

BHUTAN

April 20th – May 05th 2025

TRIP REPORT

Our wonderful group enjoying the first of many field breakfasts, simply the best!

Bhutan - 2025

20th April – 05th May 2025

TOUR SUMMARY:

The first Sunrise Birding Tour to Bhutan, the “Land of the Thunder Dragon”, was much anticipated and oversubscribed immediately when we posted it. For those lucky enough to go on this our first trip, we all agreed that this was one of the most fascinating and beautiful countries we have ever visited. With 72% of the country still forested and the most incredible scenery, we saw some absolutely amazing birds and wildlife. A big factor in the huge success of this tour was our local guides and our ground crew who cooked the most awesome breakfasts and lunches in the field, right where the birds were. There is no need to rough it or camp in Bhutan, and we enjoyed some very comfortable and characterful hotels right near the birding spots. From snowy mountain tops to the hot lowlands, we saw it all, but the biggest memories are of the views we had of just about all the birds we saw. It was unbelievable that so many birds showed so well. Everyone was in full agreement that the sightings of Himalayan Monal, Satyr Tragopan and Blood Pheasant were outstanding. Another huge and very lucky sighting on the trip was a Red Panda, what a surprise and what a delight to see this cuddly bear up in a tree. Early mornings provided the most activity regarding the birdlife with many species in full song, enabling our incredible guide to hone in on our targets. Then we come back to the views! Because of the habitat and from the comfort of roadside birding, we were often at eye level with bushes and tree tops, meaning we got wonderful views including many opportunities to see multiple species in flocks right in front of us. In fact, one tree had 14 different species! Another highlight was seeing the critically endangered White-bellied Heron on a nest with 2 chicks. With just 24 individuals of this species left in the country, it is sad to say that unless drastic measures are taken, this bird may no longer be with us. Ibisbill with chicks, 20 Black-throated Parrotbills at point blank range, owls that were found within minutes of looking for them, there are so many highlights from this tour! To add to all this wildlife, we visited many cultural sites including ‘Big Buddha’ and Tiger’s Nest! As they say in Bhutan, ‘we will see you again’!

HIGHLIGHTS

Either for rarity value, excellent views or simply a group favourite.

- Himalayan Monal
- White-bellied Heron
- Pale-billed Parrotbill
- Sikkim Wedge-billed Wren Babbler
- Ward’s Trogon
- Ibisbill with chicks
- Asian Emerald Cuckoo
- Fire-tailed Sunbird
- White-headed Babbler
- Tawny Fish Owl
- Fire-tailed Sunbird
- Flock of Black-throated Parrotbills
- Black-rumped Magpie
- Blue-bearded Bee-eater
- Satyr Tragopan
- Spot-bellied Eagle Owl
- Great Parrotbill
- Beautiful Nuthatch
- Mrs Gould’s Sunbird
- Sultan Tit
- Rufous-necked Hornbill
- Spotted Laughingthrush
- Hodgson’s Frogmouth
- Yellow-rumped Honeyguide
- Long-tailed Broadbill
- Black-throated Bushtit
- White-tailed Nuthatch
- Yellow-cheeked Tit
- Chestnut-headed Tesia
- Whistler’s Warbler
- Blood Pheasant
- Fire-tailed Myzornis
- Rufous-faced Warbler
- Lesser Shortwing
- Wreathed Hornbill
- Himalayan Cutia
- White-hooded Babbler
- 17 Altai Accentor’s
- Streaked Spiderhunter
- Crested Serpent Eagle
- Red Panda
- Himalayan Serow
- Golden Langur
- White-hooded Babbler
- Hike to Tiger’s Nest

What a great way to start our tour. Right outside the airport we enjoyed 6 Ibisbills and some chicks!

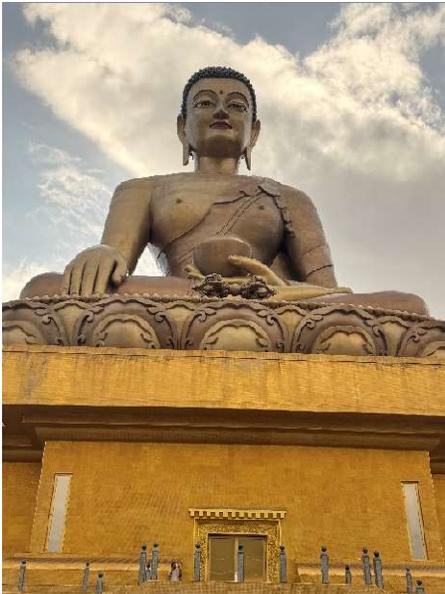

Plumbeous Redstarts were a regular sighting on all rivers.

Our first River Lapwing were seen on the same river with the Ibisbill.

One of our first cultural visits was to the 'Great Buddha Dordenma' which stands at 169 feet tall. It also houses more than 125,000 smaller Buddha statues each made from bronze and gilded in gold.

It was exciting to see our first Rufous Sibia. Thereafter we saw them every day.

This Speckled Woodpigeon gave wonderful close views on our first afternoon.

The Brown Parrotbill was the first of 5 species seen in this family.

A nice looking Ultramarine Flycatcher gave superb views.

One of our first breakfast in the field set a precedent, and every day after we enjoyed hot cooked breakfast, cereals, pancakes, tea, coffee, juices and so much more. The breakfasts were all in wonderful settings and better than you get in the hotels. Our crew of cooks were simply fantastic.

Our first Laughingthrushes included great views of both White-throated Laughingthrush and the spectacular Spotted Laughingthrush.

Other great birds just a short stroll from our breakfast table included the common Oriental Turtle Dove and the smart looking White-collared Blackbird.

A nice male Green-tailed Sunbird showed well in the garden.

We also added other great birds such as the Darjeeling Woodpecker and very smart looking Rufous-fronted Tit.

We had incredible close views of a flock of 12 Fire-tailed Myzornis.

A pair of Maroon Orioles posed for us on top of a tree, although a bit distant for good photos.

And then this Whistler's Warbler gave us the most incredible close views!

This Sikkim Treecreeper gave us a great show at our picnic lunch stop.

We found 2 Asian Emerald Cuckoos flying around the tree tops.

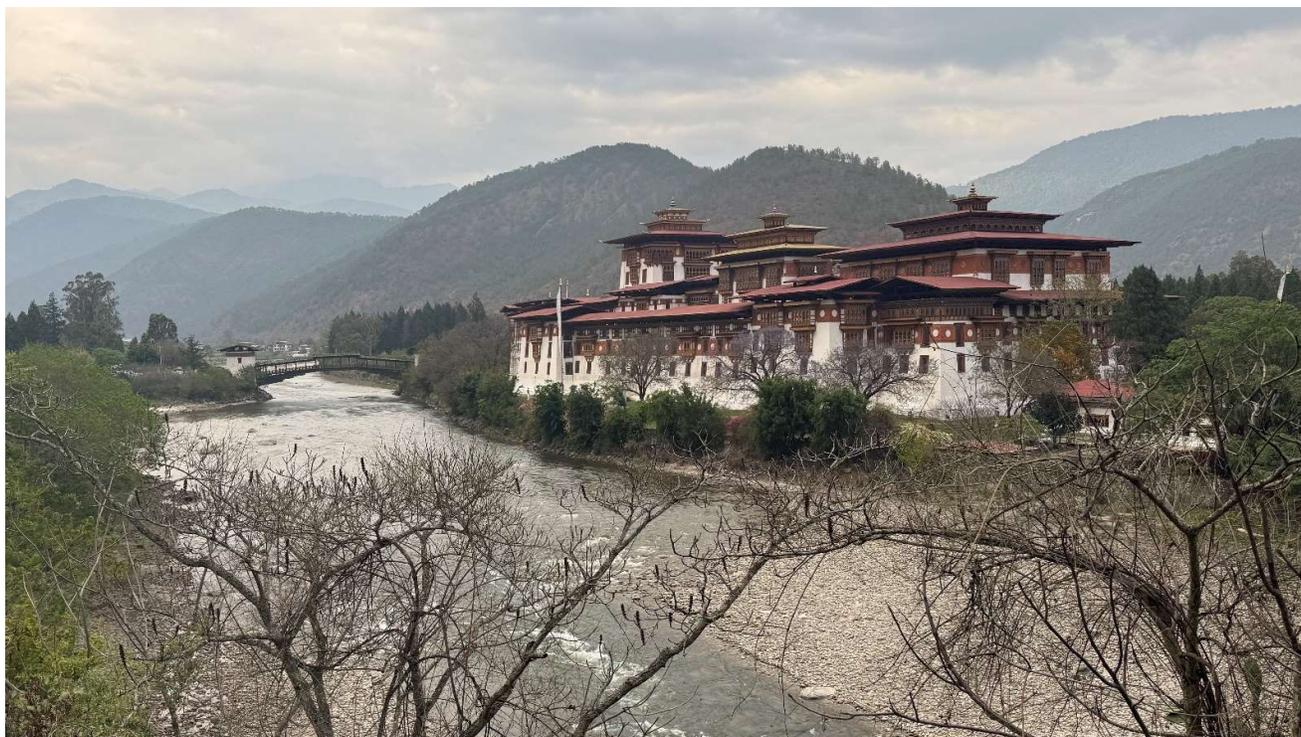

And another of the many warblers we got superb views of - this Ashy-throated Warbler posed for us while we got views of Chestnut-headed Tesia in the undergrowth below.

As we moved on, we stopped at a small bridge and while White-throated Needletails circled overhead we watch a pair of Little Forktails on the stream below us.

We visited the Punakha Dzong, constructed by Ngawang Namgyal in 1637–38, and nestled between the confluence of 2 rivers Po chhu (Male River) and Mo Chhu (female river) in Punakha Valley, it is the second oldest and second-largest dzong in Bhutan and an incredible sight.

As we continued our journey through Bhutan with no other traffic in sight, we started to get to grips with some of the more common, daily birds.

The Blue-capped Rock Thrush became an almost daily sighting.

And groups of Assamese Macaques were often seen along the roadsides.

A few woodpeckers species appeared such as this Speckled Piculet and Rufous Woodpecker.

And after another fabulous hot cooked lunch we continued on with a nice stop for this Spot-winged Grosbeak.

Our local guide has incredible ears and hears target species while we are driving through incredible scenery. A couple of stops produced this Red-headed Bullfinch and a pair of Kalij Pheasants.

The mixed flocks were out of this world with one bush containing 14 species! Here are a Rufous-winged Fulvetta and Bar-throated Minla.

Imagine all these plus more in one close flock! Whiskered Yuhina and Black-chinned Yuhina!

Sunbirds appeared with regularity and including the dazzling Mrs. Gould's Sunbird and the equally smart looking Green-tailed Sunbird.

Here's another view of the Green-tailed Sunbird.

And a couple more from our busy flocks of birds the White-browed Fulvetta and Grey-headed Canary Flycatcher.

This was our first Himalayan Monal one of the most iridescent birds on Earth. A mega target bird for our tour of Bhutan, and a stunning bird to see so well.

The Himalayan Monal's habitat consisted of hillsides full of flowering Rhododendrons, but there were many more interesting to see after the excitement of seeing several Monals. And here was a skulker the Scaly-breasted Cupwing which, with patience, we all saw reasonably well

We got fabulous looks at Hoary-throated Barwing and a group of Olive-backed Pipits.

And more views of the stunning Fire-tailed Myzornis!

Minlas were found including this Red-tailed Minla and several Blue-winged Minlas.

More birds kept appearing including this Streak-breasted Scimitar Babbler and a smart Rufous-bellied

There was also Rufous-vented Yuhina and Rufous-capped Babbler.

An absolute group favourite were a group of 20 Black-throated Parrotbills that played in the Bamboo right in front of us!

And then it was our next target pheasant that performed to perfection. The Satyr Tragopan – what a stunning bird! We enjoyed fabulous views as it came up over a bank and then call from a grassy mound.

Another very smart bird was this Himalayan Cutia!

Another firm favourite was the Fire-tailed Sunbird which showed very nicely, thank you!

And what about this!!!! No words needed. Blood Pheasant at its very best!

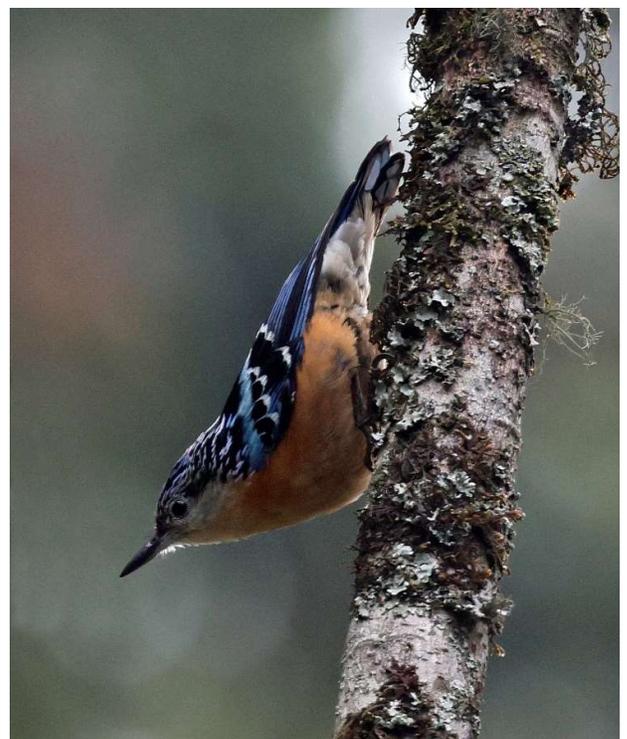

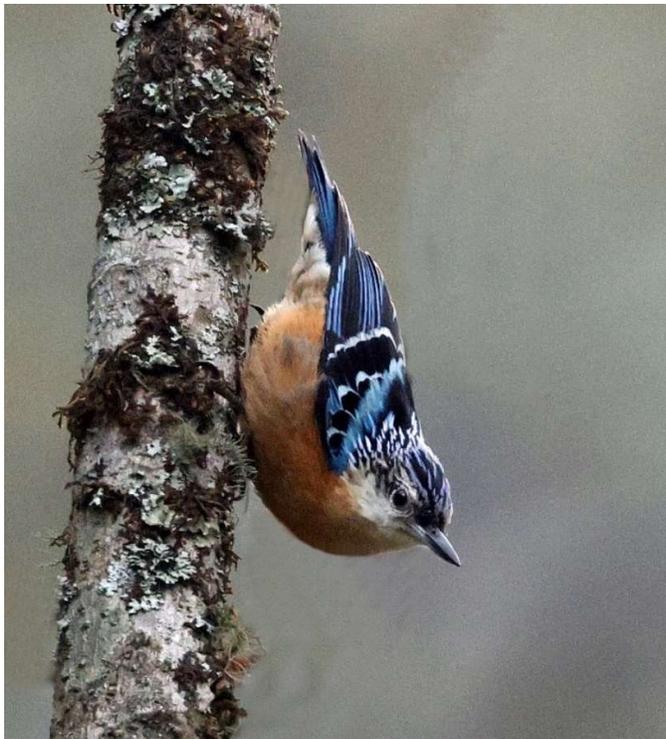

We watched this stunning male Blood Pheasant jump up onto this stump, and we also watch it feeding along a stream with the much duller brown female mate.

A few warblers turned up and showed well including on (left) this Blyth's Leaf Warbler, a rather common bird here, and also this Lemon-rumped Warbler (right).

The Beautiful Nuthatch is a major target and can be sometimes very tricky to find, but we managed to see this one very well indeed.

The Beautiful Nuthatch a tour highlight and one of 4 species of nuthatch seen well.

This Rufous-vented Tit was a bit of a poser!

And how about this! YES – Red Panda !!
A great surprise and tour highlight!

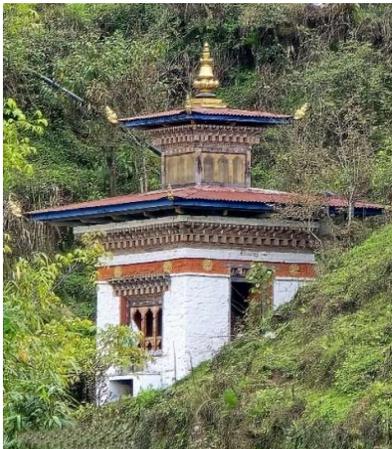

A small group of Rufous-breasted
Accentors were seen near a farm.

More primates and this time a small
group of Capped Langur.

Attractive buildings with water driven Prayer Wheels were everywhere. And here we are again,
another fabulous breakfast in preparation and waiting for us.

Several Black Eagles were seen well, and the Black-rumped Magpie is now a full species having been split from the Eurasian Magpie.

We regularly saw groups of Striated Laughingthrushes, and they were always good value and very entertaining. I think these two are not speaking!!

Lots of roadside birding made it very easy and, wow! There was plenty to see!

Both Rusty-cheeked Scimitar Babbler and Coral-billed Scimitar Babbler showed well

The colourful Blue-throated Barbet showed well and eventually the long tailed Green-billed Malkoha decided to show itself

In yet another 'tree of life' we had multiple species including this Fire-breasted Flowerpecker and a couple of Yellow-cheeked Tits.

A short walk along the quiet roadside found us a Small Niltava and a showy Streaked Spiderhunter.

A couple of 'grey' birds included this Grey-headed Woodpecker and this very obliging Grey-bellied Cuckoo.

Birds came thick and fast. Blue-capped Rock Thrush and a Chestnut-crowned Warbler.

Rusty-fronted Barwings put on a nice show.

Fabulous views of White-breasted Parrotbill. Such a great family!

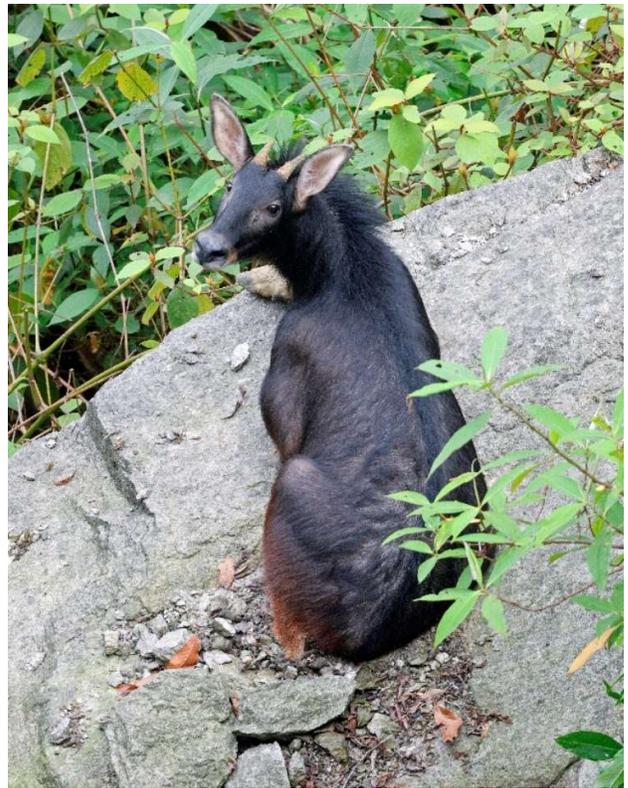

Time to look for hornbills and there's one!! Our first male Rufous-necked Hornbill !

This male Rufous-necked Hornbill eventually perched nicely for us.

What a great sighting this was a Maned Serow, a shy and difficult animal to see.

This Asian Barred Owlet took some finding up in the canopy.

We also manage to find female Rufous-necked Hornbills.

This Chestnut-bellied Nuthatch showed very well, while a pair of Scarlet Finches stayed high on a tree top, but looked great in the scopes.

A little group of Black-faced Warblers showed off right in front of us!

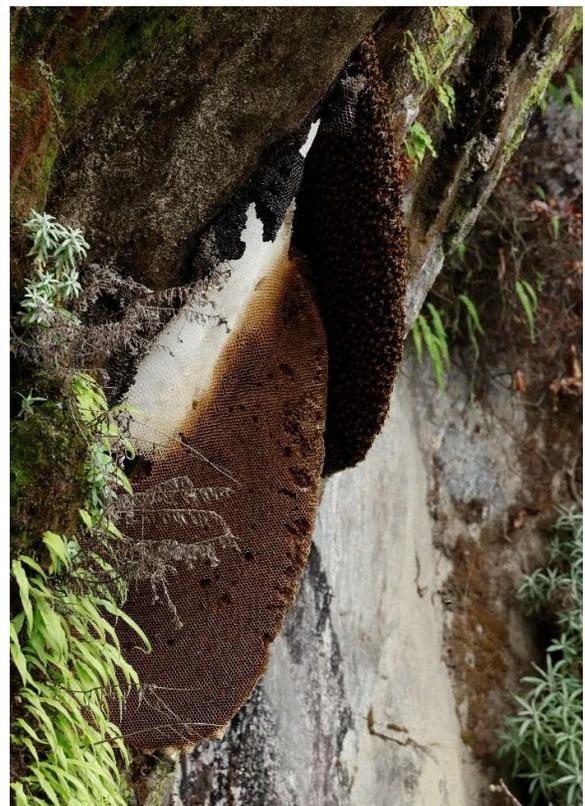

At night, we found this superb Hodgson's Frogmouth.

Moving on a little we came across a pair of Blue-bearded Bee-eaters, and in a dead tree, a nesting pair of Golden-throated Barbets.

A very special target bird was the Yellow-rumped Honeyguide the only member of this family in the Himalayas. They are interesting as being Zygodactyl which means they have 2 toes in the front and 2 toes behind. They feed mainly on the foundation wax of Giant Honey Bees (*Apis dorsata laboriosa*) that attach the comb to rocks. Males tend to be territorial and stay near honeycombs while females and juveniles forage widely. You can see the bees on the honeycombs in the right photo.

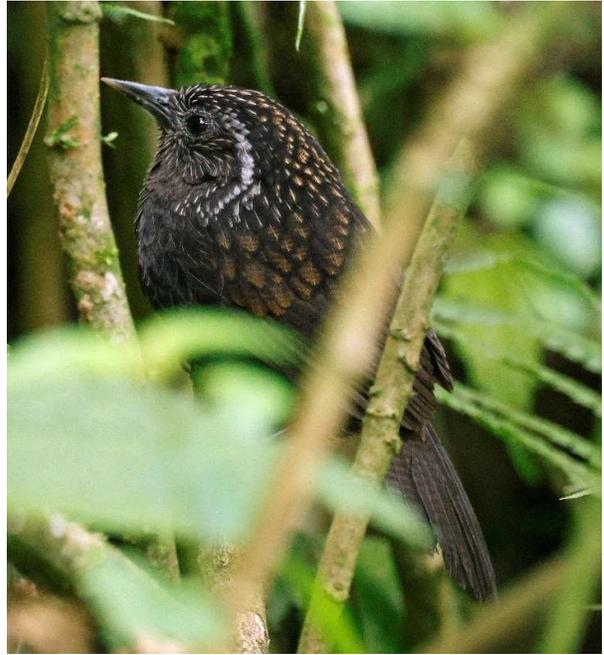

Several little skulkers eventually gave us pretty good views.

This Grey-sided Bush Warbler posed nicely.

A really good bird to even glimpse, we got great looks at this Sikkim Wedge-billed Babbler.

Oh No!!! Not another Blood Pheasant. Well Ok if you must !!!

This female Rufous-necked Hornbill showed well as did a White-capped Redstart along side the road.

These Nepal House Martins put on a good show as they flew back and forth to land on this one branch.

This Yellow-throated Fulvetta played hard to get while the Rufous-vented Tit did not!

Several colourful birds included the common Verditer Flycatcher and a very bright Short-billed Minivet.

A family of Golden Langurs were a treat to watch as the baby's jumped around and just seemed to be enjoying life. Oh, what fun!!

And then we travelled up through the Tharpaling Heritage Forest to the 12th century Buddhist monastery, where it was cold and snowing ! Here we had breakfast inside by a warm fire, while the monks banged their gong!

This is another great place to see the dazzling Himalayan Monal, and indeed we saw one in the snow right around the monastery. There was Snow Pigeons on the cliffs behind.

As we drove down from the mountain Sonam spotted a group of Altai Accentors! We got out and watch a group of 17 working their way along a roadside bank.

As we continued, we got great views of both a male Rufous-gorgeted Flycatcher and a smart looking Chestnut-crowned Laughingthrush.

We would always stop and get out on the deserted roads and this allowed us to see so many birds. A White-tailed Nuthatch gave fabulous views and after seeing so many Blue Whistling Thrushes it was nice to get one that did not fly off !

And then we visited another superb Dzong

An early morning start had us drive the edges of a valley where this Asian Emerald Cuckoo showed well, and an unsuspecting Brown Goral just stared at wondering why we were up so

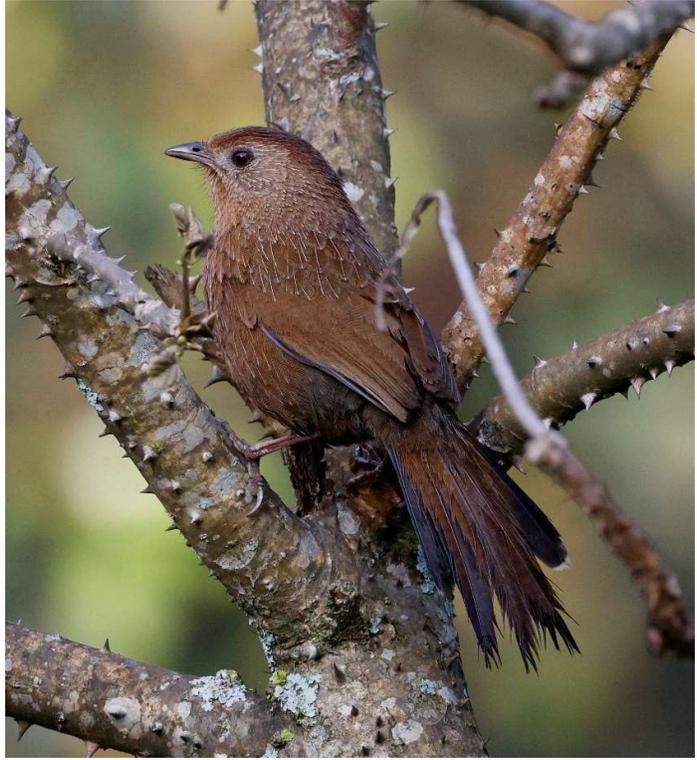

The day just got better and better. A group of Black-throated Tits jumped around in front of us while below them a Brown-flanked Bush Warbler gave great looks.

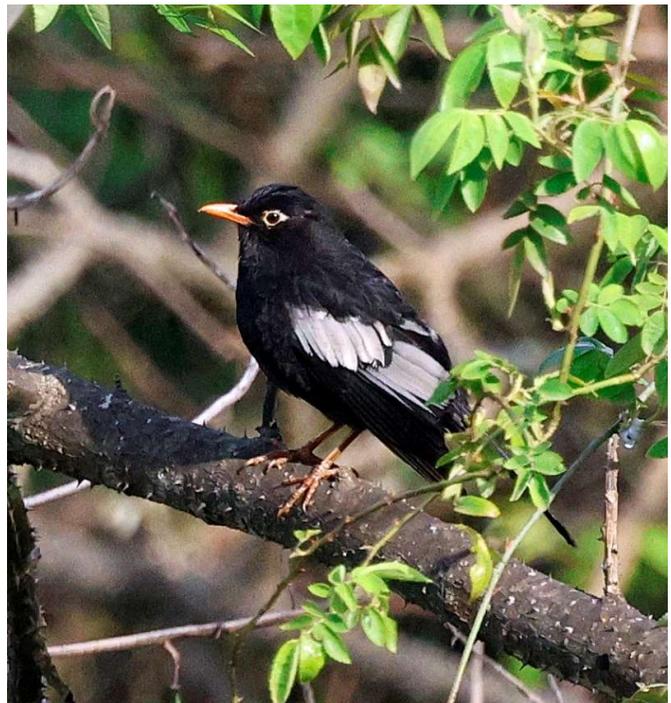

And then this Black-throated Sunbird joined in.

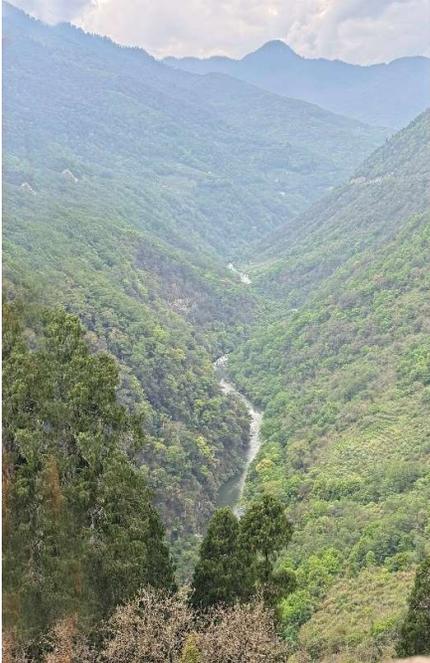

A Blue-throated Blue Flycatcher showed to us all, and a couple Bhutan Laughingthrushes did the same.

Next up, was this close Crimson-breasted Woodpecker and a more distant male Grey-winged Blackbird. We did see the duller brown female blackbird as well.

The inhospitable habit that protects one of the world's rarest herons, the White-bellied Heron is in danger and now only 26 adult birds survive in Bhutan, one of its strongholds. We had distant views across the river valley of a bird on its nest with 2 chicks, hence the poor quality of the photo.

And then there was this! Another incredible spot by our guide as we were driving of this Spot-bellied Eagle Owl. Wow !!!

Next up were a couple birds that usually don't show very well, but we had great views of both Lesser Shortwing and of Rufous-faced Warbler.

While we had lunch a pair of White-browed Shrike Babblers turned up and in a mixed roadside flock a Crimson Sunbird glowed light a red light bulb.

And then it was warbler time, with great views of Grey-hooded Warbler and also Yellow-vented Warbler.

We stopped for a rest break and enjoyed the antics of two Rufous-necked Laughingthrushes, and moving on we found some elegant looking Sultan Tits.

A White-browed Scimitar Babbler crept out of the Bamboo, and then a pair of White-hooded Babblers darted back and forth through the same Bamboo.

This Mountain Hawk-Eagle was eying up the Bronzed Drongo who kept dive bombing the eagle, as it to say if you keep this up I'm going to eat you!

A rather common, but beautiful bird this Yellow-billed Blue Magpie posed nicely.

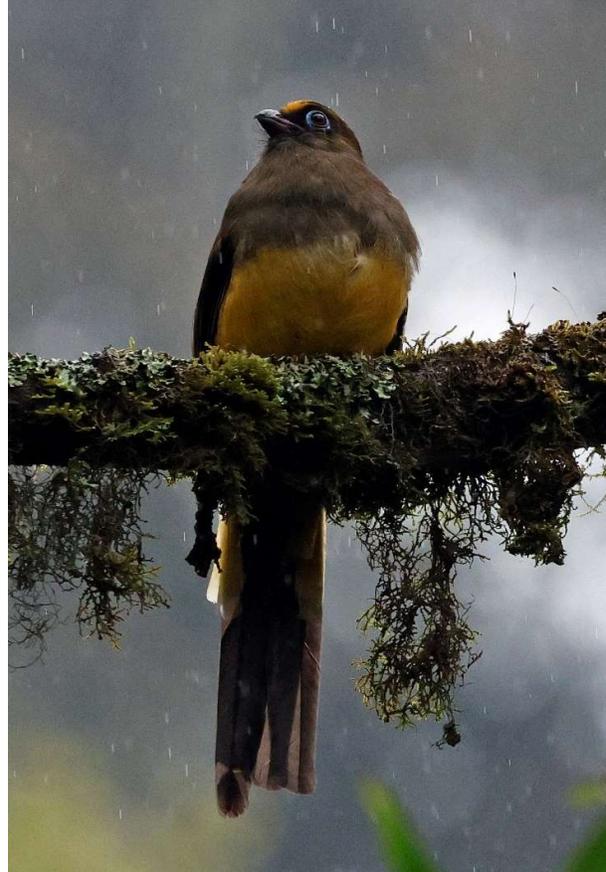

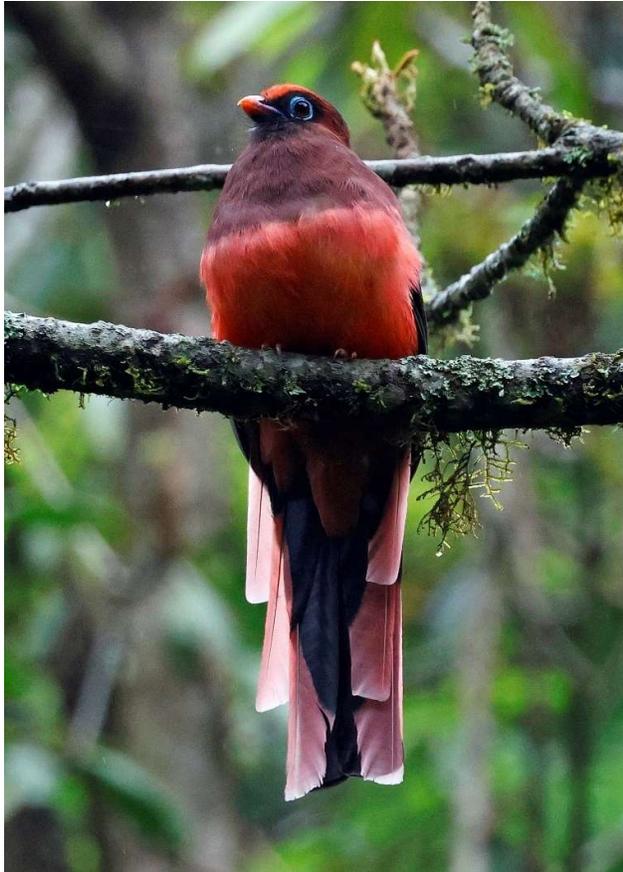

A lovely Crested Bunting gave us exceptional views and everyone loved this energetic White-throated Fantail, which did as its name suggests, constantly fanned its tail !

Oh my !!!! What a treat to see a pair of Pale-billed Parrotbills – so cute!!

We had already seen one, but really wanted better views and today we did! A lovely and much wanted pair of Ward's Trogons.

And then this superb Wreathed Hornbill turned up! What a beauty !

A Common Green Magpie really did its best not to be seen, while a brightly coloured Long-tailed Broadbill could not hide from us.

A White-naped Yuhina showed well while a Silver-eared Mesia stuck to the tree tops.

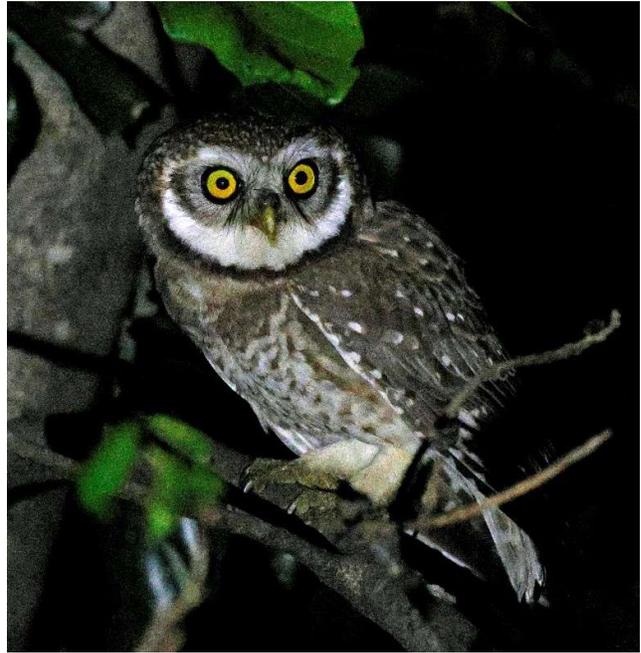

As we headed down into the hot lowlands we started to see some very different birds, starting with several Indochinese Rollers and a lone Brown Shrike.

As we drove beside a river, Sonam spotted this fantastic Tawny Fish Owl sat in a tree.

After dinner we travelled no more than a few hundred yards and unbelievable within 2 minutes we were watching this Spotted Owlet just 20ft away.

And then within a couple more minutes in the exact same spot we were watching this Brown Boobook.

After the excitement of 2 owls in just a few minutes we drove about 10 minutes away. Then literally in another 2 minutes we were watching not one but two Oriental Scops Owls.

A fruiting tree proved to be a magnet for numerous birds. We stopped to view a few pigeons and ended up with around 10 or more species coming to this one tree.

At least 8 Pin-tailed Green Pigeons in the tree.

And this was a Wedge-tailed Green Pigeon.

Down by the sewerage ponds we saw lots of Lesser Whistling Ducks and a lone Red-naped Ibis flew over.

Lesser Whistling Ducks

We had great views of this Crested Goshawk, both perched and in flight.

A Eurasian Hobby perched in a distant tree eventually took off and flew towards us.

Another green pigeon – the Yellow-footed Green Pigeon.

In the car park of our hotel, we got to see this Collared Scops Owl.

Another great spot, this time in the day-time of this Asian Barred Owlet.

Oriental White-eyes were a commonly seen bird, but the Pied Bushchat is an unusual sighting here.

The White-throated Laughingthrush was a bird seen on many occasions, often in big groups.

This Velvet-fronted Nuthatch became our 4th nuthatch species of the trip.

Black-faced Laughingthrush showing well as we returned to Paro.

And finally, we got to see the massive Great Parrotbill.

And so we arrived back at Paro, where we began this fascinating exploration of Bhutan, its wildlife, incredible scenery and amazing culture. What an honour to be guests in such a beautiful country.

The last of our birds of the trip. This Eastern Barn Owl could be seen through the glass window from upstairs in our hotel, while the Black-tailed Crake performed on queue in a nearby marsh.

All good things must come to an end, and so our last field lunch was taken with all our guides, drivers and cooks. What a fantastic team they were. And what a fantastic group we were!

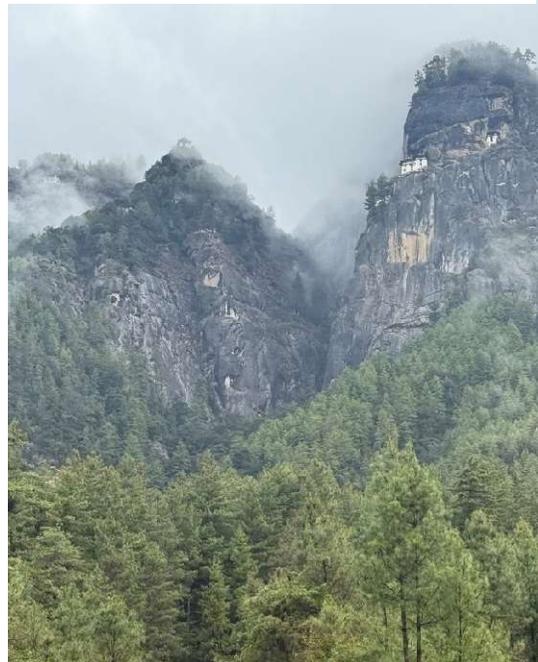

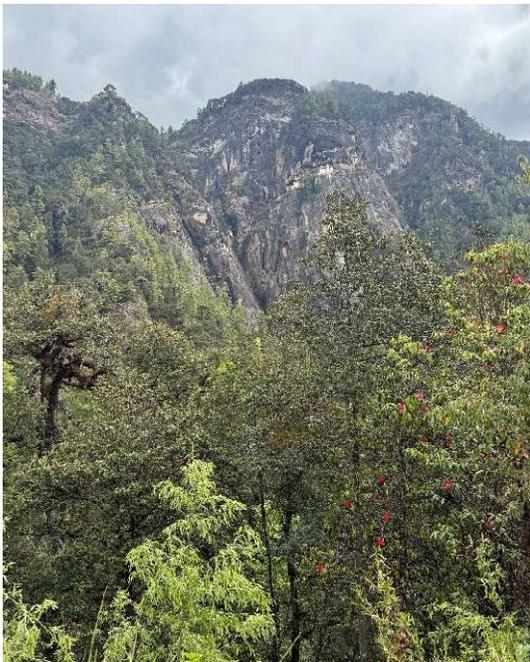

As they say in Bhutan, its not goodbye, its 'see you again'

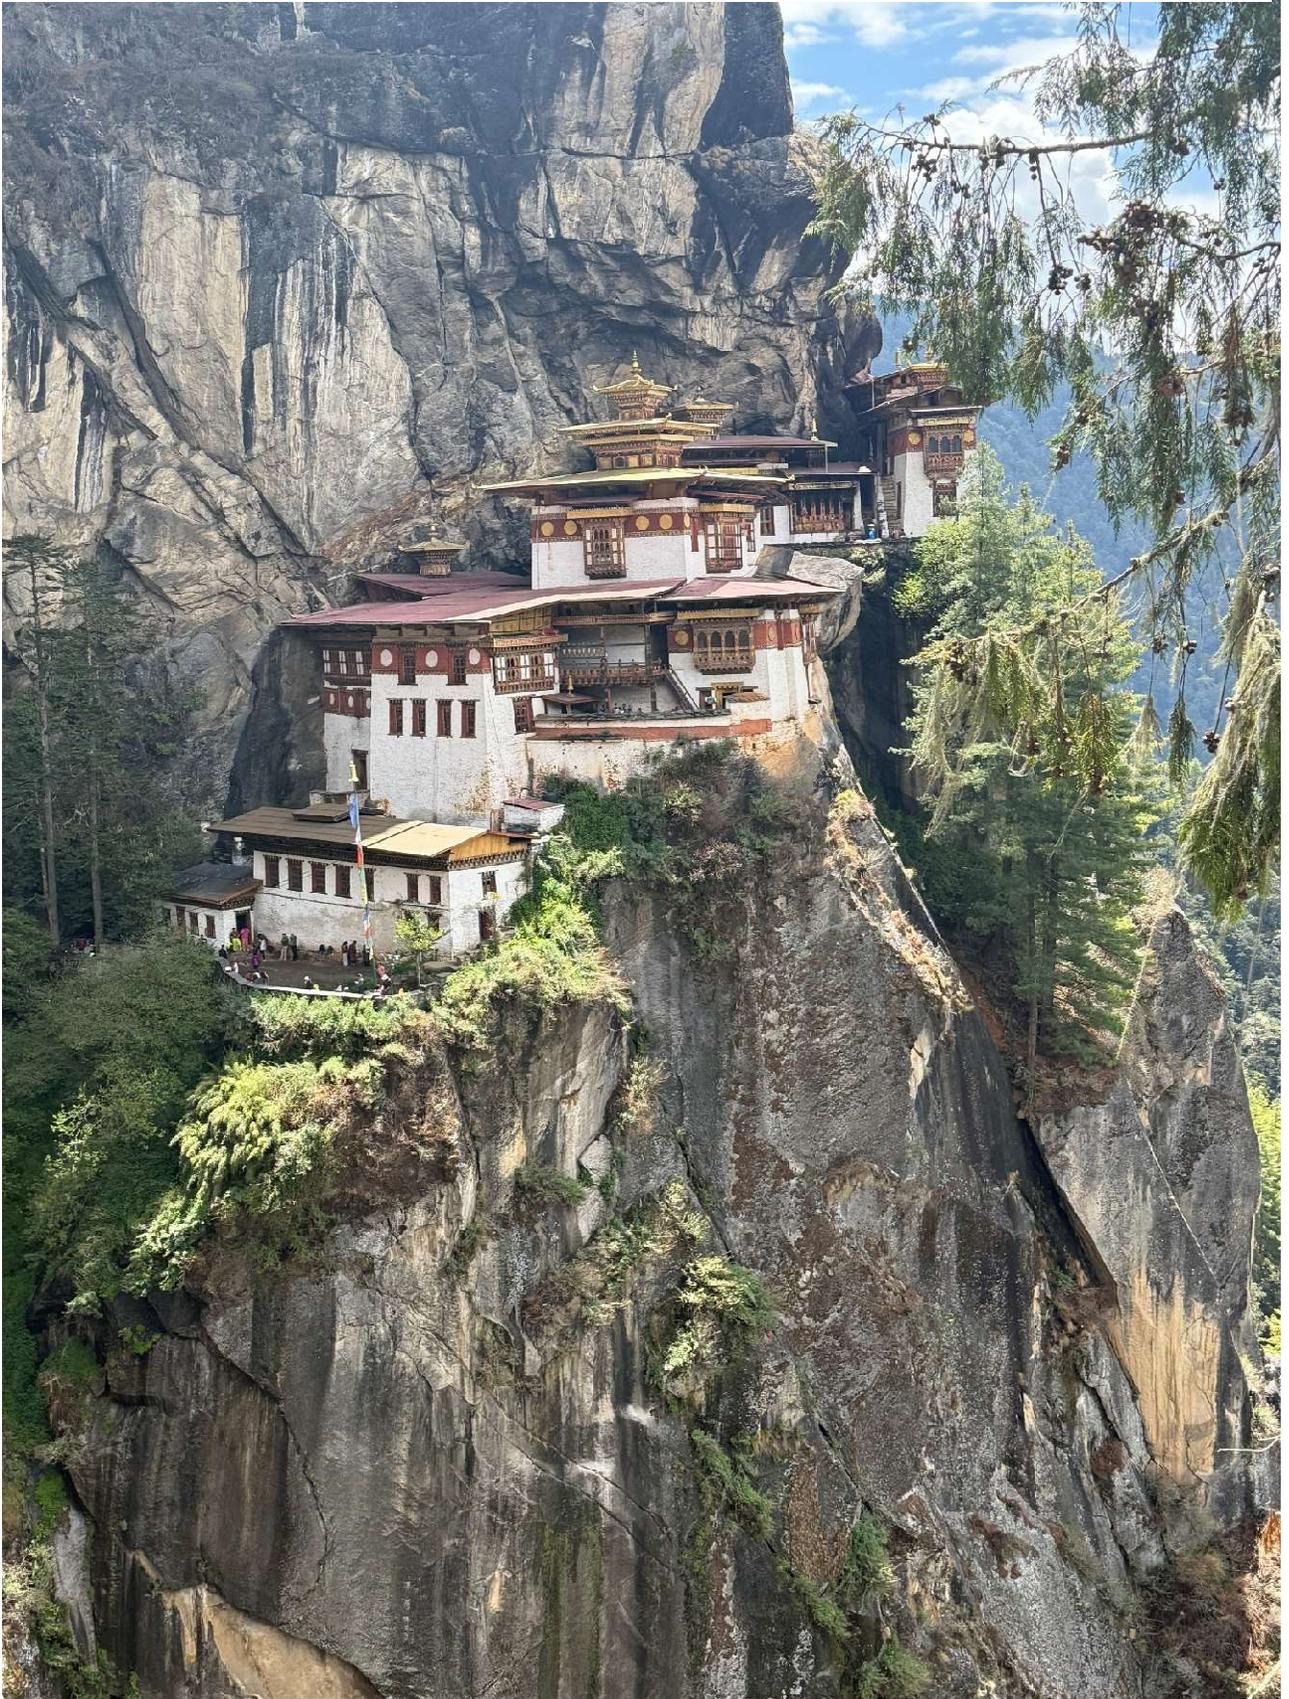

Our very last day was pretty much devoted to visiting the most sacred Buddhist site in Bhutan, the famous 'Tiger's Nest Monastery', perched on the side of the cliffs about 900 meters above the Paro Valley. The steep ascent involved climbing 900 steps up and 900 back down, and the round trip taken slowly would be about 6 – 7 hrs, covering 7.2 kilometres. It was a magical experience, even if we were a little tired at the end. What a way to finish our tour of Bhutan!

And we are ready for the hike. You can see behind us and in the photos below, how far away the 'Tiger's Nest' is sat high on the cliffs. Lets go !!!!

And it was worth every step !

WILDLIFE LIST for Bhutan 2025

A = Number of species recorded on tour
 B = Number of days out of 15 recorded C = Highest daily count
 H = Number of days Heard Only N/C = No Count C = Common

Subspecies have been added where known

This list is in line with IOC WORLD BIRD LIST v(15.1) and as such names may be different than some of the field guides and other taxonomy's – any additional notes see appendix *

A	BIRD SPECIES	SCIENTIFIC NAME	B	C	H
1	Hill Partridge	<i>Arborophila torqueola torqueola</i>			9
2	Rufous-throated Partridge	<i>Arborophila rufogularis rufogularis</i>			2
3	Chestnut-breasted Partridge	<i>Arborophila mandelli</i>			3
4	Blood Pheasant	<i>Ithaginis cruentus</i>	3	3	
5	Satyr Tragopan	<i>Tragopan satyra</i>	4	1	
6	Red Junglefowl	<i>Gallus gallus murghi</i>			2
7	Black Francolin	<i>Francolinus francolinus asiae</i>			1
8	Himalayan Monal	<i>Lophophorus impejanus</i>	3	4	
9	Kalij Pheasant	<i>Lophura leucomelanos</i>	4	2	
10	Indian Peafowl	<i>Pavo cristatus</i>	1	4	
11	Lesser Whistling-duck	<i>Dendrocygna javanica</i>	1	20	
12	Common Merganser (Goosander)	<i>Mergus merganser merganser</i>	1	2	
13	Great Crested Grebe	<i>Podiceps cristatus cristatus</i>	1	1	
14	Red-naped Ibis	<i>Pseudibis papillosa</i>	1	1	
15	Indian Pond-heron	<i>Ardeola grayii</i>	1	20	
16	Grey Heron	<i>Ardea cinerea cinerea</i>	1	4	
17	White-bellied Heron	<i>Ardea insignis</i>	3	1	
18	Eastern Cattle Egret	<i>Ardea coromanda</i>	2	50	
19	Little Egret	<i>Egretta garzetta garzetta</i>	2	10	
20	Little Cormorant	<i>Microcarbo niger</i>	1	20	
21	Great Cormorant	<i>Phalacrocorax carbo sinensis</i>	1	1	
22	Common Kestrel	<i>Falco tinnunculus tinnunculus</i>	6	2	
23	Eurasian Hobby	<i>Falco subbuteo</i>	1	1	
24	Crested (Oriental) Honey-buzzard	<i>Pernis ptilorhynchus</i>	2	4	
25	Himalayan Vulture	<i>Gyps himalayensis</i>	3	10	
26	Crested Serpent-eagle	<i>Spilornis cheela cheela</i>	6	1	
27	Crested Goshawk	<i>Lophospiza trivirgata lophospiza</i>	1	1	
28	Eurasian Sparrowhawk	<i>Accipiter nisus melaschistos</i>	1	1	
29	Himalayan Buzzard	<i>Buteo refectus</i>	3	1	
30	Rufous-bellied Eagle	<i>Lophotriorchis kienerii kienerii</i>	3	1	
31	Black Eagle	<i>Ictinaetus malaiensis perniger</i>	5	1	
32	Mountain Hawk-eagle	<i>Spizaetus nipalensis nipalensis</i>	3	1	
33	Eurasian Coot	<i>Fulica atra atra</i>	1	3	
34	White-breasted Waterhen	<i>Amaurornis phoenicurus</i>	1	10	
35	Black-tailed Crake	<i>Zapornia bicolor</i>	1	1	
36	Common Moorhen	<i>Gallinula chloropus chloropus</i>	1	2	
37	Ibisbill	<i>Ibidorhyncha struthersii</i>	1	6	
38	River Lapwing	<i>Vanellus duvaucelii</i>	5	4	
39	Red-wattled Lapwing	<i>Vanellus indicus indicus</i>	1	8	
40	Little Ringed Plover	<i>Charadrius dubius curonicus</i>	1	1	

41	Green Sandpiper	<i>Tringa ochropus</i>	1	1	
42	Wood Sandpiper	<i>Tringa glareola</i>	1	1	
43	Common Sandpiper	<i>Actitis hypoleucos</i>	2	3	
44	Rock Dove	<i>Columba livia var-domestica</i>	5	N/C	
45	Snow Pigeon	<i>Columba leuconota gradaria</i>	1	8	
46	Speckled Wood-pigeon	<i>Columba hodgsonii</i>	3	2	
47	Oriental Turtle-dove	<i>Streptopelia orientalis agricola</i>	13	N/C	
48	Spotted Dove	<i>Streptopelia chinensis suratensis</i>	5	8	
49	Barred Cuckoo-dove	<i>Macropygia unchall tusalia</i>	1	2	
50	Yellow-footed Green Pigeon	<i>Treron Phoenicopterus phoenicopterus</i>	1	4	
51	Pin-tailed Green Pigeon	<i>Treron apicauda apicauda</i>	1	8	
52	Wedge-tailed Green Pigeon	<i>Treron sphenurus sphenurus</i>	2	2	1
53	Green Imperial Pigeon	<i>Ducula aenea sylvatica</i>	1	3	
54	Alexandrine Parakeet	<i>Psittacula eupatria nipalensis</i>	1	10	
55	Rose-ringed Parakeet	<i>Psittacula krameria borealis</i>	1	6	
56	Chestnut-winged Cuckoo	<i>Clamator coromandus</i>			1
57	Large Hawk-Cuckoo	<i>Hierococyx sparveroides</i>	5	1	9
58	Hodgson's Hawk-Cuckoo	<i>Hierococyx nasicolor</i>			3
59	Indian Cuckoo	<i>Cuculus Micropterus micropterus</i>	1	1	5
60	Common Cuckoo	<i>Cuculus canorus bakeri</i>	4	3	6
61	Himalayan Cuckoo	<i>Cuculus saturatus</i>	3	1	10
62	Lesser Cuckoo	<i>Cuculus poliocephalus</i>			2
63	Grey-bellied Cuckoo	<i>Cacomantis passerinus</i>	1	1	1
64	Plaintive Cuckoo	<i>Cacomantis merulinus querulus</i>	1	1	
65	Asian Emerald Cuckoo	<i>Chrysococyx maculatus</i>	2	2	
66	Fork-tailed Drongo Cuckoo	<i>Surniculus dicruroides dicruroides</i>	3	2	3
67	Asian Koel	<i>Eudynamys scolopaceus scolopaceus</i>	3	1	1
68	Green-billed Malkoha	<i>Phaenicophaeus tristis tristis</i>	1	2	
69	Greater Coucal	<i>Centropus sinensis sinensis</i>			1
70	Lesser Coucal	<i>Centropus bengalensis bengalensis</i>	1	3	
71	Eastern Barn Owl	<i>Tyto javanica stertens</i>	2	1	
72	Oriental Scops-owl	<i>Otus sunia sunia</i>	1	2	
73	Collared Scops-owl	<i>Otus lettia lettia</i>	1	1	
74	Spot-bellied Eagle-owl	<i>Bubo nipalensis nipalensis</i>	1	1	
75	Tawny Fish-owl	<i>Ketupa flavipes</i>	1	1	
76	Brown Boobook	<i>Ninox scutulata lugubris</i>	1	1	
77	Collared Owlet	<i>Glaucidium brodiei brodiei</i>	2	1	2
78	Asian Barred Owlet	<i>Glaucidium cuculoides austerum</i>	3	1	
79	Spotted Owlet	<i>Athene brama indica</i>	1	1	
80	Hodgson's Frogmouth	<i>Batrachostomus hodgsoni hodgsoni</i>	1	1	
81	Grey Nightjar	<i>Caprimulgus jotaka hazarae</i>	1	2	1
82	White-throated Needletail	<i>Hirundapus caudacutus nudipes</i>	4	15	
83	Himalayan Swiftlet	<i>Aerodramus brevirostris brevirostris</i>	6	40	
84	Asian Palm Swift	<i>Cypsiurus balasiensis balasiensis</i>	1	2	
85	Blyth's Swift	<i>Apus leuconyx</i>	9	20	
86	House Swift	<i>Apus nipalensis nipalensis</i>	2	4	
87	Red-headed Trogon	<i>Harpactes erythrocephalus erythr.....</i>	1	1	
88	Ward's Trogon	<i>Harpactes wardi</i>	2	2	
89	Indochinese Roller	<i>Coracias affinis</i>	2	4	
90	Common Kingfisher	<i>Alcedo atthis bengalensis</i>	1	1	
91	White-throated Kingfisher	<i>Halcyon smyrnensis perpulchra</i>	5	10	
92	Crested Kingfisher	<i>Ceryle lugubris</i>	1	2	
93	Blue-bearded Bee-eater	<i>Nyctornis athertoni athertoni</i>	1	3	

94	Chestnut-headed Bee-eater	<i>Merops leschenaultia leschenaulti</i>	1	1	
95	Blue-tailed Bee-eater	<i>Merops philippinus</i>	1	3	
96	Eurasian Hoopoe	<i>Upupa epops longirostris</i>	6	4	
97	Great Hornbill	<i>Buceros bicornis</i>	2	1	
98	Rufous-necked Hornbill	<i>Aceros nipalensis</i>	4	4	1
99	Wreathed Hornbill	<i>Aceros undulatus</i>	2	2	
100	Great Barbet	<i>Psilopogon virens magnificus</i>	11	6	
101	Lineated Barbet	<i>Megalaima lineata hodgsoni</i>	2	2	
102	Golden-throated Barbet	<i>Psilopogon franklinii franklinii</i>	5	2	2
103	Blue-throated Barbet	<i>Psilopogon asiaticus asiaticus</i>	7	3	1
104	Coppersmith Barbet	<i>Psilopogon haemacephalus indicus</i>	1	1	
105	Yellow-rumped Honeyguide	<i>Indicator xanthonotus xanthonotus</i>	2	1	
106	Eurasian Wryneck	<i>Jynx torquilla sarudnyi</i>	1	1	
107	Speckled Piculet	<i>Picumnus innominatus innominatus</i>	1	1	1
108	Rufous-bellied Woodpecker	<i>Hypopicus hyperythrus hyperythrus</i>	2	2	
109	Grey-capped Pygmy Woodpecker	<i>Dendrocopos canicapillus semicoronatus</i>	1	1	
110	Fulvous-breasted Woodpecker	<i>Dendrocopos macei macei</i>	2	1	
111	Crimson-naped Woodpecker	<i>Dendrocopos cathpharius cathpharius</i>	1	1	
112	Darjeeling Woodpecker	<i>Dendrocopos darjellensis darjellensis</i>	4	1	
113	Lesser Yellownape	<i>Picus chlorolophus chlorolophus</i>	1	1	
114	Greater Yellownape	<i>Chrysophlegma flavinucha flavinucha</i>	2	2	
115	Grey-headed Woodpecker	<i>Picus canus hessei</i>	1	1	1
116	Greater Flameback	<i>Chrysocolaptes guttacristatus guttac.....</i>			1
117	Rufous Woodpecker	<i>Micropternus brachyurus phaiiceps</i>	3	2	
118	Bay Woodpecker	<i>Blythipicus pyrrhotis pyrrhotis</i>	2	1	
119	Long-tailed Broadbill	<i>Psarisomus dalhousiae dalhousiae</i>	2	1	1
120	Large Woodshrike	<i>Tephrodornis virgatus pelvicus</i>	1	2	
121	Ashy Woodswallow	<i>Artamus fuscus</i>	2	6	
122	Black-winged Cuckoo-shrike	<i>Coracina melaschistos melaschistos</i>	6	2	1
123	Grey-chinned Minivet	<i>Pericrocotus solaris solaris</i>	6	4

Several of the Butterflies and other creatures we saw!

Red Lacewing Butterfly (*Cethosia biblis*)

Great Nawab (Polyura eudamippus)

Spectacle Swordtail (*Graphium mandarinus*) and Common Jay (*Graphium doson*)

And then we have the Common Mapwing (*Cyrestis thyodamas*) and Hill Jezebel (*Delias belladonna*).

Striped Punch (*Dodona adonira*)

Purple Sapphire (*Heliophorus epicles*)

Fulgorid Planthopper nymph

Indian Moon Moth (*Actias selene*)

Indian Owlet-Moth (*Spirama retorta*)

Saturnia bonita
