

BOLIVIA

Oct 25 – Nov 18, 2024

TRIP REPORT

Bolivia - 2024

25th Oct – 18th Nov 2024

HIGHLIGHTS

Either for rarity value, excellent views or simply a group favourite.

- Blue-throated Macaw
- Plain (Beni) Softtail
- Beni Greenlet (Undescribed)
- Velvet-fronted (Bolivian) Grackle
- Orinoco Goose
- Sharp-tailed Tyrant
- Giant Conebill
- Andean Condor
- Cliff Parakeet
- Cream-backed Woodpecker
- Giant Coot
- Bolivian Slaty Antshrike
- Blue-and-yellow Macaws
- Orange-browed Chlorospingus
- Wedge-tailed Hillstar
- Titicaca Grebe
- Black-hooded Sunbeam
- Red-fronted Macaw
- Violet-throated Starfrontlet
- Cochabamba Mountain-Finch
- Bolivian Brushfinch
- Yungas Pygmy Owl
- Bolivian Recurvebill
- Hooded Mountain Toucan
- Gray-bellied Flowerpiercer
- Red-necked Woodpecker
- Bolivian Antpitta
- Rufous-faced Antpitta
- Olive-crowned Crescentchest
- Green-throated Tanager
- Inti Tanager
- Palkachupa Cotinga
- Rufous-crested Coquette
- Torrent Ducks
- Tucuman Amazon
- Bolivian Earthcreeper
- Tataupa Tinamou
- Slaty Gnateater
- Gould's Inca
- Andean Parakeet
- Scissor-tailed Nightjar
- Yungas Manakin
- Scaled Metaltail
- Buff-thighed Puffleg
- Torrent Ducks

SUMMARY:

It's was a delight to finally get our Sunrise Birding group to Bolivia. We were all amazed at the wonderful scenery, the friendly people, and our wonderful crew who looked after us all of the way. Led by our excellent guide and friend, Diego Calderon, we worked our way through an envious list of birds.

In fact, we successfully found all the possible country endemics we could have hoped for on this trip and all the key target species with Bolivia / Bolivian / Yungas / *boliviana* / *bolivianus* / in their English or scientific names. Our tour was comprised of a pre-tour to Barba Azul for the critically endangered Blue-throated Macaw which was thought to be extinct until 1992, before being found in northern Bolivia with a tiny population of around 350-400 birds. We then embarked on the main 16-day tour visiting incredible areas such as Los Volcanes, the Red-fronted Macaw Reserve, and the high-altitude

Lake Titicaca. Finally for those intrepid enough to continue, we made the long expedition to Apolo where we had great views of one of the world's rarest birds, the Inti Tanager, a bird only described to science in 2023. Bolivia is actually in a bit of a mess with protests, blocked roads, and fuel shortages causing long lines at gas stations. However, we avoided all of this with our superb ground operator making quick decisions and changes so we could keep to our designated itinerary. We enjoyed wonderful hospitality and a wealth of incredible birds. Thanks again to Diego and our excellent ground crew.

PRE TOUR - Barba Azul - 25th - 29th Oct

Day 1 Santa Cruz - 25th Oct

With some of us arriving a day early, this was our unofficial birding / leisure / warm up day at the Santa Cruz Botanical Gardens. After some hiking around, we enjoyed the ponds with some Snowy Egrets, Cocoi Heron, Striated Heron, and a few lazy Capybaras, while nearby in the surrounding trees, we got good views of perched Blue-winged Parrotlets. In the forest, we found our main target - a male Bolivian Slaty-Antshrike which showed well, alongside a perched Scaly-headed Parrot. A nice Black-tailed Marmoset was a good mammal addition. It was now very warm and the air was filled with noisy cicadas, so we agreed to our driver Herman's suggestion and transferred to the nearby Laguna Guapilo. Once here, we stood under the shade of a tree and scanned the large lake. We soon found several Ringed Teals and quite a few other water birds including three species of Whistling Duck - White-faced, Black-bellied and Fulvous, plus Brazilian Teal, Least Grebes, Wattled Jacanas, Limpkins, Snail Kite, two Maguari Storks, and some Southern Screamers.

After lunch and a bit of a rest at the hotel, we visited the airport grasslands where we found several **Greater Rheas**, as well as Pearly-vented Tody-Flycatcher, Fork-tailed Flycatchers, Guira Cuckoos, and Wedge-tailed Grass-Finch. However, we could not lure in a very close Red-winged Tinamou (something we would need to work on again later), but beautiful Red-crested Cardinals entertained us. A final quick visit to Valle Suarez was very slow although Burrowing Owl and Blue-crowned Trogon attracted us for a while before returning to our hotel for the night.

Day 2 Santa Cruz - Trinidad - 26th Oct

Today our official pre-tour extension for the Blue-throated Macaw started. We woke up in a flooded Santa Cruz city after a cold front made it rain all night long. Bad weather delayed all of our flights, so when we landed in Trinidad, we couldn't take our charter flight to Barba Azul Reserve. Our pilot, Captain Francisco, invited us for lunch at his "secret spot" where we enjoyed local fried Crocodile tail and we discussed the cancelled flight and swapped plans to stay in Trinidad, checking in at a Hotel located on the shores of Laguna Suárez Lake. We did some birding close to our cabins under heavy clouded skies and some drizzle and strong winds. On the lake edges were wet looking Jabirus, **Maguari Storks**, and thousands of White-faced Whistling-Ducks. Further scanning produced Crested Caracaras, Brazilian Teal, some Large-billed Terns, Wattled Jacanas, and among the few shorebirds we found White-rumped and a lone Pectoral Sandpiper, Lesser and Greater Yellowlegs, and both Solitary and Spotted Sandpipers. The hotel gardens held a Savanna Hawk, Yellow-collared and Chestnut-fronted Macaws, plus White-eyed Parakeet, Black-billed Thrush, Bluish-grey Saltator, Greyish Baywing, and numerous Unicolored Blackbirds, as well as the always neat-looking Rufous

Cacholote. This evening, we went for a GREAT barbeque dinner in town hoping for better weather the next day.

Day 3 Beni - Barba Azul - 27th Oct

Thanks to our impromptu change of plans, the driver that we got last minute never showed up early morning. With only a couple of hours before our charter flight to find some key Beni endemics, this did not look great. We did however get a little time to see a few birds in and around the gardens. More parrots and Macaws were

seen and Maguari Storks numbers were now up to 30. A group of eight Peach-fronted Parakeets were seen and ten Red-bellied Macaws flew over. A Greater Thornbird was examined and two Masked Yellowthroats hid among a brush pile. Chalk-browed Mockingbirds were common and things were brightened up with a few Red-crested Cardinals. It was Sunday morning, so eventually after loads of phone calls, Deigo managed to get us transportation that would allow us just 1 hour of birding before having to get to our private charter flight. Luckily Captain Francisco had confirmed that the weather was good and we were set to go. We raced on to get to a spot that Diego knew could be good. We got out of the car, saw a couple of flycatchers, and after a bout of playback from recordings Diego made here 5 years ago, there

beside the road was our first mega target: a lovely, eye-level, cooperative couple of the yet-to-be described “**Beni Greenlets**”! What a relief and such AMAZING views! Elated, everyone boarded the car again and quickly drove a couple of kilometers more and tried for the nominate subspecies of Plain Softtail but no success. We jumped in again to go a little further and boom! a

couple of the “**Beni Softtail**” were giving us fantastic views in our scope and cameras. This is another localised key subspecies which is going to be split. After nailing down these two in record time, we showed up at the airport, and took an amazingly cool charter flight over the Llanos de Moxos savannas and landed in the Barba Azul Reserve for lunch. Our visit to this wonderful lodge was to see the critically endangered Blue-throated Macaw. After landing

on the dusty runway, our luggage was transported to our cabins, while we walked slowly through the grasslands towards the lodge. Long-winged Harriers were seen, plus numerous **Blue-and-yellow Macaws**, and some Grassland Sparrows. On our way to our cabins, we saw a couple of Seven-banded Armadillos feeding on the fruit fallen from a tree. There were also a few brightly colored Giant Ameivas. After a wonderful lunch, we took a look around the lodge grounds and nearby marsh, where we found us a tree full of Hoatzins, plus a showy Ferruginous Pygmy Owl, Black-tailed

Tityras, and several Campo Flickers. We were then invited to join Julián on his monitoring of the Macaws, so after crossing the river on a small boat, we walked with him a couple of hours to his monitoring site. In the wet grasslands were Plumbeous Ibis, Roseate Spoonbill, Rufescent Tiger-Herons, Southern Screamer, White-headed Marsh-Tyrants and Red-breasted Meadowlarks. As we made our way through the small patch of forest, we found Short-crested and Dusky-capped Flycatchers, Little Woodpecker, and White-wedged Piculet. A Toco Toucan flew past and along the way, we briefly got a couple of **Blue-throated Macaws** perched on a palm tree, and in the scope. While we waited for more macaws at Julián's watch point, a Red-winged Tinamou was heard singing so Diego played the call once and using his brand new thermal monocular for first time, he located it in no time, and we all enjoyed great views. This afternoon there were actually no Blue-throated Macaws flying by the monitoring site, so we came back to lodge for dinner. As we made our way to the dining room, we were distracted by the antics of a female American Kestrel hunting for insects coming to the lodge lights.

Day 4 Barba Azul - 28th Oct

This morning, we went super early to the air strip to see if we could spot a Maned Wolf. We did not find one but did find fresh scat and some footprints. Among the birds we found were a few very sharp looking Sharp-tailed Tyrants and Steve and Mick got a superbly close and cooperative Ash-throated Crake in a ditch. Toco Toucan was also spotted, as well as Black-faced Tanagers, Swainson's Flycatchers, Gilded Hummingbirds, Sharp-tailed Tyrants, Wedge-tailed Grass Finch, and lots of Blue-and-yellow Macaws. As we returned, we spotted a couple of Collared Peccaries and then a Marsh Deer which walked out onto the open runway. After breakfast, we walked around the river edge finding Steve's life **Orinoco Goose** that was one of the last waterfowl in the world he was still missing. There was also both Ringed and Amazon Kingfishers, a male Rusty-collared Seedeater and then we got super views of a close Yellowish Pipit. We came back for lunch, and this then managed to cross the river using the not-quite-ready-yet pontoon and wood floating bridges that the workers were using for themselves. From the bridge boardwalk we got Striped Cuckoo (which Lynda spotted right away!) and some flying Blue-throated Macaws. We saw at least 12 Blue-throated Macaws this afternoon, along with hundreds of Blue-and-yellow Macaws and out beyond the forest a few goodies like White-rumped Tanager. We came back at dusk and had great looks at several Band-tailed Nighthawks flying over our heads.

Day 5 Barba Azul - Trinidad - Santa Cruz 29th Oct

This morning, we again visited the airstrip where Ocellated Crakes were heard singing, but no chance of ever seeing them in the long grass. Tons of Blue-and-yellow Macaws, or as we prefer the name (Black-throated = Barba Negra) were flying around. We also spotted a couple of Yellow-collared Macaws, plus White-rumped Tanagers were singing their dawn chorus as well as Wedge-tailed Grass-Finches catching the morning rays, and some **Sharp-tailed Tyrants**. After breakfast we said our goodbyes to the lodge staff and

flew back on our tiny charter flight to Trinidad. Again, we only had a few hours available to nail down some more Beni specialties before our flight to Santa Cruz, so we went to a trail Diego knew and after some amazing Pheasant Cuckoo activity we were lucky enough to connect with three **Velvet-fronted (Bolivian) Grackles** that were building a nest.

Happy with our finding, we went for lunch, checked the Blue-and-yellow Macaws, along with Mitred Parakeets at Trinidad's town square along with a Toco Toucan that got the attention of the locals! and then we flew back to Santa Cruz via Cochabamba where we got together with the rest of the group ready to start the main Bolivia trip next day.

MAIN TOUR - 30th Oct - 13th Nov

Day 6 Lomas de Arena - Los Volcanes 30th Oct

We were having coffee 5 AM with the whole group already assembled for the main trip that started today. We drove to Lomas de Arena where we got the classic **Chaco Puffbirds**, Guira Cuckoos, Speckled Chachalaca, Picui Ground-Dove, a Yellow-billed Cuckoo, Gilded Hummingbird, several Blue-crowned Trogons, Barred

Antshrike, Yellow-bellied and Lesser Elaenia, Crowned Slaty Flycatcher, Red-crested Finch, some Black-backed Grosbeaks, a Vermilion Flycatcher and a distant Red-legged Seriema that Bobby spotted far away from the road. A very cooperative Great Antshrike posed for the group, while a Ferruginous Pygmy-Owl was also vying for photographs and Little Woodpecker showed well. It began to get quite hot, so we went for a great earlier lunch in the town of Casarao, one of those huge Brazilian buffets.

After this we started our drive to Los Volcanes. A couple of stops along the way added Toco Toucan and White Woodpecker, both most wanted lifers for Bobby. We finally got to the amazingly scenic Los Volcanes and transferred to their local 4x4s to drive down its infamous steep road luckily flushing a huge female Bare-faced Curassow as we descended. We then walked the last kilometer to the lodge, getting us Two-banded Warblers, Guira Tanagers, Streaked Xenops, Buff-fronted Foliage Gleaners, as well as Blue-headed Parrots, and the always cool Plush-

crested Jays.

After a nice shower, we assembled for dinner, made the checklist and went to bed closing our first successful day in Bolivia with the whole group now together on the main tour.

Day 7 Entrance Road - Loro Trail - Ambro NP 31st Oct

We started the day walking the main entrance road of the reserve where we nailed down our first targets, the Ochre-cheeked Spinetail and the diminutive Black-capped Antwren. After an Amazonian Motmot or two, we came back for breakfast and then we did the Loro Trail where slowly we grabbed some goodies like a neat couple of Slaty Gnateaters, a canopy-hiding Yungas Manakin, and some Military Macaws high up in the red walls of these Los Volcanes crazy sandstone formations. After lunch and a bit of a rest, we again decided to hit the main road where another group had seen the Bolivian Recurvebill in the morning. We roved the area for hours, and eventually had a bird responding to tape and posing for everyone even in the scope while it was preening. Only Steve & Gina didn't get to see it as they were helping everyone getting on the bird... so that was a hard hit for them. With some other birding friends that were there, we tried a Rufescent Screech-Owl that never came and went for late dinner (with cake that the lodge and our operator got for Steve's birthday), and a good rest.

Day 8 Los Volcanes Reserve - Refugio Colibrís - 01st Nov

We tried again very early for the screech-owl without success and then hit the road to do our final birding at this unique place. We got marvellous views of **Red-necked Woodpeckers** which Kenton helped to find again after they flew a bit, and then a cool mixed flock with Olivaceous Woodcreeper, Black-capped Antwren, Two-banded Warbler, Guira Tanager, White-winged Tanager, and others. That very same flock brought another Bolivian Recurvebill offering great views and Gina was able to catch up, while Steve was too far away and never saw the bird.

We left Los Volcanes and drove to Samaipata to visit a hummingbird garden where Katy got her 4.500 life-list species in the form of a neat White-vented Violetear. The feeders were active with mega-shiny Glittering-bellied Emeralds, as well as Red Crested-Finch, Ultramarine Grosbeak, Moss-backed Sparrow, and others coming to corn. Just before leaving Katy called our attention to a bird, which Diego called out to the whole group, and we got point blank views of a lovely couple of Tataupa Tinamous calling and chasing each other around.

We then moved on a little and did a bit of birding in the Pipeline Road to finish the day and even though it was slow we picked up new key birds for the trip like a nice pair of Yungas Guans, plus Chestnut-bellied Mountain Tanager.

Day 9 Laguna Esmeralda - Quirusillas - Saipinía - 02nd Nov

After an early breakfast we left for a nearby Laguna, where just a few minutes after arriving we were already having scope views of a **Tucuman Amazon** that we found here at the most northern edge of its range. Several Andean Condors were flying and perching on the rock face above the lake and hundreds of noisy Mitred Parakeets ruled the place, flying around as if possessed. We birded the loop trail around the lake perimeter, seeing Brown-capped Whitestarts, and a superb

Golden-winged Cacique. And then a little further on we connected with one of our other main target species a beautiful couple of **Green-throated Tanagers** of the nominate subspecies which is endemic to Bolivia. We then did some roadside

birding before an early and spectacular lunch provided by Benita and Carlos. Later, we said our goodbyes to Carlos and his bus and transferred to 3 smaller vehicles (with Herman again, Anibal and Miguel) and did a bit of crazy off-road over the mountains detour to be able to keep on our original schedule and reach the Red-fronted Macaw Lodge. A late afternoon bit of roadside birding at a little stake out that Diego knew, gave us great looks at Greater Wagtail-Tyrants, Golden-billed Saltator, White-tipped Plantcutters, and a distant Many-colored Chaco Finch. Tired but elated that we finally were able to get here, we reached the reserve, got dinner and beers to celebrate, and went to bed.

Day 10 Red-fronted Macaw Reserve - 03rd Nov

We were up at 5:30 am for coffee on the veranda and were soon seeing pairs and small groups of the gorgeous, **Red-fronted Macaws**, a country endemic! These noisy birds were flying all over the place and while watching

these we even saw a couple of Andean Swifts flying into the cliffs. There were plenty of seriously cute White-fronted Woodpeckers in the cactus, while the bird feeders also had a lot of activity with Blue-and-yellow Tanagers, endemic Bolivian Blackbirds (in its own monotypic genus *Oreopsar*), Gray-crested Finch, and Golden-billed Saltator among others. On a little hike by the river, we connected with Ringed Warbling Finch, **Greater**

Wagtail-Tyrant, Glittering-bellied Emeralds, White-bellied Emerald, Chaco Puffbird and some Cliff Flycatchers, as well as dozens of Cliff Parakeets which, for some, are still treated as a subspecies of Monk Parakeet. A Bolivian Earthreeper was heard in the distance but never came close enough to even attempt to see. After lunch and a much-deserved rest, we did a little bit of road-side birding around town and

connected with both Sooty-fronted Spinetail and White-crested Tyrannulet. After this we drove up to the lookout in front of the lodge to see the spectacular display of macaws flying from above. Returning to the lodge, a tiny bit of playback and a quick scan with Diego's thermal monocular, got everyone stunning views of Scissor-tailed Nightjar sat on the track.

Day 11 *Red-fronted Macaw* *Reserve - Comarapa - 04th Nov*

This morning, we were invited to the special feeding session of the Red-fronted Macaws by the local ranger. We got our early morning coffee and walked a short distance to the river, where we had to get barefoot and cross, and in no time, we were enjoying fantastic views of at least 40 **Red-fronted Macaws** perched close by in a tree waiting to be fed peanuts by don Simón, the local ranger. After this remarkable show we headed back for breakfast, with some of the group finding a beautiful Banded Hognose Snake along the way. It was time to reluctantly leave this wonderful site, and start to bird the old route to Comarapa which was full of beautiful dry forest.

A quick stop found us a Burrowing Owl and several Striped Woodpeckers among the now regular **White-fronted Woodpeckers**. Our next stop got everyone excellent looks at the much-wanted Giant Antshrike, and some quick flyby views of Bolivian Earthcreeper, and superb views of a Stripe-crowned Spinetail. Just before lunch we got a small mixed flock which included a Gray-headed Elaenia that we saw perfectly but didn't bother to take photos, and later learned it was a rare record in this habitat thanks to eBird reviewer Jacob Wijpkema... ouch!

During lunchtime, Gina spotted a life bird for Diego, a pair of Cream-backed Woodpeckers! These beautiful birds were traveling together leapfrogging from one big tree to another... incredible!

We reached Comarapa and instead going to our lodging, we took a short walk to try for Olive-crowned Crescentchest, which did not cooperate today. But we did get our first Red-tailed Comet of the trip.

We then arrived at the lodge where a logistical challenge arose: they didn't have beer!!! and did not allow people to drink in the facility as it was a sort of religious youth camp site or something like that... some more backstage work for the tour leader ;-)) and we all enjoyed our beer!

Day 12 La Siberia - 05th Nov

Today we headed out early to the famous La Siberia yungas where, before breakfast, we had already seen different angles of Trilling Tapaculos, a Plumbeous Black-Tyrant, incredible views of an **Andean Slaty Thrush**, but could not get a glimpse of the calling Rufous-faced Antpitta. Benita and Herman surpassed themselves with another beautiful fresh breakfast in the field and then we continued finding birds in this amazing cloud forest including Light-crowned Spinetail (buffy crown version), Pale-legged Warbler, Chestnut-bellied Mountain Tanager, Bolivian Brushfinch, Blue-backed Conebill, Long-tailed Sylph, Crested Quetzal, Masked Trogon, Ocellated Piculet, and a solitary Black-winged Parrot that flew high overhead calling. Both Swallow-tailed Kite and White-rumped Hawks were spotted, before we drove higher

to give a try for the endemic Black-throated Thistletail but it never came out into the open behaving similarly to a Yungas Pygmy-Owl that teased us for minutes and

never showed. Heading back down for lunch we eventually got everyone in the group good views of the endemic Rufous-faced Antpitta and our first Violet-throated Starfrontlet. Before the torrential rain set in, we did a short stop for a very showy **Olive-crowned Crescentchest** and a beautiful fully plumaged male Red-tailed Comet, and several Rufous-sided Warbling Finches. Happy with our day we returned to our accommodation, and took a quick look at a Barn Owl roosting in a Palm tree. We then went for dinner.

Day 13 La Siberia - 06th Nov

Today again we were facing a logistical challenge thanks to the road blocks so we could not actually drive to Cochabamba; instead, we went birding in the even-higher yungas above La Siberia, with the view that the next day we would drive back to Santa Cruz and then fly to Cochabamba... This slight modification to our trip schedule was actually not going to affect us much, as far as the birds we wanted to find, excepting one possible cool hummer – the Wedge-tailed Hillstar, which was now going to be difficult to catch up with! So, we went up and did a short stop first at Churo where we had great views of Gray-hooded Parakeets, **Fulvous-headed Brushfinch**, Tufted Tit-Tyrant, and a life bird for everyone, the Rusty-browed Warbling Finch. We got to the Cruce Pojo higher yungas and even though it was quite cloudy we found Spot-winged and Band-tailed Pigeons, and while the mist rolled in, we got the endemic Bolivian Antpitta (part of the split from Rufous Antpitta), Hooded Mountain-Toucan,

Band-tailed Fruiteater, White-browed Conebills, Grey-bellied Flowerpiercers, Band-tailed Seedeater, Great Pampa Finch, and finally a proper look at a Yungas Pygmy-Owl. The area was packed with the nominate “Bolivian” Violet-throated Starfrontlet and we ended up seeing a few Black-throated Thistletails and even finding a couple of this neat endemic nesting where we could record their interaction calls. We returned to our lodging and celebrated with some allowed beer! Steve called the checklist and we all went to bed after a great impromptu birding day.

Day 14 *Driving and Flight to Cochabamba - 07th Nov*

Today basically became a long morning of driving... we started at 4am, later got some flying-by Red-fronted Macaws and at pee stops we found Ultramarine Grosbeak and Plush-crested Jays. After lunch and before our flight to Cochabamba, we stopped for some Greater Rheas and said goodbyes to our great drivers. Luckily Benita continued on with us, which we all appreciated as she had been really, really spoiling us with her amazing food and snacks during the whole trip! We landed in Cochabamba and went to our hotel for a great dinner at a nearby restaurant that night.

Day 15 *Corani Dam - Monte Tables - Laguna Alalay - 08th Nov*

Today brought another kind of impromptu situation that fortunately again, it did not affect the birding on this tour: Diego needed to go and get tested for Dengue fever, so Steve along with José Balderrama, a local expert birder and top ornithologist working for Armonia, Bird Life’s partner in Bolivia, took the tour and had a fantastic time. The first stop was the Corani Dam where we enjoyed the very first point-blank views of the main target of the day, the Bolivian endemic and very attractive, **Black-hooded Sunbeam**. Bill, of course, was overly excited by this lifer, and we all got caught up in his enthusiasm, as it was certainly a beautiful bird. We had great fun tracking down a Bolivian Antpitta which in the end came so close that we couldn’t even focus our cameras on it. Wow! Benita and Carlos served up another fantastic cooked breakfast in the field, while we all got great looks at **Scaled Metaltail**, Bolivian Brushfinch, Rust-and-yellow Tanager, and White-browed Conebill, among many others. We then descended a bit to the yungas in the Tablas Monte area nailing down Gould’s Inca, Bolivian Tyrannulet, and Olivaceous Siskin. After some time in crazy traffic, and before reaching the hotel, we visited a Laguna where we found a great variety of species, such as Cinnamon and Yellow-billed Teals, White-cheeked and Yellow-billed Pintails, Andean Duck, Common Gallinule, Slate-colored Coot, Black-necked Stilt, Andean Avocet and Lesser and Greater Yellowlegs. Both, Wren-like Rushbird and Many-colored Rush Tyrant were there in the reeds, but due to the wind were difficult to see. We moved around to another area of the Laguna to find Chilean Flamingos, of which there were plenty. A search in the shallow waters beside them produced White-tufted and Silvery Grebes, Puna Ibis, and a lone Rosy-billed Pochard. Eventually we headed back to hotel, and later had dinner together with a special guest that had to work hard to pay for his dinner: Diego’s mate, Sebastian Herzog,

main author of the field guide to the *Birds of Bolivia* book. He happily shared stories about birding in Bolivia and autographed some books for the group. We all enjoyed a fabulous meal and great company.

Day 16 Cerra Tunari - San Miguel Polylepsis - La Paz - 09th Nov

So today we birded the morning at Cerro Tunari, with loads of cool targets to find, plus an additional goodie, the Wedge-tailed Hillstar that we had previously missed. We started early and checked a corner of the road where friends had recently seen the Hillstar, and indeed, a few minutes later and after some 100 meters walk on the road, we were having views of a superb male perched beautifully showing its green sparkling throat, black chest and rusty flanks... what a bird. Bill was very happy catching up with this, one of his main Bolivia targets. We kept birding along the road adding a small flock of Andean Parakeets, Giant Hummingbird, Great Sapphirewing, and all those important brown jobs from high altitude such as Streak-fronted Thornbird, Creamy-breasted and Maquis Canasteros, Rock Earthcreeper, and Brown-capped Tit-Spintail. While having breakfast we got great views of our target Cochabambinos (**Cochabamba Mountain Finch**), so we drove higher to the Polylepis forest where specialties fell relatively easy - single Tawny Tit-Spintail, a pair of Rufous-bellied Mountain Tanagers, and a couple of very obliging Giant Conebills. We then drove to the airport and took our flight to La Paz, checked into the Hilton, before going to dinner with a couple of fellow north American birders we just met at the hotel.

Day 17 La Paz - La Cumbre - Pongo - Road of Death - 10th Nov

We left La Paz early to avoid the city traffic, and before long we were birding La Cumbre at 15,500 feet above sea level. Beside a mountain lake we found **Glacier Finches**, Andean Gulls, Mountain Caracaras, Andean Geese, Andean Lapwing, and a few Andean Hillstars that graciously foraged on small flowers on the ground in front of us. We then headed down to Pongo for breakfast and some more goodies - Cream-winged and White-winged Cinclodes, Scribble-tailed Canastero, D'Orbigny's Chat-Tyrant, Black-throated Flowerpiercers, and Ash-breasted Sierra Finch were all breakfast appetizers, Further up the valley, we found Puna Tapaculo and Stripe-headed Antpitta, both of which made us work hard, but perseverance paid off in the end with both species

posing for us. We continued on to the infamous cool-forested and birdy Death Road focusing on the higher elevation targets. Gould's Inca, Yungas Pygmy-Owl, **Hooded Mountain-Toucan**, Diademed Tapaculo, White-collared Jay and Golden-collared Tanager were all exciting finds. **Orange-browed Hemispingus** took a little more finding, but eventually we got point-blank views of this Bolivian near-endemic. We then had to retrace our

steps and drive back up the same way we came, thanks to a landslide that would not allow us to navigate the full road. Eventually we made it to our

Rio Selva Resort for the night and some last-minute additions were made for the list like Torrent Duck, Speckled Chachalaca, Fasciated Tiger-Heron, Torrent Tyrannulet, Black Phoebe and Swallow Tanager among others.

Day 18 *Death Road - Pongo Valley - Lake Titicaca - 11th Nov*

We were today focusing all our morning on the lower section of the great Death Road, but had to drive all the way up to the top and descend it because of the recent landslide... We took in all in stride and saw fabulous birds including Fulvous Wren, **Buff-thighed Puffleg** (one of those not great looking, but restricted hummers that made Bill very happy!), Blue-banded Toucanet (sharing its Cecropia tree with a Hooded Mountain-Toucan and a Versicolored Barbet!), Ochre-faced Tody-Flycatcher, Bolivian Tyrannulet, White-browed Brushfinch, while a couple of singing Yungas Warblers never came out. We tried and tried for the Scimitar-winged Piha and only got a bird dropping out of a tree for a few seconds. Initially it was perched behind leaves and branches, totally silent, and unfortunately it was only a few from the group that could see parts of it. We left this amazing area and made our way slowly to our hotel on Lake Titicaca, where we had a late dinner and much deserved rest.

Day 19 *Lake Titicaca - Sorata - 12th Nov*

After the long drive yesterday, we decided to start the day a little later than normal with a luxury breakfast at 6:30 AM. Some of us took advantage of some quick birding before breakfast, and nailed down the endemic, flightless **Titicaca Grebe** from right in front of our hotel.

After breakfast we drove to Sorata where we tried several spots for our last possible country endemic on this main tour, the Berlepsch's Canastero. Some of us did see it but quick and often just distant views. White-winged Black-Tyrant, Cinereous Conebill, and Peruvian Sierra Finch were also around and driving back to the Lake Titicaca we added Andean Flicker and finally got good views of Spot-winged Pigeons.

We made it to the hotel and birded the lake shore that was full of Yellow-billed Pintail, Yellow-billed Teal, Puna Teal, Andean Duck, a lone White-tufted Grebe, and amazing close views of a couple of **Titicaca Grebes**

feeding and caring for a couple of chicks, which were most of the time happy riding on their parents back...what a sight! We got decent looks at a Wren-like Rushbird, plus a few Black Siskins and Andean Swallows, before we visited a small museum showing all the art and skill of the boat builders that use reed material from the lake design and build these amazingly basic but sturdy vessels that crossed the Pacific and the Atlantic oceans on unimaginable long and perilous expeditions. Tonight, we got us some drinks, made the checklist and enjoyed dinner, before saying goodbye to some of the participants of the main tour and to some of our drivers like Gabriel that were not going to continue on the post-trip extension to Apolo.

POST TOUR - Apolo - 13th Nov - 18th Nov

Day 20 Lake Titicaca - Charazani - 13th Nov

We had some very long drives ahead of us to reach Apolo, the destination of several very special birds. The trip to Apolo involved 2 days driving with a stop at the small mountain town of Charazani to break it up. Our first stop today looked out at the huge expanse of Lake Titicaca where we counted over 6,000 Slate-colored Coots, and more than 4,000 Chilean Flamingos. Most of the birds were very distant and we needed scopes to pick out Black-necked Stilts and a couple of Andean Avocets. A pair of Aplomado Falcons dashed past, and a Cinereous Harrier put in an all too brief appearance. In the scrub below us were several Rufous-naped Ground-Tyrants, and some Peruvian Sierra-Finches. We continued on passing flocks of Andean Geese, Spot-winged Pigeons and Mountain Caracaras. On reaching the high Puna altiplano at more than 15,000 feet, we made a few stops at some mountainous ponds.

We found Crested Ducks, a lone Stilt Sandpiper and some enormous **Giant Coots**. Further on, in completely barren habitat, we found both Common Miner and a

Puna Miner which was occupying a hole in the roadside bank. We finally reached the small town of Charazani and enjoyed dinner before retiring for the night.

Day 21 Charazani - Yungas - Apolo - 14th Nov

We needed to start very early today and after a 4 AM quick coffee and fruit we left Charazani for a full 5 hours' drive to the first area of decent Yungas habitat. While waiting for yet another amazing breakfast to be made by our trusty drivers Carlos and Miguel, we found our first Upland Antshrike and Cabanis's Spinetail. After breakfast and further on, we found a **Plumbeous Kite** sat on its nest with a couple of large chicks. When one of the adults flew off it allowed unprecedented views of a flying bird from above. Just a little further on we found

a pair of Bat Falcons perched on a dead tree, and a close by Bar-breasted Piculet. Moving on again and passing a huge waterfall we found more areas of Yungas where a Chestnut-eared Aracari, Olive-sided Flycatcher and both Yungas Tyrannulets and Yungas Tody-Tyrant was seen. We also got Bananaquit for the trip but couldn't connect with Rufous-crested Coquette at one of Diego's stakeouts. Other short stops had us find Blue-necked, Golden and Swallow Tanagers, Purple Honeycreeper, Buff-throated Saltator and a Chestnut-bellied Seed-Finch. W

We then kept driving straight to Apolo in order for the drivers to prioritize getting fuel, for tomorrow's excursion to look for the mythical Inti Tanager. Our accommodation was fabulous and not what we had envisioned. It was a working monastery and the sister in charge could not be more hospitable, and the food they cooked for us was wonderful.

Day 22 The Inti Tanager - 15th Nov

After a 4 AM coffee, we were on our way to look for one of the holy grails of Neotropical birding. The **Inti Tanager**, a bird only described to science in 2021 and the only member of the genus *Heliothraupis* which breeds in and around the Machariapo Valley in western Bolivia from roughly November to March, then disperses northward along the east slope of Andes into southern Peru.

The word 'Inti' comes from an ancient indigenous word for the sun, which reflects this bird's bright orange color. The whole point of this post tour extension was to try and see this remarkable species. We broke up the 2 and half hour drive with a couple of roadside stops in between napping in the cars. We got some great birds including Amazonian Umbrellabird, Gray-cowled Wood-Rail, Amazonian Motmot and Dusky-green Oropendolas. Diego's intuition was to try the site that friends had tried and was the furthest from our search area, in order that we could then work our way back through suitable habitat if we missed it.

The friends that had just been here a week or two earlier, only heard the bird but never saw it. We finally reached our beautiful dry forest

patch where the main reason for all these long drives was (hopefully!) hiding. We were entertained first with some other key targets like a couple of bamboo-dwelling Striated Antbirds, and a few Rufous Casiornis, while Diego was playing back his own recordings of the tanager made here six years ago. There was then a moment of silence when both Steve's and Diego's ears started to prick-up, we looked at each other and both said smiling at the same time: "it's responding!". A little bit more playback and we were soon all enjoying close views of a singing male, and not far behind was the drabber female. This amazing bright orange/yellow beast is what brought us to Apolo and was the whole reason behind this extension, so we were so happy and relieved at seeing it so well at the beginning of the day and after so much effort. We now had time to bird some more of this dry forest before lunch. A Grey-headed Kite flew over the forest, and group of noisy Black-fronted Nunbirds caught our attention, while a distant perched Black-and-white Hawk-Eagle was a great find by Katy. Searching back along the road we found Western Striolated-Puffbird, Inambari Woodcreeper, White-bellied Pygmy-Tyrant, Chestnut-vented Conebill and got more views of the wonderful **Inti Tanager**. We then drove back to the nunnery to celebrate with dinner, a few beers and an early night.

Day 23 Aten - 16th Nov

Today we drove south towards the town of Aten, and a quick road stop before breakfast overlooking a small wooded valley got us our target the **Palkachupa Cotinga**. The name came from the local name for the Swallow-tailed Cotinga that is represented by an isolated population, over two thousand kilometres away in eastern Brazil. Some taxonomies have the Palkachupa as a sub-species, while others such as the IOC have it as a full species. After seeing a female arranging mosses on a nest and around 6 or 7 other individuals, we drove a little further where the drivers left us on a corner

and drove ahead to prepare breakfast. We walked the road and eventually reached the breakfast spot after birding the roadside and adding a nice list that included the very range-restricted Green-capped Tanager, some lazy White-eared Puffbirds, Cinereous-breasted Spinetail, Black-faced Tanagers and a pair of circling White-tailed Hawks.

Breakfast was again SUPERB, and as we ate, a couple of Moustached Wrens performed in the open for us. Some more roadside birding ensued allowing us to see the really neat black-throated form of the Emerald-Toucanet, which is restricted to the East Andean slope from N Peru to C Bolivia (*atrogularis*). We also had some noisy Yellow-tufted Woodpeckers, a couple of introverted and hard to see Plain-winged Antshrikes, Green-and-gold Tanager and several calling Round-tailed Manakins. A short stop at a little marsh before town added a few neat shorebirds to the list such as American Golden-Plovers, Wilson's Phalarope, Solitary Sandpiper, Lesser and Greater Yellowlegs, Stilt Sandpiper and a pair of Southern

Lapwings. As we drove back towards Apolo the rear vehicle spotted a White-tailed Kite hovering over the hillside, and a Red-winged Tinamou flew across the road in front of the first vehicle. We looked for it in the grasses but as expected we never saw it, only adding Grassland Sparrows and Wedge-tailed Grass-Finch. On returning to the nunnery, we had a little free time in the late afternoon.

Day 24 Apolo - Charazani - 17th Nov

Even though we had found and seen well our two main target species, we still wanted to do a little birding on our way back to Charazani. So, after an early morning departure from Apolo, we headed to an area of Amazonian yungas. By 6:30 am we were already seeing Yellow-bellied Tanagers in the canopy of this huge beautiful relatively undisturbed habitat as well as Green Jay and Blue-naped Chlorophonia. After an hour of birding, we reached the cars, where breakfast was waiting for us, and we had already more than 50 species on

the list including Channel-billed Toucan, Russet-backed Oropendola, a trio of Red-necked Woodpeckers, Bar-breasted Piculet, a flock of 40 Barred Parakeets, Chestnut-backed Antshrike, Scaled and Plumbeous Pigeons. There was a flock of Chestnut-collared Swifts, a pair of very showy Streak-headed Antbirds, a Bran-colored Flycatcher showing its yellow crest, Golden-olive Woodpecker and plenty of Swainson's Thrushes and Tropical Parulas. We tried and tried for the Bolivian Recurvebill that Steve still needed to catch up with, but it never responded, and we also decided that the Ashy/Yungas Antwren does not really exist! A nice-looking pair of Magpie Tanagers appeared, a Scarlet and Blue-black Tanager, plus Chestnut-bellied Seedeater and Dull-colored Grassquit. We drove a bit further to Diego's **Rufous-crested Coquette** stakeout that didn't

deliver anything a few days ago, but this time 3 males were seen including one that sat on a perch for 10 minutes allowing us excellent views of this crazy crested punk hummingbird. A nice Many-spotted Hummingbird was mobbing a - very wet looking Western Striolated-Puffbird and by 12:30 pm we had to call it a day as we still had a very long drive towards Charazani. As we drove alongside the river at the end of the day, we made an

Day 25 Charazani - La Paz - 18th Nov

amazing count of at least 40 Torrent Ducks and 4 White-capped Dippers. We eventually reached our destination by 7:30 PM, where we had dinner and went to bed.

Today we took a later breakfast at 5:30 AM and then basically drove directly, with only brief baño stops and a main lunch stop, to our hotel in La Paz which we reached around 4:00 pm. We all met later for our last dinner together and final checklist. We took this opportunity to thank Carlos and Miguel our extraordinary drivers that took such great care of us, and also said goodbye to our trip companions as we were all going to the airport on different transfers in the morning to connect with our flights out to Europe, the US, and Colombia.

This had been a great adventure seeing pretty much everything we had hoped for.

Our thanks got out to our fantastic ground crew and drivers, plus the ever-amazing Diego.

Steve & Gina

BIRDLIST FOR BOLIVIA 2024

A = Number of species recorded on tour

B = Number of days recorded C = Highest daily count

H = Heard Only N/C = No Count Cm=Common

This list is in line with IOC WORLD BIRD LIST v(13.2) and as such names may be different from some of the other field guides and taxonomy's

Pre-Tour Extension – Barba Azul 25 th – 29 th Oct				5 Days	
A	SPECIES	E = Endemic	SCIENTIFIC NAME	B	C

Many-banded Daggerwing

Black-tailed Marmoset

Automeris rectilinea

Main-Tour 30 th Oct – 13 th Nov			15 Days		
A	SPECIES	E = Endemic	SCIENTIFIC NAME	B	C
1	Brown Tinamou		<i>Crypturellus obsoletus</i>	3	1
2	Tataupa Tinamou		<i>Crypturellus tataupa</i>	1	2
3	Red-winged Tinamou		<i>Rhynchotus rufescens</i>	1	H
4	Huayco Tinamou		<i>Rhynchotus maculicollis</i>	2	H
5	Stripe-faced Wood-Quail		<i>Odontophorus balliviani</i>	2	H
6	Greater Rhea		<i>Rhea americana</i>	1	15
7	Red-legged Seriema		<i>Cariama cristata</i>	1	1
8	Andean Goose		<i>Oressochen melanopterus</i>	4	60
9	Brazilian Teal		<i>Amazonetta brasiliensis</i>	1	4
10	Torrent Duck		<i>Merganetta armata</i>	3	12
11	Crested Duck		<i>Lophonetta specularioides</i>	2	10
12	Yellow-billed Teal		<i>Anas flavirostris</i>	4	10
13	Yellow-billed Pintail		<i>Anas georgica</i>	3	8
14	White-cheeked Pintail		<i>Anas bahamensis</i>	1	6
15	Cinnamon Teal		<i>Anas cyanoptera</i>	1	6
16	Puna Teal		<i>Spatula puna</i>	2	30
17	Rosy-billed Pochard		<i>Netta peposaca</i>	1	1
18	Andean Duck		<i>Oxyura ferruginea</i>	2	25
19	Speckled Chachalaca		<i>Ortalis guttata</i>	2	6
20	Andean Guan		<i>Penelope montagnii</i>	1	2
21	Yungas Guan		<i>Penelope bridgesi</i>	2	2
22	White-throated Piping-Guan		<i>Pipile grayi</i>	1	1
23	Bare-faced Curassow		<i>Crax fasciolata</i>	1	1
24	White-tufted Grebe		<i>Rollandia rolland</i>	3	2

25	Titicaca Grebe	<i>Rollandia microptera</i>	2	10
26	Silvery Grebe	<i>Podiceps occipitalis</i>	1	20
27	Chilean Flamingo	<i>Phoenicopterus chilensis</i>	3	15
28	Wood Stork	<i>Mycteria americana</i>	1	2
29	Neotropic Cormorant	<i>Nannopterum brasilianum</i>	4	4
30	Fasciated Tiger-Heron	<i>Tigrisoma fasciatum</i>	1	1
31	Black-crowned Night Heron	<i>Nycticorax nycticorax</i>	1	1
32	Western Cattle Egret	<i>Ardea ibis</i>	5	2
33	Great Egret	<i>Ardea alba</i>	2	1
34	Whistling Heron	<i>Syrigma sibilatrix</i>	1	1
35	Puna Ibis	<i>Plegadis ridgwayi</i>	5	40
36	Bare-faced Ibis	<i>Phimosus infuscatus</i>	1	2
37	Buff-necked Ibis	<i>Theristicus caudatus</i>	5	2
38	Turkey Vulture	<i>Cathartes aura</i>	9	N/C
39	Lesser Yellow-headed Vulture	<i>Cathartes burrovianus</i>	1	1
40	Black Vulture	<i>Coragyps atratus</i>	6	N/C
41	Andean Condor	<i>Vultur gryphus</i>	5	8
42	Swallow-tailed Kite	<i>Elanoides forficatus</i>	2	1
43	Plumbeous Kite	<i>Ictinia plumbea</i>	4	3
44	Cinereous Harrier	<i>Circus cinereus</i>	1	1
45	Long-winged Harrier	<i>Circus buffoni</i>	1	1
46	Savanna Hawk	<i>Buteogallus meridionalis</i>	1	1
47	Roadside Hawk	<i>Rupornis magnirostris</i>	4	2
48	Variable Hawk	<i>Geranoaetus polyosoma</i>	3	1
49	Black-chested Buzzard-Eagle	<i>Geranoaetus melanoleucus</i>	3	1
50	White-rumped Hawk	<i>Parabuteo leucorrhous</i>	1	1
51	Broad-winged Hawk	<i>Buteo platypterus</i>	2	3
52	Common Gallinule	<i>Gallinula galeata</i>	4	20
53	Wattled Jacana	<i>Jacana jacana</i>	1	2
54	Southern Lapwing	<i>Vanellus chilensis</i>	3	6
55	Andean Lapwing	<i>Vanellus resplendens</i>	1	2
56	Black-necked Stilt	<i>Himantopus mexicanus</i>	2	100
57	Andean Avocet	<i>Recurvirostra andina</i>	2	2
58	Stilt Sandpiper	<i>Calidris himantopus</i>	1	1
59	Greater Yellowlegs	<i>Tringa melanoleuca</i>	1	1
60	Lesser Yellowlegs	<i>Tringa flavipes</i>	1	30
61	Andean Gull	<i>Chroicocephalus serranus</i>	5	40
62	Picui Ground Dove	<i>Columbina picui</i>	6	10
63	Picazuro Pigeon	<i>Patagioenas picazuro</i>	2	1
64	Spot-winged Pigeon	<i>Patagioenas maculosa</i>	3	20
65	Band-tailed Pigeon	<i>Patagioenas fasciata</i>	3	20
66	Plumbeous Pigeon	<i>Patagioenas plumbea</i>	1	1
67	Pale-vented Pigeon	<i>Patagioenas cayennensis</i>	1	1
68	White-tipped Dove	<i>Leptotila verreauxi</i>	6	2
69	White-throated Quail-Dove	<i>Zentrygon frenata</i>	1	H
70	Eared Dove	<i>Zenaidura macroura</i>	2	10
71	Black-winged Ground Dove	<i>Metriopelia melanoptera</i>	1	6
72	Bare-faced Ground Dove	<i>Metriopelia ceciliae</i>	1	4
73	Squirrel Cuckoo	<i>Piaya cayana</i>	2	1

74	Yellow-billed Cuckoo	<i>Coccyzus americanus</i>	1	1
75	Guira Cuckoo	<i>Guira guira</i>	4	6
76	Smooth-billed Ani	<i>Crotophaga ani</i>	4	12
77	Striped Cuckoo	<i>Tapera naevia</i>	1	H
78	Barn Owl	<i>Tyto alba</i>	2	1
79	Tropical Screech-Owl	<i>Megascops choliba</i>	2	H
80	Rufescent Screech-Owl	<i>Megascops ingens</i>	1	H
81	Yungas Pygmy-Owl	<i>Glaucidium bolivianum</i>	3	3
82	Ferruginous Pygmy-Owl	<i>Glaucidium brasilianum</i>	3	2
83	Burrowing Owl	<i>Athene cunicularia</i>	3	1
84	Rufous Nightjar	<i>Antrostomus rufus</i>	2	1
85	Scissor-tailed Nightjar	<i>Hydropsalis torquata</i>	2	2
86	Chestnut-collared Swift	<i>Streptoprocne rutila</i>	1	H
87	White-collared Swift	<i>Streptoprocne zonaris</i>	3	20
88	Andean Swift	<i>Aeronautes andecolus</i>	3	2
89	Planalto Hermit	<i>Phaethornis pretrei</i>	1	1
90	Lesser Violetear	<i>Colibri cyanotus</i>	1	H
91	Sparkling Violetear	<i>Colibri coruscans</i>	1	2
92	White-vented Violetear	<i>Colibri serrirostris</i>	1	1
93	Glittering-bellied Emerald	<i>Chlorostilbon lucidus</i>	4	10
94	Fork-tailed Woodnymph	<i>Thalurania furcata</i>	2	3
95	Gilded Sapphire	<i>Hylocharis chrysura</i>	1	1
96	White-bellied Hummingbird	<i>Elliotomyia chionogaster</i>	5	2
97	Speckled Hummingbird	<i>Adelomyia melanogenys</i>	2	1
98	Black-hooded Sunbeam	<i>Aglaeactis pamela</i>	2	8
99	Andean Hillstar	<i>Oreotrochilus estella</i>	1	2
100	Wedge-tailed Hillstar	<i>Oreotrochilus adela</i>	1	1
101	Violet-throated Starfrontlet (Bolivian)	<i>Coeligena violifer violifer</i>	3	5
102	Great Sapphirewing	<i>Pterophanes cyanopterus</i>	2	2
103	Giant Hummingbird	<i>Patagona gigas</i>	1	5
104	Amethyst-throated Sunangel	<i>Heliangelus amethysticollis</i>	2	2
105	Buff-thighed Puffleg	<i>Haplophaedia assimilis</i>	1	3
106	Red-tailed Comet	<i>Sappho sparganurus</i>	4	2
107	Gould's Inca	<i>Coeligena inca</i>	3	1
108	Tyrian Metaltail	<i>Metallura tyrianthina</i>	3	8
109	Scaled Metaltail	<i>Metallura aeneocauda</i>	1	2
110	Long-tailed Sylph	<i>Agelaiocercus kingii</i>	3	1
111	Black-throated Mango	<i>Anthracothorax nigricollis</i>	1	1
112	Amazonian Motmot	<i>Momotus momota</i>	3	1
113	Golden-headed Quetzal	<i>Pharomachrus auriceps</i>	1	1
114	Crested Quetzal	<i>Pharomachrus antisianus</i>	1	1
115	Blue-crowned Trogon	<i>Trogon curucui</i>	1	4
116	Masked Trogon	<i>Trogon personatus</i>	4	1
117	Collared Trogon	<i>Trogon collaris</i>	2	2
118	Chaco Puffbird	<i>Nystalus striatipectus</i>	3	4
119	Versicolored Barbet	<i>Eubucco versicolor</i>	1	2
120	Emerald Toucanet	<i>Aulacorhynchus prasinus</i>	1	1
121	Chestnut-tipped Toucanet	<i>Aulacorhynchus derbianus</i>	1	1
122	Blue-banded Toucanet	<i>Aulacorhynchus coeruleicinctis</i>	1	4

123	Chestnut-eared Aracari	<i>Pteroglossus castanotis</i>	2	2
124	Hooded Mountain-Toucan	<i>Andigena cucullata</i>	4	2
125	Toco Toucan	<i>Ramphastos toco</i>	2	2
126	Ocellated Piculet	<i>Picumnus dorbignyanus</i>	1	1
127	White-wedged Piculet	<i>Picumnus albosquamatus</i>	1	2
128	White Woodpecker	<i>Melanerpes candidus</i>	1	5
129	Yellow-tufted Woodpecker	<i>Melanerpes cruentatus</i>	1	1
130	White-fronted Woodpecker	<i>Melanerpes cactorum</i>	3	10
131	Striped Woodpecker	<i>Picoides lignarius</i>	1	2
132	Bar-bellied Woodpecker	<i>Veniliornis nigriceps</i>	2	1
133	Little Woodpecker	<i>Dryobates passerinus</i>	1	1
134	Golden-olive Woodpecker	<i>Colaptes rubiginosus</i>	1	1
135	Crimson-mantled Woodpecker	<i>Colaptes rivolii</i>	2	2
136	Green-barred Woodpecker	<i>Colaptes melanochloros</i>	2	1
137	Andean Flicker	<i>Colaptes rupicola</i>	2	2
138	Lineated Woodpecker	<i>Dryocopus lineatus</i>	2	1
139	Red-necked Woodpecker	<i>Campephilus rubicollis</i>	1	2
140	Cream-backed Woodpecker	<i>Campephilus leucopogon</i>	1	2
141	Mountain Caracara	<i>Daptrius megalopterus</i>	7	8
142	Crested Caracara	<i>Caracara plancus</i>	7	6
143	Yellow-headed Caracara	<i>Daptrius chimachima</i>	1	1
144	American Kestrel	<i>Falco sparverius</i>	7	10
145	Aplomado Falcon	<i>Falco femoralis</i>	1	2
146	Peregrine Falcon	<i>Falco peregrinus</i>	1	1
147	Cliff Parakeet	<i>Myiopsitta luchi</i>	2	30
148	Gray-hooded Parakeet	<i>Psilopsiagon aymara</i>	3	10
149	Andean Parakeet	<i>Bolborhynchus orbygnesi</i>	1	6
150	Yellow-chevroned Parakeet	<i>Brotogeris chiriri</i>	4	4
151	Cobalt-rumped Parrotlet	<i>Forpus xanthoptergius</i>	1	6
152	Black-winged Parrot	<i>Hapalopsittaca melanotis</i>	1	3
153	Blue-headed Parrot	<i>Pionus menstruus</i>	1	8
154	Red-billed Parrot	<i>Pionus sordidus</i>	1	10
155	Turquoise-fronted Amazon	<i>Amazona aestiva</i>	4	6
156	Tucuman Amazon	<i>Amazona tucumana</i>	1	7
157	Scaly-naped Amazon	<i>Amazona mercenaria</i>	3	4
158	Mealy Amazon	<i>Amazona farinosa</i>	1	6
159	Green-cheeked Parakeet	<i>Pyrrhura molinae</i>	5	6
160	Military Macaw	<i>Ara militaris</i>	3	4
161	Red-fronted Macaw	<i>Ara rubrogenys</i>	2	100
162	Chestnut-fronted Macaw	<i>Ara severus</i>	1	2
163	Peach-fronted Parakeet	<i>Eupsittula aurea</i>	1	4
164	Blue-crowned Parakeet	<i>Thectocercus acuticaudatus</i>	2	10
165	Mitred Parakeet	<i>Psittacara mitratus</i>	7	300
166	Giant Antshrike	<i>Batara cinerea</i>	2	1
167	Great Antshrike	<i>Taraba major</i>	1	1
168	Barred Antshrike	<i>Thamnophilus doliatus</i>	1	2
169	Variable Antshrike	<i>Thamnophilus caerulescens</i>	2	1
170	Plain Antwren	<i>Dysithamnus mentalis</i>	1	1
171	Black-capped Antwren	<i>Herpsilochmus atricapillus</i>	3	3

172	Western Fire-eye	<i>Pyriglena maura</i>	2	1
173	Slaty Gnateater	<i>Conopophaga ardesiaca</i>	1	2
174	Bolivian Antpitta	<i>Grallaria cochabambae</i>	2	1
175	Rufous-faced Antpitta	<i>Grallaria erythrotis</i>	5	1
176	Stripe-headed Antpitta	<i>Grallaria andicolus</i>	1	1
177	Olive-crowned Crescentchest	<i>Melanopareia maximiliani</i>	3	1
178	Trilling Tapaculo	<i>Scytalopus parvirostris</i>	4	1
179	Bolivian Tapaculo	<i>Scytalopus bolivianus</i>	1	H
180	Diademed Tapaculo	<i>Scytalopus schulenbergi</i>	1	1
181	Short-tailed Antthrush	<i>Chamaeza campanisona</i>	3	H
182	Olivaceous Woodcreeper	<i>Sittasomus griseicapillus</i>	1	1
183	Strong-billed Woodcreeper	<i>Xiphocolaptes promeropirhynchus</i>	2	1
184	Narrow-billed Woodcreeper	<i>Lepidocolaptes angustirostris</i>	3	2
185	Montane Woodcreeper	<i>Lepidocolaptes lacrymiger</i>	1	1
186	Common Miner	<i>Geositta cunicularia</i>	1	1
187	Puna Miner	<i>Geositta punensis</i>	1	2
188	Rock Earthcreeper	<i>Upucerthia andaecola</i>	1	2
189	Bolivian Earthcreeper	<i>Tarphonomus harterti</i>	1	1
190	Cream-winged Cinclodes	<i>Cinclodes albiventris</i>	1	2
191	White-winged Cinclodes	<i>Cinclodes atacamensis</i>	5	6
192	Rufous Hornero	<i>Furnarius rufus</i>	7	10
193	Wren-like Rushbird	<i>Phleocryptes melanops</i>	3	2
194	Brown-capped Tit-Spinetail	<i>Leptasthenura fuliginiceps</i>	2	1
195	Tawny Tit-Spinetail	<i>Sylviorthorhynchus yanacensis</i>	2	2
196	Black-throated Thistletail	<i>Asthenes harterti</i>	2	2
197	Streaked Xenops	<i>Xenops rutilans</i>	2	1
198	Sooty-fronted Spinetail	<i>Synallaxis frontalis</i>	1	1
199	Azara's Spinetail	<i>Synallaxis azarae</i>	5	2
200	Ochre-cheeked Spinetail	<i>Synallaxis scutata</i>	1	2
201	Light-crowned Spinetail	<i>Cranioleuca albiceps</i>	4	2
202	Stripe-crowned Spinetail	<i>Cranioleuca pyrrhophia</i>	1	1
203	Maquis Canastero	<i>Asthenes heterura</i>	1	1
204	Berlepsch's Canastero	<i>Asthenes berlepschi</i>	1	1
205	Streak-backed Canastero	<i>Asthenes</i>	1	H
206	Creamy-breasted Canastero	<i>Asthenes dorbignyi</i>	1	1
207	Scribble-tailed Canastero	<i>Asthenes maculicauda</i>	1	1
208	Streak-fronted Thornbird	<i>Phacellodomus striaticeps</i>	1	1
209	Spot-breasted Thornbird	<i>Phacellodomus maculipectus</i>	2	H
210	Greater Thornbird	<i>Phacellodomus ruber</i>	1	1
211	Pearled Treerunner	<i>Margarornis squamiger</i>	4	1
212	Bolivian Treehunter	<i>Thripadectes scrutator</i>	1	H
213	Buff-browed Foliage-gleaner	<i>Syndactyla rufosuperciliata</i>	3	2
214	Bolivian Recurvebill	<i>Syndactyla striata</i>	2	1
215	Buff-fronted Foliage-gleaner	<i>Dendroma rufa</i>	3	2
216	Grey-headed Elaenia	<i>Myiopagis caniceps</i>	1	1
217	Yellow-bellied Elaenia	<i>Elaenia flavogaster</i>	1	2
218	White-crested Elania	<i>Elaenia albiceps</i>	1	2
219	Small-billed Elaenia	<i>Elaenia parvirostris</i>	2	1
220	Lesser Elaenia	<i>Elaenia chiriquensis</i>	1	2

221	Highland Elaenia	<i>Elaenia obscura</i>	1	2
222	Sierran Elaenia	<i>Elaenia pallatangae</i>	5	2
223	Torrent Tyrannulet	<i>Serpophaga cinérea</i>	1	1
224	Southern Beardless-Tyrannulet	<i>Camptostoma obsoletum</i>	1	1
225	Buff-banded Tyrannulet	<i>Mecocerculus hellmayri</i>	1	2
226	White-banded Tyrannulet	<i>Mecocerculus stictopterus</i>	1	3
227	White-throated Tyrannulet	<i>Mecocerculus leucophrys</i>	2	4
228	Tufted Tit-Tyrant	<i>Anairetes parulus</i>	3	4
229	White-crested Tyrannulet	<i>Serpophaga subcristata munda</i>	1	2
230	Southern Mouse-colored Tyrannulet	<i>Nesotriccus murinus</i>	1	2
231	Greater Wagtail-Tyrant	<i>Stigmatura budyoides</i>	3	4
232	Bolivian Tyrannulet	<i>Zimmerius bolivianus</i>	3	4
233	Sepia-capped Flycatcher	<i>Leptopogon amaurocephalus</i>	2	2
234	Slaty-capped Flycatcher	<i>Leptopogon supercilialis</i>	1	1
235	Southern Scrub Flycatcher	<i>Sublegatus modestus</i>	1	1
236	Many-colored Chaco Finch	<i>Saltatricula multicolor</i>	1	1
237	Pearly-vented Tody-Tyrant	<i>Hemitriccus margaritaceiventer</i>	4	1
238	Ochre-faced Tody-Flycatcher	<i>Poecilotriccus plumbeiceps</i>	1	2
239	Yellow-olive Flatbill	<i>Tolmomyias sulphurescens</i>	3	2
240	Cinnamon Flycatcher	<i>Pyrrhomyias cinnamomeus</i>	2	2
241	Cliff Flycatcher	<i>Hirundinea ferruginea</i>	2	4
242	Euler's Flycatcher	<i>Lathrotriccus euleri</i>	1	1
243	Smoke-colored Pewee	<i>Contopus fumigatus</i>	1	2
244	Southern Tropical Pewee	<i>Contopus cinereus</i>	1	1
245	Black Phoebe	<i>Sayornis nigricans</i>	5	1
246	Vermilion Flycatcher	<i>Pyrocephalus rubinus</i>	1	1
247	Plumbeous Black-Tyrant	<i>Knipolegus cabanisi</i>	1	2
248	White-winged Black-Tyrant	<i>Knipolegus aterrimus</i>	6	4
249	Yellow-browed Tyrant	<i>Satrapa icterophrys</i>	1	1
250	Taczanowski's Ground-Tyrant	<i>Muscisaxicola griseus</i>	1	2
251	Ochre-naped Ground-Tyrant	<i>Muscisaxicola flavinucha</i>	1	1
252	Rufous-naped Ground-Tyrant	<i>Muscisaxicola rufivertex</i>	1	2
253	Streak-throated Bush-Tyrant	<i>Myiotheretes striaticollis</i>	3	1
254	Rufous-bellied Bush-Tyrant	<i>Myiotheretes fuscorufus</i>	2	2
255	Maroon-belted Chat-Tyrant	<i>Ochthoeca thoracica</i>	1	2
256	Rufous-breasted Chat-Tyrant	<i>Ochthoeca rufipectoralis</i>	3	2
257	D'Orbigny's Chat-Tyrant	<i>Ochthoeca oenanthoides</i>	1	3
258	Piratic Flycatcher	<i>Legatus leucophaeus</i>	2	1
259	Great Kiskadee	<i>Pitangus sulphuratus</i>	5	2
260	Streaked Flycatcher	<i>Myiodynastes maculatus</i>	3	2
261	Variegated Flycatcher	<i>Empidonomus varius</i>	1	1
262	Crowned Slaty Flycatcher	<i>Empidonomus aurantioatrocristatus</i>	4	4
263	Tropical Kingbird	<i>Tyrannus melancholicus</i>	8	10
264	Fork-tailed Flycatcher	<i>Tyrannus savana</i>	1	2
265	Eastern Kingbird	<i>Tyrannus tyrannus</i>	1	8
266	Dusky-capped Flycatcher	<i>Myiarchus tuberculifer</i>	2	1
267	Brown-crested Flycatcher	<i>Myiarchus tyrannulus</i>	1	1
268	Swainson's Flycatcher	<i>Myiarchus swainsoni</i>	1	1
269	Band-tailed Fruiteater	<i>Pipreola intermedia</i>	2	3

270	Barred Fruiteater	<i>Pipreola arcuata</i>	1	1
271	White-tipped Plantcutter	<i>Phytotoma rutila</i>	6	4
272	Red-crested Cotinga	<i>Ampelion rubrocristatus</i>	2	5
273	Scimitar-winged Piha	<i>Lipaugus uropygialis</i>	1	1
274	Yungas Manakin	<i>Chiroxiphia boliviana</i>	1	1
275	Masked Tityra	<i>Tityra semifasciata</i>	1	1
276	Barred Becard	<i>Pachyramphus versicolor</i>	1	2
277	White-winged Becard	<i>Pachyramphus polychopterus</i>	1	2
278	Rufous-browed Peppershrike	<i>Cyclarhis gujanensis</i>	3	1
279	Brown-capped Vireo	<i>Vireo leucophrys</i>	2	1
280	Chivi Vireo	<i>Vireo chivi</i>	4	3
281	Purplish Jay	<i>Cyanocorax cyanomelas</i>	5	10
282	Plush-crested Jay	<i>Cyanocorax chrysops</i>	4	10
283	White-collared Jay	<i>Cyanolyca viridicyanus</i>	3	1
284	Southern Martin	<i>Progne elegans</i>	2	10
285	Andean Swallow	<i>Orochelidon andecola</i>	2	4
286	Blue-and-white Swallow	<i>Pygochelidon cyanoleuca</i>	6	8
287	Pale-footed Swallow	<i>Orochelidon flavipes</i>	1	4
288	Southern Rough-winged Swallow	<i>Stelgidopteryx ruficollis</i>	1	5
289	Barn Swallow	<i>Hirundo rustica</i>	1	2
290	Scaly-breasted Wren	<i>Microcerculus marginatus</i>	1	H
291	Thrush-like Wren	<i>Campylorhynchus turdinus</i>	2	2
292	Fawn-breasted Wren	<i>Cantorchilus guarayanus</i>	1	1
293	Southern House Wren	<i>Troglodytes musculus</i>	12	2
294	Mountain Wren	<i>Troglodytes solstitialis</i>	2	1
295	Fulvous Wren	<i>Cinnycerthia fulva</i>	1	1
296	Gray-breasted Wood-Wren	<i>Henicorhina leucophrys</i>	3	2
297	Masked Gnatcatcher	<i>Polioptila dumicola</i>	3	2
298	White-capped Dipper	<i>Cinclus leucocephalus</i>	1	2
299	Andean Solitaire	<i>Myadestes ralloides</i>	1	H
300	Slaty-backed Nightingale-Thrush	<i>Catharus fuscater</i>	1	H
301	Swainson's Thrush	<i>Catharus ustulatus</i>	2	2
302	Great Thrush	<i>Turdus fuscater</i>	7	4
303	Chiguanco Thrush	<i>Turdus chiguanco</i>	5	4
304	Glossy-black Thrush	<i>Turdus serranus</i>	2	2
305	Andean Slaty Thrush	<i>Turdus nigriceps</i>	2	1
306	Rufous-bellied Thrush	<i>Turdus rufiventris</i>	3	2
307	Creamy-bellied Thrush	<i>Turdus amaurochalinus</i>	3	4
308	White-necked Thrush	<i>Turdus albicollis</i>	1	2
309	Hellmayr's Pipit	<i>Anthus hellmayri</i>	1	1
310	Orange-browed Hemispingus	<i>Kleinothraupis calophrys</i>	1	1
311	Superciliaried Hemispingus	<i>Thlypopsis superciliaris</i>	1	2

These are just a few of the 100 species of moth attracted to the Ultraviolet light that we set up.				

Copiopteryx semiramis

Orcynia calcarata

Rothschildia aurota

Perola villosipes

Xylophanes ceratomioides

Banded Hognose Snake (*Xenodon pulcher*)

Post Extension -Tour for Inti Tanager 13 th Nov – 18 th Nov				5 Days	
A	SPECIES	E = Endemic	SCIENTIFIC NAME	B	C
1	Brown Tinamou		<i>Crypturellus obsoletus</i>	1	H
2	Tataupa Tinamou		<i>Crypturellus tataupa</i>	1	H
3	Red-winged Tinamou		<i>Rhynchotus rufescens</i>	1	1
4	Andean Goose		<i>Oressochen melanopterus</i>	2	60
5	Brazilian Teal		<i>Amazonetta brasiliensis</i>	1	1
6	Puna Teal		<i>Spatula puna</i>	1	1
7	Torrent Duck		<i>Merganetta armata</i>	2	40
8	Speckled Chachalaca		<i>Ortalis guttata</i>	4	20
9	Anhinga		<i>Anhinga anhinga</i>	1	1
10	Rufescent Tiger-Heron		<i>Tigrisoma lineatum</i>	1	1
11	Striated Heron		<i>Butorides striata</i>	1	2
12	Great Egret		<i>Ardea alba</i>	1	1
13	Rock Pigeon		<i>Columba livia</i>	3	N/C
14	Pale-vented Pigeon		<i>Patagioenas cayennensis</i>	3	20
15	Scaled Pigeon		<i>Patagioenas speciosa</i>	2	2
