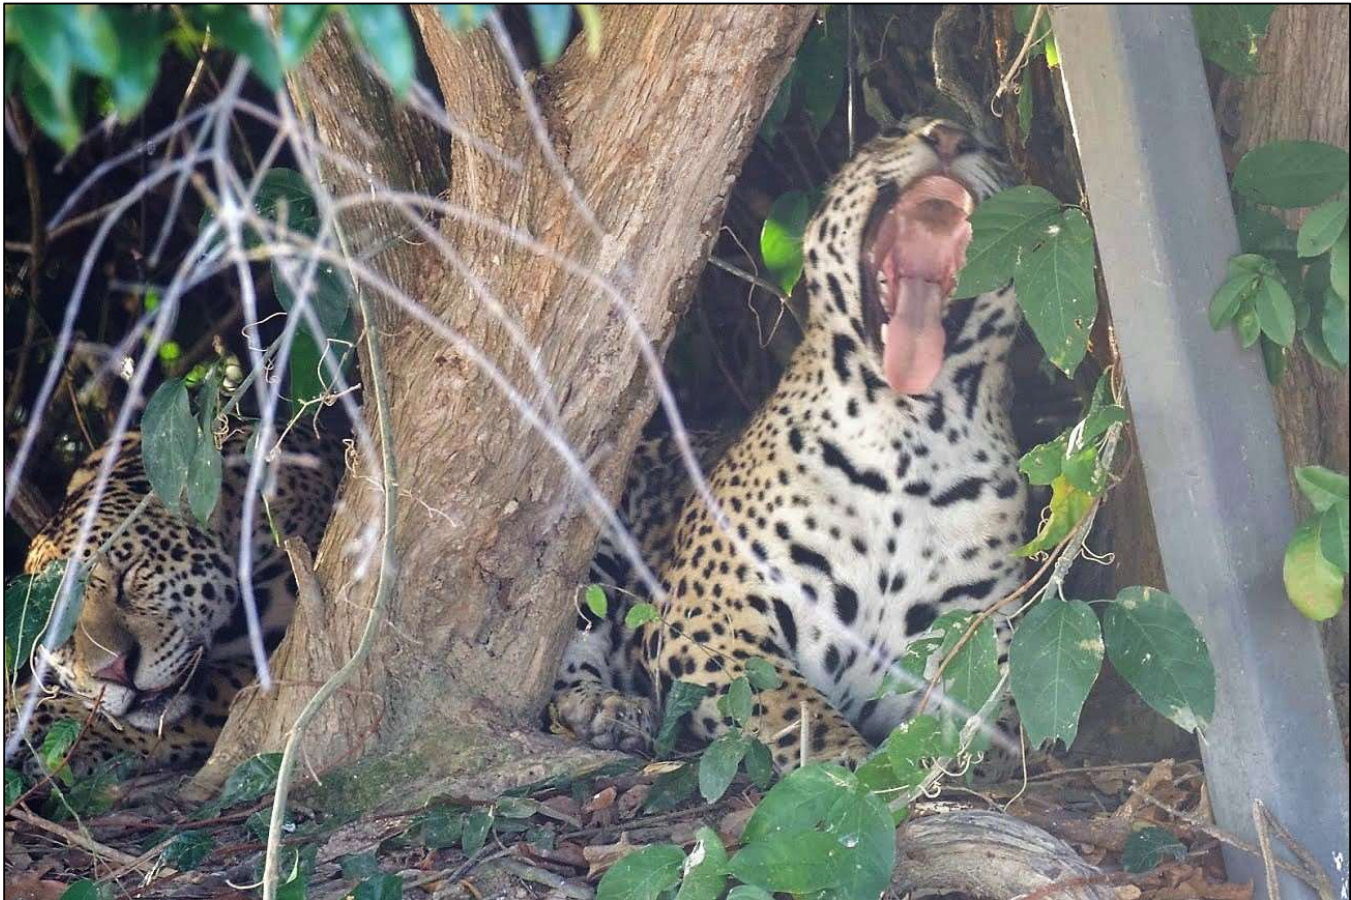

Today began early because today was the day we look for Jaguars! We donned our life jackets and boarded the boat in the dark, at a rare time when it's chilly. The adrenaline was enough to keep us warm.

It didn't take long for us to come across our first Jaguar! Just as the sun was still warming the land, we watched as a Jaguar yawned, cleaned itself, and began its day. An absolutely life changing experience!

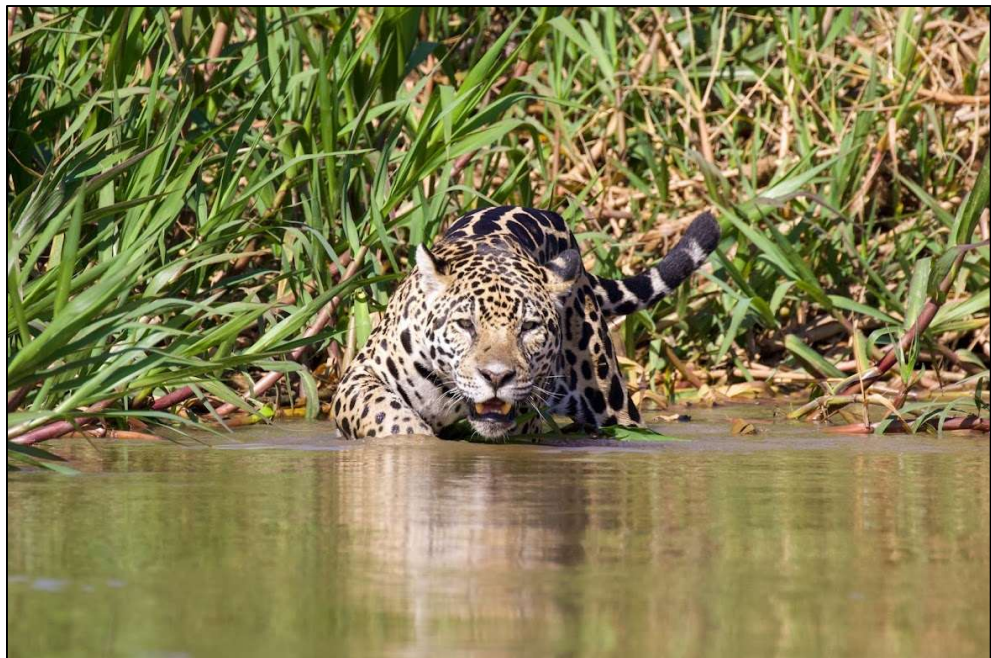

We left the adult Jaguar and boats also viewing it to search for others. A report of two cubs nearby was a good bet. They were easily found by the other boats viewing them. Amid "oohs" "aah" and camera shutters we befriended a boat next to us, and shared our photos of the Jaguars.

The cubs seemed quite happy to watch us watch them, occasionally yawning stretching, with one taking a nap. As a reminder that we were also looking for birds, a Black Skimmer skimmed past and a flock of Pied Lapwings stood on a sandy spit of land.

After some time, we ventured to another section of the Three Brothers River, where we found our own Jaguar! Time melted away as we quietly watched this Jaguar walk along the river, move through vegetation, and swim in search of prey. Just the sounds of the river, and the Jaguar moving through the reeds.

Eventually, our private visit with the Jaguar was over, and we moved on as other boats arrived. Aside from the Jaguars, we had stunning views of Southern Screamer, Rufescent Tiger-Heron, and Capped Heron.

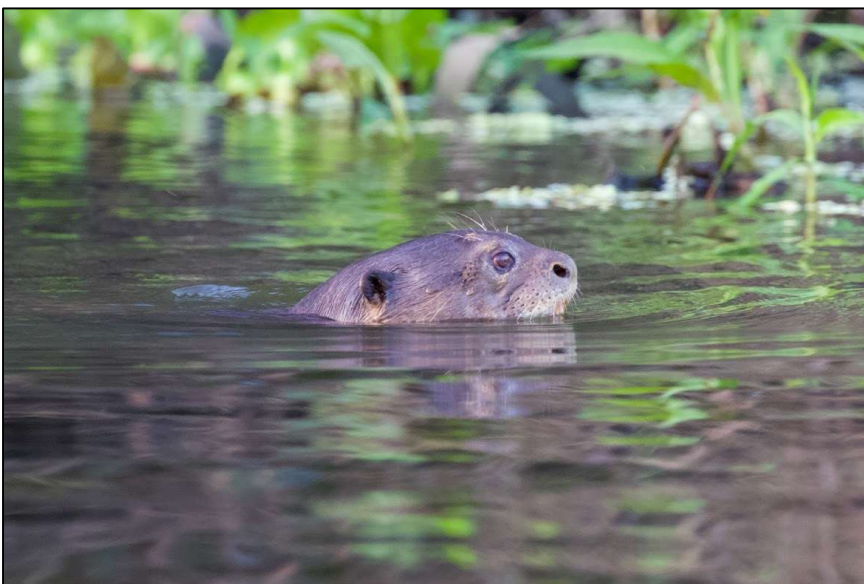

Southern Screamer, Rufescent Tiger-Heron, and Capped Heron.

A **Neotropic Cormorant** fighting with an armored catfish made for a harrowing watch, but the cormorant proved successful!

Just as we were pulling in to the dock for the morning, a group of **Giant Otter** on the river bank made use turn the boat around. These huge otters were like seals as the group watched us watch them.

After lunch and downtime, we boarded the boat to look for more Jaguars and excitement! Before doing so, a Large Elaenia was a new one for our list!

After boarding, we joined others in watching a Jaguar, our fifth of the day!! The Jaguar sauntered into the forest, as satisfied with our views, we

moved on to bird the narrow channels branching off the river.

We had close approaches of Savanna Hawk, Roadside Hawk, Black-collared Hawk, Yellow-rumped Cacique, Black-capped Donacobius, Pale-legged Hornero, Orange-backed Troupial and we finally caught with a Lesser Kiskadee. The biggest surprise of the afternoon was a Spectacled Owl that flew in right over us, perched in the open for an extended period of time, leaving us speechless!

At dinner, we celebrated the day with caipirinhas and were joined for some of the evening by a very friendly Neotropical Otter that calls the pousada home. Thanks to some help, the otter remained outside the dining area.

Jul 26 - Porto Joffre - Pantanal Highway - Piuval

This morning's sunrise was enjoyed while scanning a marshy field that was covered with birds and mammals. Buff-necked Ibis, Green Ibis, Bare-faced Ibis, White-faced Whistling-Ducks, Black-bellied Whistling-Ducks, Muscovy, Jabiru, Crested Caracara, and up-close Pantanal Snipe. Our Neotropical Otter friend stopped by again for a visit, as did the Hyacinth Macaws. The hospitality here is excellent, as we checked out, the Jabiru was still at the main office, for photo ops and perhaps if we have any questions?

With a few hours' drive ahead of us, we were making our way back north stopping to stay overnight at a pousada we had passed on our way south. Along the way we made some stops to get photos or better views and added Tawny-bellied Seedeater to our list as well as more views of Rusty-collared Seedeater and Subtropical Doradito. We also had better looks at **Whistling Heron**.

Just before arriving at Pousada Piuval, we pulled over for a Sunbittern on the side of the road. While checking in, the grounds really give the feel of a savannah! In the distance (Cattle Tyrants perched atop of course) and on a nearby table a Red-legged Seriema gave a size comparison to a water bottle.

After checking in, we drove the dirt road around the grounds where we added Common Tapeti to our list, the local species of cottontail. We stopped at a bridge where a Green Ibis stood guard, Rufous Cacholote sang from the reeds, and herons and storks flew back to roost for the night. As the herons were returning, Band-tailed Nighthawks and Nacunda Nighthawks began taking to the sky, making for a dizzying mix of birds and dragonflies when looking through binoculars.

Getting back in to the van, Eduardo noted recent Jaguar tracks. This was certainly exciting! We got out at our next stop to try for nocturnal birds and waved to a van of nature nerds who drove past. Hearing boops of the Band-tailed Nighthawks but nothing else, we got into the van and tried further down the road. This spot was immediately productive as we had crippling views of **Black-banded Owl** right overhead.

That night at dinner, we spoke to the occupants in the other van, who had turned to not disturb us at the owl, and saw a Jaguar! Likely the one who's prints we had just seen. Great experience to share with others!!

Jul 27 - Piuval - Cuiabá - Jardim de Amazonia

This morning we birded the grounds of the pousada, which offered new species like Bat Falcon, but also specialties to the area like White-fronted Woodpecker. The highlight of the morning was possibly a Yellow-faced Parrot, a species possibly in decline that Eduardo had noted has been more difficult to find. Funny enough, this is not where you'd expect to find one so it added to the excitement!

While viewing the parrot, a Pantaneiro came by on his horse to round up the horses in a nearby field. A fantastic sight to see the horses running, dust lit in the morning sun.

Being our last morning before the Jardim Amazonia extension, we said our goodbyes and enjoyed the last views of rhea, Jabiru, Burrowing Owls, and Seriema before parting ways and moving our adventure to Jardim.

Pantanal Species List

July 18 - 27, 2022

	BIRD SPECIES	SCIENTIFIC NAME	NOTES
1.	Greater Rhea	<i>Rhea americana</i>	
2.	Little Tinamou	<i>Crypturellus soui</i>	Heard Only
3.	Undulated Tinamou	<i>Crypturellus undulatus</i>	
4.	Small-billed Tinamou	<i>Crypturellus parvirostris</i>	Heard Only
5.	Tataupa Tinamou	<i>Crypturellus tataupa</i>	Heard Only
6.	Southern Screamer	<i>Chauna torquata</i>	
7.	White-faced Whistling-Duck	<i>Dendrocygna viduata</i>	
8.	Black-bellied Whistling-Duck <i>autumnalis</i>	<i>Dendrocygna autumnalis autumnalis</i>	
9.	Muscovy Duck	<i>Cairina moschata</i>	
10.	Brazilian Teal	<i>Amazonetta brasiliensis</i>	
11.	Chaco Chachalaca	<i>Ortalis canicollis</i>	
12.	Chestnut-bellied Guan	<i>Penelope ochrogaster</i>	
13.	White-throated Piping-Guan	<i>Pipile grayi</i>	Formerly subspecies of Blue-throated Piping-Guan
14.	Bare-faced Curassow/Bare-faced	<i>Crax fasciolata fasciolata/grayi</i>	
15.	Least Grebe	<i>Tachybaptus dominicus</i>	
16.	Rock Pigeon/Feral Pigeon	<i>Columba livia Feral Pigeon</i>	
17.	Pale-vented Pigeon	<i>Patagioenas cayennensis</i>	
18.	Scaled Pigeon	<i>Patagioenas speciosa</i>	
19.	Picazuro Pigeon	<i>Patagioenas picazuro</i>	
20.	Ruddy Ground Dove	<i>Columbina talpacoti</i>	
21.	Scaled Dove	<i>Columbina squammata</i>	
22.	Picui Ground Dove	<i>Columbina picui</i>	
23.	Blue Ground Dove	<i>Claravis pretiosa</i>	
24.	Long-tailed Ground Dove	<i>Uropelia campestris</i>	
25.	White-tipped Dove <i>brasiliensis</i>	<i>Leptotila verreauxi [brasiliensis Group]</i>	
26.	Guira Cuckoo	<i>Guira guira</i>	
27.	Greater Ani	<i>Crotophaga major</i>	
28.	Smooth-billed Ani	<i>Crotophaga ani</i>	
29.	Striped Cuckoo	<i>Tapera naevia</i>	Heard Only
30.	Pheasant Cuckoo	<i>Dromococcyx phasianellus</i>	
31.	Squirrel Cuckoo	<i>Amazonian Piaya cayana [cayana Group]</i>	

32.	Nacunda Nighthawk	<i>Chordeiles nacunda</i>	
33.	Band-tailed Nighthawk	<i>Nyctiprogne leucopyga</i>	
34.	Common Pauraque	<i>Nyctidromus albicollis</i>	
35.	Scissor-tailed Nightjar	<i>Hydropsalis torquata</i>	
36.	White-collared Swift	<i>Streptoprocne zonaris</i>	
37.	White-vented Violetear	<i>Colibri serrirostris</i>	
38.	Horned Sungem	<i>Heliactin bilophus</i>	
39.	White-tailed Goldenthrout	<i>Polytmus guainumbi</i>	
40.	Black-throated Mango	<i>Anthracothorax nigricollis</i>	
41.	Blue-tufted Starthroat	<i>Helioaster furcifer</i>	
42.	Amethyst Woodstar	<i>Calliphlox amethystina</i>	
43.	Fork-tailed Woodnymph	<i>Thalurania furcata</i>	
44.	Swallow-tailed Hummingbird	<i>Eupetomena macroura</i>	
45.	Glittering-throated Emerald	<i>Chionomesa fimbriata</i>	
46.	Rufous-throated Sapphire	<i>Hylocharis sapphirina</i>	
47.	Gilded Hummingbird	<i>Hylocharis chrysura</i>	
48.	Gray-cowled Wood-Rail/ Gray-cowled	<i>Aramides cajaneus cajaneus</i>	
49.	Gray-breasted Crake	<i>Laterallus exilis</i>	
50.	Sungrebe	<i>Heliornis fulica</i>	
51.	Limpkin Brown-backed	<i>Aramus guarauna guarauna</i>	
52.	Black-necked Stilt/White-backed	<i>Himantopus mexicanus melanurus</i>	
53.	Pied Lapwing	<i>Vanellus cayanus</i>	
54.	Southern Lapwing <i>lampronotus</i>	<i>Vanellus chilensis lampronotus</i>	
55.	Wattled Jacana/Chestnut-backed	<i>Jacana jacana [jacana Group]</i>	
56.	Pantanal Snipe	<i>Gallinago paraguaiiae</i>	Formerly South American Snipe
57.	Yellow-billed Tern	<i>Sternula superciliaris</i>	
58.	Large-billed Tern	<i>Phaetusa simplex</i>	
59.	Black Skimmer	<i>Rynchops niger</i>	
60.	Sunbittern	<i>Eurypyga helias</i>	
61.	Maguari Stork	<i>Ciconia maguari</i>	
62.	Jabiru	<i>Jabiru mycteria</i>	
63.	Wood Stork	<i>Mycteria americana</i>	
64.	Anhinga	<i>Anhinga anhinga</i>	
65.	Neotropic Cormorant	<i>Nannopterum brasilianum</i>	
66.	Zigzag Heron	<i>Zebriulus undulatus</i>	
67.	Least Bittern	<i>Ixobrychus exilis</i>	
68.	Rufescent Tiger-Heron	<i>Tigrisoma lineatum</i>	

69.	Cocoi Heron	<i>Ardea cocoi</i>	
70.	Great Egret/American	<i>Ardea alba egretta</i>	
71.	Snowy Egret	<i>Egretta thula</i>	
72.	Little Blue Heron	<i>Egretta caerulea</i>	
73.	Cattle Egret/Western	<i>Bubulcus ibis ibis</i>	
74.	Striated Heron/South American	<i>Butorides striata striata</i>	
75.	Whistling Heron	<i>Syrigma sibilatrix</i>	
76.	Capped Heron	<i>Pilherodius pileatus</i>	
77.	Black-crowned Night-Heron/ American	<i>Nycticorax nycticorax hoactli</i>	
78.	Boat-billed Heron/Southern	<i>Cochlearius cochlearius cochlearius/panamensis</i>	
79.	Green Ibis	<i>Mesembrinibis cayennensis</i>	
80.	Bare-faced Ibis	<i>Phimosus infuscatus</i>	
81.	Plumbeous Ibis	<i>Theristicus caerulescens</i>	
82.	Buff-necked Ibis	<i>Theristicus caudatus</i>	
83.	Roseate Spoonbill	<i>Platalea ajaja</i>	
84.	King Vulture	<i>Sarcoramphus papa</i>	
85.	Black Vulture	<i>Coragyps atratus</i>	
86.	Turkey Vulture/Tropical	<i>Cathartes aura ruficollis</i>	
87.	Lesser Yellow-headed Vulture	<i>Cathartes burrovianus</i>	
88.	Ornate Hawk-Eagle	<i>Spizaetus ornatus</i>	Heard Only
89.	Black-collared Hawk	<i>Busarellus nigricollis</i>	
90.	Snail Kite	<i>Rostrhamus sociabilis</i>	
91.	Long-winged Harrier	<i>Circus buffoni</i>	
92.	Crane Hawk/Banded	<i>Geranoospiza caerulescens gracilis/flexipes</i>	
93.	Savanna Hawk	<i>Buteogallus meridionalis</i>	
94.	Great Black Hawk/Southern	<i>Buteogallus urubitinga urubitinga</i>	
95.	Roadside Hawk	<i>Rupornis magnirostris</i>	
96.	White-tailed Hawk	<i>Geranoaetus albicaudatus</i>	
97.	Zone-tailed Hawk	<i>Buteo albonotatus</i>	
98.	Tropical Screech-Owl	<i>Megascops choliba</i>	
99.	Spectacled Owl	<i>Pulsatrix perspicillata</i>	
100.	Great Horned Owl	<i>Bubo virginianus</i>	
101.	Ferruginous Pygmy-Owl/ Ferruginous	<i>Glaucidium brasilianum [brasilianum Group]</i>	
102.	Burrowing Owl	<i>Athene cunicularia</i>	
103.	Black-banded Owl	<i>Strix huhula</i>	
104.	Blue-crowned Trogon	<i>Trogon curucui</i>	

105.	Amazonian Motmot	<i>Momotus momota</i>	
106.	Ringed Kingfisher/Northern	<i>Megaceryle torquata torquata/stictipennis</i>	
107.	Amazon Kingfisher	<i>Chloroceryle amazona</i>	
108.	American Pygmy Kingfisher	<i>Chloroceryle aenea</i>	
109.	Green Kingfisher	<i>Chloroceryle americana</i>	
110.	Green-and-rufous Kingfisher	<i>Chloroceryle inda</i>	
111.	White-eared Puffbird	<i>Nystalus chacuru</i>	
112.	Black-fronted Nunbird	<i>Monasa nigrifrons</i>	
113.	Brown Jacamar	<i>Brachygalba lugubris</i>	
114.	Rufous-tailed Jacamar/Spot-tailed	<i>Galbula ruficauda rufoviridis/heterogyna</i>	
115.	Lettered Aracari	<i>Pteroglossus incriptus</i>	
116.	Chestnut-eared Aracari	<i>Pteroglossus castanotis</i>	
117.	Toco Toucan	<i>Ramphastos toco</i>	
118.	Channel-billed Toucan	<i>Ramphastos vitellinus</i>	
119.	White-wedged Piculet	<i>Picumnus albosquamatus</i>	
120.	White Woodpecker	<i>Melanerpes candidus</i>	
121.	White-fronted Woodpecker	<i>Melanerpes cactorum</i>	
122.	Little Woodpecker	<i>Dryobates passerinus</i>	
123.	Crimson-crested Woodpecker	<i>Campephilus melanoleucos</i>	
124.	Lineated Woodpecker/Lineated	<i>Dryocopus lineatus [lineatus Group]</i>	
125.	Cream-colored Woodpecker	<i>Celeus flavus</i>	
126.	Pale-crested Woodpecker	<i>Celeus lugubris</i>	
127.	Golden-green Woodpecker/ Spot-throated	<i>Piculus chrysochloros laemostictus</i>	
128.	Green-barred Woodpecker/ Green-barred	<i>Colaptes melanochloros melanochloros/nattereri</i>	
129.	Campo Flicker Campo	<i>Colaptes campestris campestris</i>	
130.	Red-legged Seriema	<i>Cariama cristata</i>	
131.	Laughing Falcon	<i>Herpetotheres cachinnans</i>	
132.	Collared Forest-Falcon	<i>Micrastur semitorquatus</i>	Heard Only
133.	Barred Forest-Falcon	<i>Micrastur ruficollis</i>	Heard Only
134.	Crested Caracara/Southern	<i>Caracara plancus plancus</i>	
135.	Yellow-headed Caracara	<i>Daptrius chimachima</i>	
136.	American Kestrel/South American	<i>Falco sparverius [cinnamominus Group]</i>	
137.	Aplomado Falcon	<i>Falco femoralis</i>	
138.	Monk Parakeet/Monk	<i>Myiopsitta monachus [monachus Group]</i>	
139.	Yellow-chevroned Parakeet	<i>Brotogeris chiriri</i>	
140.	Scaly-headed Parrot	<i>Pionus maximiliani</i>	

141.	Blue-headed Parrot/Blue-headed	<i>Pionus menstruus menstruus/rubrigularis</i>	
142.	Yellow-faced Parrot	<i>Alipiopsitta xanthops</i>	
143.	Turquoise-fronted Parrot	<i>Amazona aestiva</i>	
144.	Orange-winged Parrot	<i>Amazona amazonica</i>	
145.	Hyacinth Macaw	<i>Anodorhynchus hyacinthinus</i>	
146.	Peach-fronted Parakeet	<i>Eupsittula aurea</i>	
147.	Nanday Parakeet	<i>Aratinga nenday</i>	
148.	Blue-winged Macaw	<i>Primolius maracana</i>	
149.	Yellow-collared Macaw	<i>Primolius auricollis</i>	
150.	Red-and-green Macaw	<i>Ara chloropterus</i>	
151.	Blue-crowned Parakeet/ Blue-headed	<i>Thectocercus acuticaudatus acuticaudatus/neumanni</i>	
152.	Red-shouldered Macaw/Southern	<i>Diopsittaca nobilis cumanensis/longipennis</i>	
153.	White-eyed Parakeet	<i>Psittacara leucophthalmus</i>	
154.	Great Antshrike	<i>Taraba major</i>	
155.	Barred Antshrike/Barred	<i>Thamnophilus doliatus [doliatus Group]</i>	
156.	Planalto Slaty-Antshrike	<i>Thamnophilus pelzelni</i>	
157.	Large-billed Antwren	<i>Herpsilochmus longirostris</i>	
158.	Black-bellied Antwren	<i>Formicivora melanogaster</i>	
159.	Rusty-backed Antwren	<i>Formicivora rufa</i>	
160.	Mato Grosso Antbird	<i>Cercomacra melanaria</i>	
161.	Western Fire-eye	<i>Pyriglena maura</i>	
162.	Collared Crescentchest	<i>Melanopareia torquata</i>	
163.	Planalto Woodcreeper	<i>Dendrocolaptes platyrostris</i>	
164.	Great Rufous Woodcreeper	<i>Xiphocolaptes major</i>	
165.	Buff-throated Woodcreeper/ Lafresnaye's	<i>Xiphorhynchus guttatus guttatoides/dorbignyanus</i>	
166.	Straight-billed Woodcreeper	<i>Dendroplex picus</i>	
167.	Red-billed Scythebill	<i>Campylorhamphus trochilirostris</i>	
168.	Narrow-billed Woodcreeper	<i>Lepidocolaptes angustirostris</i>	
169.	Pale-legged Hornero/Pale-legged	<i>Furnarius leucopus [leucopus Group]</i>	
170.	Rufous Hornero	<i>Furnarius rufus</i>	
171.	Sharp-tailed Streamcreeper	<i>Lochmias nematura</i>	
172.	Rufous-fronted Thornbird/ Rufous-fronted	<i>Phacellodomus rufifrons [rufifrons Group]</i>	
173.	Greater Thornbird	<i>Phacellodomus ruber</i>	
174.	Rusty-backed Spinetail	<i>Cranioleuca vulpina</i>	
175.	Rufous Cacholote	<i>Pseudoseisura unirufa</i>	
176.	Yellow-chinned Spinetail	<i>Certhiaxis cinnamomeus</i>	

177.	Chotoy Spinetail	<i>Schoeniophylax phryganophilus</i>	
178.	White-lored Spinetail/White-lored	<i>Synallaxis albilora albilora</i>	
179.	Cinereous-breasted Spinetail	<i>Synallaxis hypospodia</i>	
180.	Pale-bellied Tyrant-Manakin	<i>Neopelma pallescens</i>	
181.	Helmeted Manakin	<i>Antilophia galeata</i>	
182.	Band-tailed Manakin	<i>Pipra fasciicauda</i>	
183.	Masked Tityra	<i>Tityra semifasciata</i>	
184.	Green-backed Becard/ Green-backed	<i>Pachyramphus viridis viridis</i>	
185.	Southern Antpipit	<i>Corythopsis delalandi</i>	
186.	Stripe-necked Tody-Tyrant	<i>Hemitriccus striaticollis</i>	
187.	Rusty-fronted Tody-Flycatcher	<i>Poecilatriccus latirostris</i>	
188.	Yellow-olive Flycatcher/ Mato Grosso	<i>Tolmomyias sulphurescens pallescens</i>	
189.	Cliff Flycatcher Swallow	<i>Hirundinea ferruginea bellicosa/pallidior</i>	
190.	Southern Beardless-Tyrannulet	<i>Camptostoma obsoletum</i>	
191.	Suiriri Flycatcher	<i>Suiriri suiriri</i>	
192.	Subtropical Doradito	<i>Pseudocolopteryx acutipennis</i>	Transpantanal individuals maybe unique?
193.	Forest Elaenia	<i>Myiopagis gaimardii</i>	
194.	Plain-crested Elaenia	<i>Elaenia cristata</i>	
195.	Yellow-bellied Elaenia	<i>Elaenia flavogaster</i>	
196.	Large Elaenia	<i>Elaenia spectabilis</i>	
197.	Lesser Elaenia	<i>Elaenia chiriquensis</i>	
198.	Planalto Tyrannulet	<i>Phyllomyias fasciatus</i>	
199.	Fulvous-crowned Scrub-Tyrant	<i>Euscarthmus meloryphus</i>	
200.	Plain Tyrannulet	<i>Inezia inornata</i>	
201.	Chapada Flycatcher	<i>Guyramemua affine</i>	
202.	Vermilion Flycatcher/Austral	<i>Pyrocephalus rubinus rubinus</i>	
203.	Crested Black-Tyrant	<i>Knipolegus lophotes</i>	
204.	White-rumped Monjita	<i>Xolmis velatus</i>	
205.	White-headed Marsh Tyrant	<i>Arundinicola leucocephala</i>	
206.	Black-backed Water-Tyrant	<i>Fluvicola albiventer</i>	
207.	Dull-capped Attila	<i>Attila bolivianus</i>	
208.	Rufous Casiornis	<i>Casiornis rufus</i>	
209.	Short-crested Flycatcher	<i>Myiarchus ferox</i>	
210.	Brown-crested Flycatcher/ South American	<i>Myiarchus tyrannulus tyrannulus/bahiae</i>	
211.	Cattle Tyrant	<i>Machetornis rixosa</i>	

212.	Lesser Kiskadee	<i>Philohydor lictor</i>	
213.	Great Kiskadee	<i>Pitangus sulphuratus</i>	
214.	Boat-billed Flycatcher/ South American	<i>Megarynchus pitangua pitangua</i>	
215.	Rusty-margined Flycatcher	<i>Myiozetetes cayanensis</i>	
216.	Tropical Kingbird	<i>Tyrannus melancholicus</i>	
217.	Rufous-browed Peppershrike	<i>Cyclarhis gujanensis</i>	
218.	Ashy-headed Greenlet	<i>Hylophilus pectoralis</i>	
219.	Purplish Jay	<i>Cyanocorax cyanomelas</i>	
220.	Curl-crested Jay	<i>Cyanocorax cristatellus</i>	
221.	Black-capped Donacobius	<i>Donacobius atricapilla</i>	
222.	Southern Rough-winged Swallow	<i>Stelgidopteryx ruficollis</i>	
223.	Gray-breasted Martin	<i>Progne chalybea</i>	
224.	White-winged Swallow	<i>Tachycineta albiventer</i>	
225.	Masked Gnatcatcher	<i>Polioptila dumicola</i>	
226.	House Wren/Southern	<i>Troglodytes aedon [musculus Group]</i>	
227.	Thrush-like Wren	<i>Campylorhynchus turdinus</i>	
228.	Moustached Wren	<i>Pheugopedius genibarbis</i>	
229.	Buff-breasted Wren	<i>Cantorchilus leucotis</i>	
230.	Fawn-breasted Wren	<i>Cantorchilus guarayanus</i>	
231.	Chalk-browed Mockingbird	<i>Mimus saturninus</i>	
232.	Pale-breasted Thrush	<i>Turdus leucomelas</i>	
233.	Rufous-bellied Thrush	<i>Turdus rufiventris</i>	
234.	Creamy-bellied Thrush	<i>Turdus amaurochalinus</i>	
235.	House Sparrow	<i>Passer domesticus</i>	
236.	Purple-throated Euphonia	<i>Euphonia chlorotica</i>	
237.	Thick-billed Euphonia	<i>Euphonia laniirostris</i>	
238.	Saffron-billed Sparrow/ Gray-backed	<i>Arremon flavirostris polionotus</i>	
239.	Rufous-collared Sparrow/ Rufous-collared	<i>Zonotrichia capensis [capensis Group]</i>	
240.	Crested Oropendola	<i>Psarocolius decumanus</i>	
241.	Solitary Black Caciue	<i>Cacicus solitarius</i>	
242.	Yellow-rumped Caciue/ Amazonian	<i>Cacicus cela cela</i>	
243.	Variable Oriole/ Chestnut-shouldered	<i>Icterus pyrrhopterus [pyrrhopterus Group]</i>	
244.	Orange-backed Troupial	<i>Icterus croconotus</i>	
245.	Shiny Cowbird	<i>Molothrus bonariensis</i>	
246.	Giant Cowbird	<i>Molothrus oryzivorus</i>	
247.	Scarlet-headed Blackbird	<i>Amblyramphus holosericeus</i>	

248.	Chopi Blackbird	<i>Gnorimopsar chopi</i>	
249.	Grayish Baywing	<i>Agelaioides badius</i>	
250.	Unicolored Blackbird/ Yellow-breasted	<i>Agelasticus cyanopus cyanopus</i>	
251.	Southern Yellowthroat	<i>Geothlypis velata</i>	
252.	Tropical Parula	<i>Setophaga pitiayumi</i>	
253.	Golden-crowned Warbler/ White-bellied	<i>Basileuterus culicivorus hypoleucus</i>	
254.	Flavescent Warbler	<i>Myiothlypis flaveola</i>	
255.	Red-crested Cardinal	<i>Paroaria coronata</i>	
256.	Yellow-billed Cardinal	<i>Paroaria capitata</i>	
257.	White-banded Tanager	<i>Neothraupis fasciata</i>	
258.	Gray-headed Tanager/ Gray-headed	<i>Eucometis penicillata [penicillata Group]</i>	
259.	White-lined Tanager	<i>Tachyphonus rufus</i>	
260.	Silver-beaked Tanager	<i>Ramphocelus carbo</i>	
261.	Sayaca Tanager	<i>Thraupis sayaca</i>	
262.	Palm Tanager	<i>Thraupis palmarum</i>	
263.	Burnished-buff Tanager/ Stripe-bellied	<i>Stilpnia cayana [flava Group]</i>	
264.	Swallow Tanager	<i>Tersina viridis</i>	
265.	Blue Dacnis	<i>Dacnis cayana</i>	
266.	Chestnut-vented Conebill	<i>Conirostrum speciosum</i>	
267.	Blue Finch	<i>Rhopospina caerulescens</i>	
268.	White-rumped Tanager	<i>Cypsnagra hirundinacea</i>	
269.	Saffron Finch/Pelzelin's	<i>Sicalis flaveola pelzelni</i>	
270.	Blue-black Grassquit	<i>Volatinia jacarina</i>	
271.	Tawny-bellied Seedeater	<i>Sporophila hypoxantha</i>	
272.	Rusty-collared Seedeater	<i>Sporophila collaris</i>	
273.	Coal-crested Finch	<i>Charitospiza eucosma</i>	
274.	Red-crested Finch	<i>Coryphospingus cucullatus</i>	
275.	Bananaquit/Continental	<i>Coereba flaveola [luteola Group]</i>	
276.	Black-throated Saltator	<i>Saltatricula atricollis</i>	
277.	Buff-throated Saltator	<i>Saltator maximus</i>	
278.	Bluish-gray Saltator	<i>Saltator coerulescens</i>	Recently split from Greyish Saltator
279.	Green-winged Saltator	<i>Saltator similis</i>	

OTHER SPECIES	Scientific Name
Black Mastiff Bat	<i>Molossus rufus</i>
Lesser Bulldog Bat	<i>Noctilio albiventris</i>
Black-tailed Marmoset	<i>Mico melanurus</i>
Azara's Capuchin	<i>Sapajus cay</i>
Black-and-gold Howler Monkey	<i>Alouatta caraya</i>
Crab-eating Fox	<i>Cerdocyon thous</i>
Neotropical River Otter	<i>Lontra longicaudis</i>
Giant Otter	<i>Pteronura brasiliensis</i>
Jaguar	<i>Panthera onca</i>
South American Tapir	<i>Tapirus terrestris</i>
Common Brown Brocket	<i>Mazama gouazoubira</i>
Marsh Deer	<i>Blastocerus dichotomus</i>
Capybara	<i>Hydrochoerus hydrochaeris</i>
Azara's Agouti	<i>Dasyprocta azarae</i>
Tapeti	<i>Sylvilagus brasiliensis</i>
Yacare Caiman	<i>Caiman yacare</i>
Whiptails and Tegus	<i>Teiidae</i>
Asian House Gecko	<i>Hemidactylus frenatus</i>
Atta Leaf-cutter Ants	<i>Atta</i>
Julia Heliconian	<i>Dryas iulia</i>
Red Postman	<i>Heliconius erato</i>
Red Cracker	<i>Hamadryas amphinome</i>
Numberwings	<i>Callicore</i>
Sisters	<i>Adelpha</i>
	<i>Zaretis</i>
White Peacock	<i>Anartia jatrophae</i>
Owl-Butterflies	<i>Caligo</i>
Morphos	<i>Morpho</i>
