COSTA RICA

March 5 - 16, 2012

TRIP REPORT

COSTA RICA

March 5 – 16, 2012

HIGHLIGHTS

Either for rarity value, excellent views or simply a group favorite.

- Snowcap
- Magenta-throated Woodstar
- Elegant Euphonia
- King Vulture
- American Pygmy Kingfisher
- Costa Rican Pygmy-Owl
- Silvery-throated Jay
- King Vulture
- Fasciated Tiger-Heron
- Green Shrike-Vireo
- Mangrove Hummingbird
- Spectacled Owl
- Resplendent Quetzal
- Scarlet Macaw
- Snowy Cotinga
- Timberline Wren
- Sungrebe
- Swallow-tailed Kite
- White Hawk
- Nicaraguan Seed-Finch
- Ochraceous Pewee
- Dark Pewee
- Olive-backed Quail-Dove
- Red-capped Manakin
- Blue-crowned Manakin
- Orange-collared Manakin
- Long-tailed Manakin
- Fiery-throated Hummingbird
- Bare-throated Tiger-Heron
- Great Curassow
- Black-crested Coquette
- Spotted Wood-Quail
- Green-fronted Lancebill

Leaders: Steve Bird and Gina Nichol

SUMMARY:

Our 2012 tour to Costa Rica was a resounding success with many of our target species found and a lot of great surprises along the way. The weather was perfect throughout the trip and we had just one day with a few showers but not enough to prevent us from birding. With so many people now travelling to Costa Rica, we have fine-tuned our itinerary to get us away from the crowds and offer a more authentic experience! We stayed in some new and very well received lodges that we had almost exclusively to ourselves and the accommodation and food was of an exceptionally high standard.

The birds never fail to impress and our years of experience and knowledge of this tropical paradise allowed us to find many sought after, rare and exciting species. From fantastic boat trips where herons, kingfishers and countless water birds were seen at close range, to gorgeous rainforests dripping with bromeliads, mosses and colorful tropical birds, this tour was a memorable one! We had astounding views of one of the most beautiful of all birds the Resplendent Quetzal, found with tiny Torrent Tyrannulets and American Dipper in tumbling mountain streams, had an amazing day in the high Paramo with tame Volcano Juncos, and enjoyed gardens full of hummingbirds.

It was a pleasure to lead this tour for people so enthusiastic and appreciative of wildlife. We hope you enjoy our report and look forward to seeing you on future tours!

Steve & Gina

One of the most beautiful birds in the World the Resplendent Quetzal. This male was watched at its nest hole where we enjoyed unprecedented views.
(Photo Gina Nichol)

5th March 2012

Most of our group arrived with just short delays at San Jose airport where they were soon transported to our pleasant hotel. Unfortunately the six persons travelling from the UK missed their connecting flight in Madrid and were delayed by 24 hours! No worries, though. With our local connections in Costa Rica, we were able to arrange for the six to catch up with us the next day.

6th March 2012

This morning we had a short walk around the hotel gardens before breakfast to introduce ourselves to some of Costa Rica's wonderful birdlife. A **Green-breasted Mango** was soon located and started off our hummingbird list, while **Social Flycatcher**, **Montezuma's Oropendola** and **Variiegated Squirrel** were found in the area. Without moving from the parking lot, we spotted **Clay-colored Thrushes**, **Blue-gray Tanager**, **Palm Tanager**, **Hoffman's Woodpecker**, **Yellow-throated Vireo**, **Baltimore Oriole**, and then a showy pair of **Rufous-naped Wrens**. We then heard a **Lineated Woodpecker** and soon found a fabulous pair of these large attractive birds which put on a great show for us. In the nearby bamboo was a pair of **Blue-crowned Motmots**, while a large tree in the garden held lots of **Tennessee Warblers**, **Summer Tanager**, **Social Flycatcher** and **Great Kiskadee**. A few **Blue-and-white Swallows** were flying around and in the distance we saw a flock of about forty **Crimson-fronted Parakeets**. A **Broad-winged Hawk** was found perched in a dead tree and then we headed off for breakfast.

Afterward breakfast, we packed our luggage onto the bus and set off toward Sarapiquí. Our first stop was made when Steve spotted a **Bat Falcon** sat on a dead tree. We moved on to a disused butterfly garden and, while dodging in and out of the rain showers, we watched a superb male **Black-crested Coquette**, several **Violet-headed Hummingbirds** and some **Rufous-tailed Hummingbirds**. A few other birds were moving high up in the trees and we scoped some of these and a nearby flock which including **Black-mandibled Toucan**, **Thick-billed Seed-finch**, **Emerald**, **Black-and-yellow**, **Golden-hooded**, **Silver-throated**, **White-shouldered** and **Tawny-crested Tanagers**. We also spotted **Rose-breasted Grosbeak** and **Golden-winged Warbler**.

We then moved on to an area of forest near a small stream. It was rather quiet at first and then we found a very confiding **Bright-rumped Attila** right down by the river, and then a **Long-billed Hermit** that was singing from a small branch. As we tried to get better views of a **Chestnut-backed Antbird** we found a group of **Black-faced Grosbeaks**, followed by female **Black-throated Trogon**, and a crazy flock that held **Wedge-billed** and **Streak-headed Woodcreeper**, **Green Honeycreeper**, **Ochre-bellied**

This fabulous little male **Black-crested Coquette** was a highlight of the old disused butterfly garden.

It's always good to know where the elusive **Fasciated Tiger-Heron** can regularly be seen, such as this one!

Another speciality this **Nicaraguan Seed-Finch** gave superb views.

Flycatcher, and another **Golden-winged Warbler**. Several **Red-throated Ant-Tanagers** put on a good show, while a male **Black-throated Trogon**, a female **White-necked Jacobin**, **Lesser Greenlet** and **Dusky-faced Tanagers** all put in an appearance.

We had our lunch in a nearby restaurant and then drove to another small river where we saw a couple of **White-crowned Parrots**, an **Amazon Kingfisher** and fantastic views of a **Fasciated Tiger-Heron**. At one point a pair of **Buff-rumped Warblers** bounced across the rocks behind the heron and a **Neotropic Otter** came darting through the water so fast it was missed by most people. In the same area, we noted a couple of **Band-backed Wrens** before moving on our next stop which overlooked a huge expanse of wet grassy meadows. A lot of **Blue-black Grassquits** were jumping around the grasses here and there were **Variable Seedeater** and **Thick-billed Seed-Finch**. We scanned the grasses and soon found our target **Nicaraguan Seed-Finch** sat on top of the tall sprigs showing off its huge pink beak. A pair of **Green Ibis** gave the briefest of appearances, and then a couple of **Common Yellowthroats** were seen as well as distant **Red-winged Blackbird**, **Pale-vented Pigeons** and a flock of about 200 **White-collared Swifts**.

From here we drove to another area beside the river and straight away found a **Little Blue Heron** in the river. In the trees above we had **Violet-crowned Woodnymph**, several **Black-faced Grosbeaks**, both **Black-capped** and **Masked Tityras**, **Black-cheeked Woodpecker**, **Olive-backed Euphonia**, a pair of very nice **Shining Honeycreepers**, **Streak-headed Woodcreeper**, **Tropical Gnatcatcher** and, by the water, a **Black Phoebe**. From the bridge we scoped a couple of **Olive-throated Parakeets** and a **Gartered Trogon**, and a little further on, we found a **Gray-capped** and a **Boat-billed Flycatcher** with a stonking great beak! There was also a **Buff-throated Saltator** and a couple of **Golden-hooded Tanagers** plus good views of a **Purple-crowned Fairy**. We also found a **Rufous-tailed Hummingbird's** nest with a couple of large chicks at home. Finally we finished the day with some ridiculously bright **Passerini's Tanagers**. We then drove to our lovely lodge and settled into our rooms. Steve and Lisa then gathered us together as they had found a perched **Spectacled Owl** from their back window. It stayed a short while and then flew off. At dinner, our 6 missing persons arrived from their delayed flights. Afterwards we tried to call in the Spectacled Owl but with no success so we retired to bed.

7th March 2012

After an early breakfast, a quick look on the lodge feeders found us **Red-throated Ant-Tanagers**, **Blue-gray**, **Golden-hooded** and **Passerini's Tanagers**. Then we set off for our day at La Selva OTS and our exploration of the forests of the Caribbean lowlands. At the reserve

We saw Bright-rumped Attila's nearly every day including this showy one!

One of the best looking Motmots the Turquoise-browed Motmot was seen very well on many occasions.

Nearly always easy to photograph the Broad-billed Motmot

we started off by walking the approach road and immediately started seeing birds. Several **White-crowned Parrots** were seen sat in a tree top, **Passerini's** dashed around and there was **Dusky-capped Flycatcher**, **Black-cheeked Woodpecker**, **Fasciated Antshrike**, **Variable Seedeater**, **Paltry Tyrannulet**, **Common Tody-Flycatcher**, **Yellow-olive Flycatcher**, **Olive-backed Euphonia** and a **Squirrel Cuckoo**. Moving along the road we came across a **Great Tinamou** actually stood on the road. A nearby tree held **Yellow-throated Vireo** and **Yellow-olive Flycatcher** together and we saw **Black-mandibled Toucan**. A couple of **Black-cowled Orioles** appeared as well as **Tropical Gnatcatcher**, **Red-legged Honeycreepers**, **Gartered Trogon**, and then a superb close **Fasciated Antshrike**, while above us flew **Gray-rumped Swifts** and several **Lesser Swallow-tailed Swifts**. As we watched **Gray-capped Flycatchers**, a confiding **Rufous Mourner** appeared right beside us. A **White-tipped Dove** was seen walking around next to the restaurant.

We then walked over the Stone bridge and were soon enjoying the comings and goings of a colony of **Chestnut-headed Oropendolas**. A **Green Basilisk** ran across the path and then we got excellent close views of the Oropendolas feeding in a fruiting tree. Next up was a **Double-toothed Kite** that flew overhead. As we entered the forest, a superb **Pale-billed Woodpecker** showed well but an **Eye-ringed Flatbill** flew off before anyone could really get on it. The birding simply didn't stop as we found **White-collared Manakins**, a pair of **Rufous Motmots** and then an amazing show as three **Olive-backed Quail-Doves** gave unbelievable views right out in the open on the track. In addition to the birds there was a **Brown Wood Turtle** in a small stream, several **Collared Peccary's** and a **Two-toed Sloth**. Another **Great Tinamou** showed briefly in forest, and we got to see a female **Snowy Cotinga**. A **White-whiskered Puffbird** showed very well, shortly followed by **Western Slaty-Antshrike** and a **Chestnut-colored Woodpecker**.

We returned across the bridge to our picnic lunch which was all set up by Alex our driver. A siesta ensued but we really couldn't rest when the Gina announced that three **King Vultures** were offering close overhead views. After that, "Flat Stanley" had us all running for a superb **Sungrebe** swimming along the river and easily viewable from the bridge. If that was not enough for our "rest", the sight of a male **Great Curassow** walking right past us and running off into the bushes was totally unexpected. As we gathered together near the restaurant for our afternoon birding session, we found a couple of **Plain-colored Tanagers**, **Shining Honeycreeper**, and **Dusky-capped Flycatcher**. Up higher in some trees were a pair of **Scarlet-thighed Dacnis**, and then we came across **Blue-black Grosbeak** and **Keel-billed Toucan** and in same tree **Black-mandibled Toucan** and **Collared Aracari**. A **Gray-chested Dove** showed well

A great find at breakfast were this pair of Spectacled Owls sat right out in the open for all of us to see!

The Chestnut-colored Woodpecker gave wonderful scope views

The trails at La Selva can often produce a few surprises including this year three Olive-backed Quail-Doves feeding on the track in front of us!

along the track, and a **Snowy Cotinga** posed on the top of a dead tree which also held **Green Honeycreeper** and **Cinnamon Becard**. Nearby we got great views of perched **Blue-chested Hummingbird**, followed by **Plain-brown Woodcreepers**, **Black-cowled Oriole** and **Golden-hooded Tanagers**. It was a real delight to watch a group **White-collared Manakins** displaying, and a short distance on we found **Short-billed Pigeon** then **Broad-billed Motmot**, an excellent **Band-tailed Barbthroat** as well as **Rufous-winged Woodpecker**, **Piratic Flycatcher**, **Red-throated Ant-Tanager**, **Red-lored Parrots** and a **Strawberry Poison-Dart Frog**.

8th March 2012

This morning we got ready for a walk around the gardens of our lodge before breakfast. As we were having a cup of coffee, an **Orange-billed Sparrow** was seen hopping around the restaurant floor, shortly followed by a **Wood Thrush**. We then set off on our walk. A **Chestnut-backed Antbird** was heard calling and with patience and persistence we all got excellent views. Nearby a **Gray-necked Woodrail** showed well near the pond while in the grasses were **Variable Seedeater** and **Blue-black Grassquit**. On a fence beside another pond was a **Green Kingfisher** and then a **Bananaquit** was seen in a close Heliconia flower. High in the trees was a **Green-breasted Mango** as well as a noisy **Piratic Flycatcher** and on the edge of the pond we found a **Northern Waterthrush**. Above us, a lone **Chestnut-collared Swift** flew over shortly followed by **Gray-rumped Swift** and a **Lesser Swallow-tailed Swift**. Amazingly we found yet another **Rufous-winged Woodpecker**, a **Bright-rumped Attila** and beside our rooms was a **Bronzy Hermit** hawking insects.

It was then time for breakfast so while everyone headed off, Steve did a last chance search for the **Spectacled Owls** that we had heard the night before. It wasn't long before he found the pair of owls sat out in the open and a quick call on the radio had everyone return and enjoy fabulous views of these star birds. Just after breakfast we watched the feeders and saw **Red-legged Honeycreeper**, **Red-throated Ant-Tanager**, and **Passerini's Tanager**.

We then packed our luggage and moved on. Passing a few **Gray-breasted Martins** sat on wires, we arrived at an area near a farm and river. The area was buzzing with birds including **Northern Jacana**, **Golden-hooded Tanager** and **Tropical Pewee**. In the grasses we found **Yellow Tyrannulet** and **Groove-billed Ani**. From the bridge we saw **Spotted Sandpiper**, **Black Phoebe**, **Gray-capped Flycatcher** and some **Black-faced Grosbeaks**. As we slowly walked back along the road we came across some **Orange-chinned Parakeets**, then a **Melodious Blackbird**, **Paltry Tyrannulet** and **Yellow-bellied Elaenia**. A **Purple**

Our lodge grounds are a great place to search for Strawberry Poison-Dart Frogs

We had some nice close encounters with Lesser Swallow-tailed Swifts at La Selva

The smallest of the trogons this male Black-throated Trogon gave excellent close views

Gallinule was seen and down by the main road we found **Orchard Oriole** and **Red-winged Blackbird**. Returning to the bus we had super looks at several **Montezuma's Oropendolas** feeding in a tree. Moving on we drove to the old butterfly garden and, although it started quietly, we were soon treated to good views of **Rufous-tailed Hummingbird**, several **Violet-headed Hummers** a brief **Bronze-tailed Plumbeater**, **Violet-crowned Woodnymph**, and in the 11th hour a wonderful little male **Snowcap** appeared offering stunning views! As we were about to leave a female/immature **Snowcap** also appeared.

Back in the bus we drove on a short distance to Braulio Carrillo National Park. While lunch was being prepared we took a walk into the forest which was quiet as is usually the case. We did find a **Buff-rumped Warbler**, a group of **Carmioli's Tanagers**, and great looks at a **Black-headed Nightingale-Thrush**. We returned for our lunch and then set off on the drive towards the Pacific coast and our very pleasant lodge. We settled into the rooms and then went out to check the garden. At the feeders were **Hoffman's Woodpeckers**, **Red-legged Honeycreeper** and in the flowering tree above was **Cinnamon Hummingbird**. From the balcony we also saw a couple of **Scarlet Macaws** flying across the valley – a wonderful sight. Close to the restaurant were **Masked** and **Black-crowned Tityras**, **Rufous-naped Wrens**, and a superb **Ferruginous Pygmy-Owl**. An **American Kestrel** flew past before we ended the day with hundreds of **Lesser Nighthawks** filling the evening sky.

9th March 2012

This morning we had an early breakfast and checked the feeders in the garden. **Red-legged Honeycreeper** and **Hoffman's Woodpeckers** showed up while a very nice **Cinnamon Hummingbird** fed on flowers right in front of us. A **Muscovy Duck** flew around the valley a few times and **Yellow-naped Parrots** and **Yellow-headed Caracara** were seen. After breakfast we set off for nearby Carara National Park. Our morning walk was to be along the river trail, an area that needs to be walked very slowly in order to connect with some of the key species. It's a great place to bird if you do it right. So, we started along the trail and, as ever, it appeared a little quiet. A **Northern Waterthrush** showed well beside a puddle and then we found a **Rufous-and-white Wren**. Nearby a **Slate-headed Tody-Flycatcher** gave itself up and we found **Lesser Greenlet**, **Bright-rumped Attila**, **Chestnut-sided Warbler** and a **Northern Bentbill**. Then high above us was a calling **Green-shrike Vireo** that Lisa spotted and most of us got to see. A **Band-tailed Barbthroat** put in an appearance and then a **Double-toothed Kite** was spotted perched in a tree above us. Moving along a little we found a **Northern Royal Flycatcher** which gave fantastic views and then later was seen to go into a nest hanging down

Noisy and fairly easy to see, we encountered many Chestnut-mandibled Toucans (this subspecies is now lumped with Black-mandibled Toucan)

This White-whiskered Puffbird posed nicely for all to see

What a delight it was to find the nest of a pair of Northern Royal Flycatchers. If you ever see one with its orange and blue tipped crest raised, you will know why this is such a special bird

from a nearby tree. A **White-nosed Coati** crept through the undergrowth and a **Central American Agouti** proved a little more showy. We then came across an **Orange-collared Manakin** lekking area and here we were treated to amazing views of these gorgeous tiny birds. A little further on by some Heliconias was a **Scaly-breasted Hummingbird** and then a small mixed flock contained **White-shouldered Tanager**. Lower down we found a pair of **Black-hooded Antshrikes** together with a pair of **Barred Antshrikes**, a **Dot-winged Antwren** and a **Rufous-breasted Wren**. Moving a short distance along were **Golden-winged Warbler**, another **Slate-headed Tody-Flycatcher** and then another flock that contained **Plain Xenops**, **Spot-crowned Euphonia**, **Wedge-billed** and **Cocoa Woodcreeper**, **Yellow-olive Flycatcher**, **Streaked Flycatcher** and a male **White-winged Becard**. A **Prothonotary Warbler** put in an appearance before we made our way back to the bus as it was now very hot and most of the wildlife had gone quiet.

We returned to our lodge for a good lunch, and then after a short rest we headed out to another area of Carara called the Figure of 8 trail. A troupe of **White-faced Capuchins** was seen and we found a group of **Dot-winged Antwrens** and a **Great Tinamou**. We then moved on to a small stream where we settled ourselves in and waited. It wasn't long before our first male **Red-capped Manakins** appeared and began to bathe. Shortly after a male **Blue-crowed Manakin** was seen, followed by an **Ochre-bellied Flycatcher**, and all the while **Scarlet Macaws** flew overhead. It was a truly amazing experience to witness this combination of events. It was starting to get dark and as we reluctantly left this magical scene we came across a mass of gorgeous butterflies, plus **Yellow-bellied Flycatcher** and nearby a couple of showy **Riverside Wrens**. We could hear both **Black-faced Antthrush** and **Streak-chested Antpitta** but neither wanted to show themselves. A **Gray-headed Tanager** performed much better and out beside our coach we enjoyed superb views of a pair of **Turquoise-browed Motmots**.

10th March 2012

This morning we saw a few things in the garden including **Yellow-green Vireo**, **Western Tanager**, **Baltimore Orioles** and a **Rose-throated Becard**. We also had nice views of a perched **White-fronted Parrot** and several **Scarlet Macaws** flew over. After breakfast we drove to the mangroves getting good views of **Stripe-headed Sparrows** along the way. As we were about to start our walk a **Lineated Woodpecker** was seen having a dust bath right in front of us and totally unconcerned at our close presence. Overhead several **Magnificent Frigatebirds** soared, while the large trees held **Orange-chinned Parakeets**, **Northern Scrub Flycatcher**, plenty of **Streaked Flycatchers**, **Common Tody Flycatcher** and **Rose-throated Becard**. A couple of showy

Down by our favourite stream, one of the tour highlights was watching these Red-capped Manakins and Blue-crowned Manakins coming to bathe

The superb King Vulture always gives us a fine show at one of our raptor watch points

Simply fantastic – Scarlet Macaws

Turquoise-browed Motmots posed for us beside the track and then we had to bushwhack our way into the mangroves as our old pathway had disappeared. We soon found **Brown-crested Flycatcher** and then, after a few anxious moments, our target bird the endemic **Mangrove Hummingbird** was found perched for a while before being knocked off its perch by a **Scaly-breasted Hummingbird**. The trees above held **Yellow Warblers**, **Tropical Gnatcatcher**, a brief **Painted Bunting**, **Northern Scrub Flycatcher** and **Southern Beardless Tyrannulet**. As we made our way out of the mangroves there was a nice **Black-headed Trogon**.

We then left and drove up into the hills. It was now very hot, but we did manage to find a couple of **Black-mandibled Toucans** and some **Variable Seedeaters** of the Pacific form. Moving on to one of our raptor stops, we found a stunning **White Hawk** as well as the ever popular **Swallow-tailed Kite**. Our next stop yielded a few **Plumbeous Kites** plus some gorgeous **Western Tanagers**. It was time for a cool drink and as we enjoyed one we got great views of a perched **Laughing Falcon**. If that wasn't enough, a group of noisy **Scarlet Macaws** flew in and fed in a nearby tree. To round it off we also saw **Yellow-bellied Elaenia** and the great views of a **Zone-tailed Hawk**.

We then took a short walk down the road and came across a pair of **Yellow-crowned Euphonias**, plus **Cherrie's Tanagers** and a **Black-striped Sparrow**. A female **Ruby-throated Hummingbird** was spotted and then Gina found a **Yellow-bellied Sapsucker** which disappeared until Keith re-found it. A **Bright-rumped Attila** appeared and then at an overlook we enjoyed superb views across endless forest right down to the Pacific coast. We checked the skies and found both **Wood Stork** and **King Vulture**. Back at the hotel we had lunch and a short siesta. A couple of **Steely-vented Hummingbirds** were seen feeding on yellow flowers.

In the afternoon it was time for our boat trip on the Rio Tarcoles. While waiting to board we saw **Roseate Spoonbills** sat in a dead tree and **Mangrove Swallows** perched on the boats. We set off and edged our way towards the overhanging bushes where we soon came across **Yellow-crowned Night Herons**, a couple of **Black-crowned Night Herons**, superb looking **Boat-billed Herons** and an **American Pygmy Kingfisher**, plus a very concealed **Limpkin**. Moving on, there were **Wood Storks**, **Ringed Kingfisher**, **White Ibis**, **Great and Snowy Egrets**, **Magnificent Frigatebirds** overhead, **Barn Swallows** and fabulous views of **Costa Rican Swifts**. In a lovely weedy area of the river we watched a flock of **Blue-winged Teals**, **Southern Lapwings**, and **Northern Jacanas**. We had great views of **Turquoise-browed Motmot**, **Green Kingfisher**, **Little Blue** and **Tri-colored Herons** and **Purple Gallinule**. On a very grassy island there were **Inca Doves**, **Anhinga**, plus **White-collared Seedeaters** the at least 6 fantastic

Boat-billed Herons can be found from our boat trip on the Tarcoles river

Talk about close! This bare-throated Tiger-Heron was almost too close!

The same with this Crested Caracara it was almost too close to photograph. Many birds from our boat trip allowed very close approach without concern!

looking **Painted Buntings**. Moving further up the river, we came alongside an area of sand and weeds where we pulled right up to the shore and enjoyed the most fantastic close views of a couple of **Collared Plovers**, two **Double-striped Thick-knees**, a **Bare-throated Tiger Heron** that we could almost touch. Both **Yellow-headed** and **Crested Caracara** were just a few feet away and further scanning produced a **Least** and much more unusual was a **Baird's Sandpiper**. After overdosing with these superb close views of birds we looked a little further away and found a couple of **White-tailed Kites**, **Lesser Yellowlegs**, **Tricolored Herons**, **Black-necked Stilts** and some **Willetts**. We then moved into the mangroves where countless **Spotted Sandpipers** bobbed around the shorelines or flew past in small groups. A **Scaly-breasted Hummingbird** was seen alongside **Mangrove Yellow Warbler**, as well as perched **Mangrove Black-Hawk**. Finally, as the day drifted into dusk, we saw several **Lesser Nighthawks** coming out of their resting places in the mangrove to fill evening sky. Back at the lodge and after dinner we heard both **Common Pauraque** and **Pacific Screech-Owl** although neither was seen.

11th March 2012

During breakfast we were entertained by a couple of **White-throated Magpie-Jays** and flyby **Muscovy Ducks**, but best of all was a pair of **Scarlet Macaws** eating fruit in a tree just twenty feet way, a great distraction from breakfast. Afterwards we drove to an area of the dry zone where we soon found **Stripe-headed Sparrows**, **Scissor-tailed Flycatcher**, **Orange-fronted Parakeets**, and a pair of **Double-striped Thick-knees**. Amazingly, three **Crested Bobwhites** crossed the road in front of us. Further on we got out and straight away found a female **Painted Bunting**; several localized **White-lored Gnatcatchers**, **Yellow-bellied** and **Brown-crested Flycatchers**, plus a **Cannivet's Emerald**. Near to a bridge over a nice stream we had **Steely-vented Hummingbird**, **Yellow-green Vireo**, **Streaked Flycatchers**, **Tennessee Warblers**, **Yellow-throated Vireo**, **Inca Dove** and **Ruby-throated Hummingbird**. The action never stopped and we soon got **Yellow-olive Flycatcher**, a couple of **Greenish Elaenias**, **Rose-throated Becard**, **Lesser Greenlet**, **Northern Waterthrush** on the road, **Gartered Trogon**, **Streak-headed** and **Northern Barred Woodcreepers**, **Barred Antshrike** and two **Olive Sparrows**. We then walked into the forest a short distance where we had superb views of a male **Long-tailed Manakin**. Out on the road a **Lesser Ground Cuckoo** called but would not show while a **Nutting's Flycatcher** did show albeit briefly.

It was time to leave and head to our next destination, so we set off along the pacific coast. Lots of **Magnificent Frigatebirds** were seen, and we passed a small pond with many **Wood Storks** a **Roseate Spoonbill**, **Black-necked**

A pair of Collared Plovers were feeding alongside the shoreline and allowed a close approach as they were used to boats

This pair of Double-striped Thick-Knees seemed to be nesting close to the shoreline and also showed no concern as we drifted up close

Southern Lapwings used to be difficult to find in Costa Rica but nowadays there are always a few around the River Tarcoles and easily seen from our fabulous boat trip

Stilt and Great Egrets. We passed by some really good looking **Swallow-tailed Kites** as we entered the highlands. At our lunch stop with its huge vista we saw **Golden-hooded Tanagers, Yellow-bellied Elaenia** while enjoying a variety of milkshakes.

Continuing on, we drove to Chirripo seeing **Tropical Mockingbird** along the way. After arriving at our special lodge we settled in and then met up for a walk. In the beautiful grounds beside a tumbling stream we didn't have to go far to find **Emerald Toucanets**, lots of **White-crowned Parrots, Philadelphia Vireo, Wilson's and Prothonotary Warbler**, and then several **Snowy-bellied Hummingbirds**. We were amazed by the amount of birds in the area and added **Bay-headed and Silver-throated Tanager** as well as **Gray headed Chachalaca, Blue-crowned Motmot**, a couple of **Thick-billed Euphonias, Brown Jays, Broad-winged Hawk and Acorn Woodpecker**. In some roadside grasses and bushes we had **Indigo Buntings**, plus **Yellow-bellied Seedeaters, Yellow-faced Grassquit, Slate-throated Redstart, Summer Tanager, Golden-winged and Rufous-capped Warbler**, a **Garden Emerald** feeding on red flowers, a **Bright-rumped Attila**, lots of **Cherries Tanagers and Red-legged Honeycreepers**, but our finale came in the form of two fantastic **Speckled Tanagers** what a great place!

12th March 2012

This morning we set off to the nearby Cloudbridge Reserve, an area not visited by most other birding groups. We arrived and then off walking along the track towards the entrance. The ever present **Rufous-collared Sparrows** were evident, and we soon found **Paltry Tyrannulet and Red-crowned Woodpecker**. To our surprise and delight, a pair of **Magenta-throated Woodstars** was found around a flowering bush. As we slowly walked along we found **Emerald Toucanets, Slate-throated Redstarts, a Wilson's Warbler**, and then yet another surprise - a beautiful pair of **Elegant Euphonias**. We also found **Scarlet-thighed Dacnis, Snowy-bellied Hummingbird, Lesser Goldfinch**, and had good looks at **Plain Wren**. A **Philadelphia Vireo** showed well and **Slate-throated Redstarts** were common. More **Emerald Toucanets** appeared plus **Acorn Woodpecker, Silvery-throated Tanagers**, and five **Masked Tityras**. In one small dead tree on a hillside we found **Golden-olive Woodpecker** and a **Smoky-brown Woodpecker** together! A **Tropical Parula** then showed well followed by a stunning male **Red-headed Barbet**. We kept moving slowly along and found a couple of **Rufous-breasted Wrens**, several **Common Bush-Tanagers**, a few **Brown-capped Vireos**, and a superb **Flame-colored Tanager**. There was some really nice forest and a lovely river all worth much more investigation. As we returned back toward the bus a pair of **Red-faced Spinetails** and an

Just outside our wonderful lodge near Chirripo National Park we found a couple of striking Speckled Tanagers

On our way to Savegre Lodge we stopped at a house where Flame-colored Tanagers such as this male came to feed alongside several other good species

There were plenty of Flame-throated Warblers around and we enjoyed great views and even photo opportunities

Olivaceous Piculet were seen well. Returning to the lodge we packed our bags. Leaving the wonderful Chirripo area we made a quick stop to look at a **Fork-tailed Flycatcher**. Tim then earned full credit for finding the **House Sparrow** at the fuel station. So there you go Tim, you've got it!

Moving on our next stop was for lunch stop at a small café with panoramic views of the valley below. Here, we found **Violet Sabrewing**, a pair of **Elegant Euphonias**, **Black-striped Sparrow**, and a **Gray-necked Wood-Rail** that jumped up on the bird table. Jim was the only one to get the **White-tailed Emerald** which sporadically turns up here.

From here, we continued on toward our lodge at Savegre stopping occasionally along the road. A group of **Common Bush-Tanagers** were easily found plus **Yellow-winged Vireo**, **Yellow-bellied Elaenia**, and a super **Rufous-browed Peppershrike**. Further roadside stops produced **Black-thighed Finch**, a pair of **Sooty Thrushes**, **Ruddy Treerunner**, a perched **White-throated Mountain-Gem**, **Tropical Parula**, and a few **Flame-throated Warblers**. Eventually we arrived at the wonderful Savegre Lodge set in a gorgeous valley beside a beautiful mountain stream. A quick look at the hummingbird feeders produced point blank views of **Magnificent Hummingbird**, **Volcano Hummingbird**, **Green Violetear**, and several **White-throated Mountain-Gems**. A short walk through the gardens toward the stream yielded **Wilson's Warbler**, **American Dipper**, and **Louisiana Waterthrush**.

13th March 2012

This morning we had breakfast and then took two jeeps up into the mountain forest where we were then dropped off. A **Ruddy Pigeon** was seen high up in a tree and later it dropped down and walked on the ground right in front of us. Gina then found a couple of **Spotted Wood-Quail** in the leaf-litter near where we had been dropped off. They were really difficult to see but most people had some sort of view. Steve missed it so both Steves went off and re-found the birds and enjoyed fantastic views. Next up was an **Ochraceous Wren** that gave pretty good views. A highlight of the tour followed with the discovery of not just one, but a pair of **Costa Rican Pygmy-Owls**. A typical dark bird and a very orangey-rufous bird were seen together and we got wonderful views as they were seen mating, and then taking food into their nest hole in a big old tree!

After this spectacle, we then walked up further into the forest and found several confident **Collared Redstarts** and another **Ochraceous Wren**. Even further up, Melvin, the guide at Savegre showed us a nest of a **Silvery-throated Jay** with the bird sat there showing us its head. As we worked our way down the mountainside, we found a flock which held several **Flame-throated Warblers**, **Sooty-capped Bush-Tanagers**

The Collared Redstarts around Savegre are always inquisitive and show no fear, often coming to within a few feet

The endemic Dark Pewee put on a good performance in the grounds of our Lodge

After a lot of searching for singing Black-faced Solitaires within the forest, it was typical that we would then have them at our feet in the lush gardens

and **Wilson's Warblers**. Moving on we located a **Tufted Flycatcher**, and then we took a side trail that produced a group of **Black-cheeked Warblers**, a few **Ruddy Treerunners**, a super **Buffy Tuftedcheek**, and a **Spangle-cheeked Tanager**. We arrived back at the lodge in time for a sumptuous lunch.

Afterwards we had a short break and then went down the road to the new trout farm where a pair of **Resplendent Quetzals** was nesting. We found the hole on a tall dead tree and waited. After a while the female poked her head out of the hole and later she flew out and away. We waited for another 45 minutes before she returned giving good views on a nearby perch. We were then about to leave when the male Quetzal flew in and gave us twenty minutes of pure delight as it perched out in the open flew around and eventually landed on the edge of the nest hole. Another incredible spectacle!

As we made our way slowly back, a **Spot-crowned Woodcreeper** showed well and a small flock held **Spangle-cheeked Tanager**, **Collared Redstarts**, **Ruddy Treerunners**, **Golden-winged Warbler**, and a **Chestnut-headed Brush-Finch** that came out into the open as well as **Gray-breasted Wood-Wren** and several **Black-cheeked Warblers**. Near the stream a **Yellowish Flycatcher** appeared, plus a couple of **Ruddy-capped Nightingale-Thrushes** showed well, but try as we did we could only hear **Black-faced Solitaire**. On the rocky stream an **American Dipper** showed well, while a **Mountain Elaenia** gave us unbelievably close views beside the bridge. We made our way back to the lodge and enjoyed another nice dinner and review of today's incredible sightings.

14th March 2012

A pre breakfast walk through the gardens soon got us great views of the endemic **Dark Pewee** and then a **Scintillant Hummingbird**. We watched as a **Slaty Flowerpiercer** drilled holes in the base of some red flowers, a practice that this little bird is famous for. A small mixed flock held **Ruddy Treerunners**, **Flame-throated Warbler**, **Collared Redstart**, **Black-cheeked Warbler**, **Black-capped Flycatcher**, **Ruddy-capped Nightingale-Thrush**, and then Gina found a **Collared Trogon**. Lots of **Band-tailed Pigeons** flew over and we had one perched in a tree top in the early morning sunlight. A couple **Gray-breasted Wood-Wrens** gave tantalizing views, followed by **Yellowish Flycatcher**. After a lot of hard work and persistence, Gina spotted a **Black-faced Solitaire** which gave super views. A couple of **Brown-capped** and **Yellow-winged Vireos** showed up, plus another **Mountain Elaenia**. On the stream an **American Dipper** was seen well, and as we made our way back, we met several very confident **Collared Redstarts** and had great views of **Dark Pewee**, plus a

This female Resplendent Quetzal spent ages just look out of her nest hole

What fantastic views we got of a pair of Costa Rican Pygmy-Owls high above our lodge. Both birds gave prolonged and much appreciated views near their nest hole

Black-billed Nightingale-Thrushes gave us many good shows high in the mountain habitats near to our lodge and also the trails near to a hummingbird café

female **Resplendent Quetzal** followed by unbelievable close views of **Black-faced Solitaire**. We also found **Swainson's Thrush** before heading back for breakfast.

After breakfast, we packed our bags and slowly set off for our first stop beside a stream which soon produced the hoped for **Torrent Tyrannulet**. This well timed stop also found us several **Mountain Thrushes** feeding on berries, a **Yellow-bellied Siskin**, and another **American Dipper**. Moving on we stopped at a private house where our target species, the **Large-footed Finch**, soon appeared alongside **Flame-colored Tanagers**, and **Sooty Robin**. Moving on again we ascended the mountain ridge until we got to Paramo and an area of stunted growth trees. Our search revealed **Black-billed Nightingale-Thrush**, **Volcano Hummingbirds** and then an amazing eight **Volcano Juncos**, our biggest count ever! Another area down further allowed us very nice views of **Timberline Wren**. This visit had been very good for us!

It was time to move on so we headed to Paraiso Quetzal café where we were greeted by a host of **Fiery-throated Hummingbirds**. We spent ages here enjoying and trying to photograph these gorgeous hummers alongside **Magnificent, Green Violetear**, and **Volcano Hummingbirds**. A real treat was when two **Black-and-yellow Silky-Flycatchers** fed in a tree next to the hummingbird feeders. Our excellent lunch arrived and was enjoyed by all before we went out on a walk with our good friend and local guide, Jorge. It wasn't too long before he located a **Golden-browed Chlorophonia** in a tree top, followed by **Ochraceous Wren**, a **Large-footed Finch** and a young male **Resplendent Quetzal**. Later we tried another trail where Steve found a rare and showy **Ochraceous Pewee**. We then left in time to drive to our next destination near Tapanti National Park.

15th March 2012

This morning at breakfast it transpired that several people had watched a **Ferruginous Pygmy-Owl** outside of their room window. Marvelous! As we had breakfast, a **Black-headed Saltator** was seen, as well as **Blue-crowned Motmot**, some **Great Kiskadees**, and four **Gray-headed Chachalacas** perched in a tree. After breakfast, we drove to the entrance to Tapanti National Park. First we checked a small waterfall where the resident **Green-fronted Lancebill** was seen all too briefly. We then set off on a small trail which offered several groups of **Common Bush-Tanagers**. A **Black Guan** was seen very well and then a **Scale-crested Pygmy-Tyrant** put on a good show. As we kept watching this area, Jim spotted an **Eye-ringed Flatbill** that we all got on to. Our next small flock contained **Streak-breasted Treehunter**, **Spotted Barbtail** and **Tawny-capped Euphonia**, while a group of thrushes feeding in the fruiting

Up in the Paramo we encountered more **Volcano Juncos** than we have ever seen before. Quite remarkable!

At our lunch stop we not only enjoyed a superb meal but were also treated to many fabulous **Fiery-throated Hummingbirds** on the feeders

Quite a surprise was how close a pair of **Black-and-yellow Silky-Flycatchers** came while we were being entertained by the hummingbirds

trees held **Clay-colored, Pale-vented and White-throated Thrushes**. Other birds in this productive little area included **Spangle-cheeked Tanagers** and a **Collared Trogon** and very brief views of **Black-bellied Hummingbird**. We then went out and tried the **Green-fronted Lancebill** again without success.

Moving on we parked up and set up our picnic. A short steep walk while lunch was being prepared revealed **Buff-fronted Foliage-Gleaner** and the sound of several **Black-faced Solitaires**. Back beside our picnic in a flowering tree was a **Green-crowned Brilliant** and a **Purple-throated Mountain-Gem**.

After the picnic we worked our way downhill. A **Gray-breasted Wood-Wren** showed well, above us **Swallow-tailed Kites** circled and several **Red-faced Spinetails, Ochraceous Wren, Three-striped Warbler, Tufted Flycatcher** and a few **Dark Pewees** were seen. Next up we had great views of a **Spotted Woodcreeper**, and then back at our original waterfall we all managed to see the **Green-fronted Lancebill**. This fantastic trip was coming to a close so we drove back to San Jose for our final night.

16th March 2012

This morning we had breakfast, reflected on many of our wonderful sightings, said our goodbyes, and then made our way to the airport for our international flights home.

We would like to thank everyone for making this a fantastic trip and to Alex our excellent driver. Steve & Gina

Scale-crested Pygmy-Tyrant and the superb Sungrebe

BIRDLIST FOR COSTA RICA 2012

A = Number of species recorded on tour B = Number of days out of 10 recorded

C = Highest daily count E=Endemic

A	SPECIES	SCIENTIFIC NAME	B	C
1	Great Tinamou	<i>Tinamus major</i>	2	2
1	Little Tinamou	<i>Crypturellus soui</i>	1	Heard only
2	Neotropic Cormorant	<i>Phalacrocorax brasilianus</i>	1	1
3	Anhinga	<i>Anhinga anhinga</i>	1	3
4	Magnificent Frigatebird	<i>Fregata magnificens</i>	3	30+
5	Tri-colored Heron	<i>Egretta tricolor</i>	1	12
6	Little Blue Heron	<i>Egretta caerulea</i>	2	6
7	Snowy Egret	<i>Egretta thula</i>	2	20+
8	Great Blue Heron	<i>Ardea herodias</i>	2	2
9	American Great Egret	<i>Ardea alba egretta</i>	5	10+
10	Cattle Egret	<i>Bubulcus ibis</i>	8	Common
11	Green Heron	<i>Butorides virescens</i>	1	3
12	Yellow-crowned Night-heron	<i>Nyctanassa violacea</i>	1	10
13	Black-crowned Night-heron	<i>Nycticorax nycticorax</i>	1	2
14	Boat-billed Heron	<i>Cochlearius cochlearia</i>	1	6
15	Bare-throated Tiger-heron	<i>Tigrisoma mexicanum</i>	2	1
16	Fasciated Tiger-heron	<i>Tigrisoma fasciatum</i>	1	1
17	Wood Stork	<i>Mycteria americana</i>	3	50
18	White Ibis	<i>Eudocimus albus</i>	2	20
19	Green Ibis	<i>Mesembrinibis cayennensis</i>	1	2
20	Roseate Spoonbill	<i>Ajaia ajaja</i>	2	6
21	Muscovy Duck	<i>Cairina moschata</i>	3	4
22	Blue-winged Teal	<i>Anas discors</i>	2	60
23	Black Vulture	<i>Coragyps atratus</i>	10	Common
24	Turkey Vulture	<i>Cathartes aura</i>	10	Common
25	King Vulture	<i>Sarcoramphus papa</i>	3	3
26	Swallow-tailed Kite	<i>Elanoides forficatus</i>	5	6
27	White-tailed Kite	<i>Elanus leucurus</i>	2	2
28	Double-toothed Kite	<i>Harpagus bidentatus</i>	2	1
29	Plumbeous Kite	<i>Ictinia plumbea</i>	1	8

31	Mangrove Black-hawk	<i>Buteogallus subtilis</i>	1	2
32	Roadside Hawk	<i>Buteo magnirostris</i>	2	1
33	Broad-winged Hawk	<i>Buteo platypterus</i>	5	3
34	Short-tailed Hawk	<i>Buteo brachyurus</i>	2	1
35	Zone-tailed Hawk	<i>Buteo albonotatus</i>	1	1
36	Red-tailed Hawk	<i>Buteo jamaicensis</i>	3	2
37	Osprey	<i>Pandion haliaetus</i>	3	4
38	Crested Caracara	<i>Polyborus plancus</i>	3	2
39	Yellow-headed Caracara	<i>Milvago chimachima</i>	3	4
40	Laughing Falcon	<i>Herpetotheres cachinnans</i>	3	1
41	American Kestrel	<i>Falco sparverius</i>	1	1
42	Bat Falcon	<i>Falco rufifigularis</i>	1	1
43	Gray-headed Chachalaca	<i>Ortalis cinereiceps</i>	2	4
44	Crested Guan	<i>Penelope purpurascens</i>	1	6
45	Black Guan	<i>Chamaepetes unicolor</i>	1	4
46	Great Curassow	<i>Crax rubra</i>	1	1

47	Crested Bobwhite	<i>Colinus cristatus dickeyi</i>	1	3
48	Spotted Wood-quail	<i>Odontophorus guttatus</i>	1	2
49	White-throated Crake	<i>Laterallus albigularis</i>	1	Heard only
50	Gray-necked Wood-rail	<i>Aramides cajanea</i>	3	2
51	Purple Gallinule	<i>Porphyrio martinicus</i>	2	1
52	Sungrebe	<i>Heliornis fulica</i>	1	1
53	Northern Jacana	<i>Jacana spinosa</i>	2	30+
54	Black-necked Stilt	<i>Himantopus mexicanus</i>	2	25
55	Double-striped Thick-knee	<i>Burhinus bistriatus</i>	2	2
56	Southern Lapwing	<i>Vanellus chilensis</i>	1	10
57	Collared Plover	<i>Charadrius collaris</i>	1	4
58	Whimbrel	<i>Numenius phaeopus hudsonius</i>	1	8
59	Lesser Yellowlegs	<i>Tringa flavipes</i>	1	1
60	Spotted Sandpiper	<i>Actitis macularia</i>	4	200
61	Willet	<i>Catoptrophorus semipalmatus</i>	1	3
62	Least Sandpiper	<i>Calidris minutilla</i>	1	1
63	Baird's Sandpiper	<i>Calidris bairdii</i>	1	1
64	Feral Pigeon	<i>Columba livia 'feral'</i>	5	No count
65	Band-tailed Pigeon	<i>Columba fasciata</i>	3	6
66	Pale-vented Pigeon	<i>Columba cayennensis</i>	2	10
67	Red-billed Pigeon	<i>Columba flavirostris</i>	4	8
68	Ruddy Pigeon	<i>Patagioenas subvinacea</i>	1	1
69	Short-billed Pigeon	<i>Columba nigrirostris</i>	1	1
70	White-winged Dove	<i>Zenaida asiatica</i>	5	10+
71	Inca Dove	<i>Columbina inca</i>	2	4
72	Common Ground-dove	<i>Columbina passerina</i>	5	12
73	Ruddy Ground-dove	<i>Columbina talpacoti</i>	7	20
74	White-tipped Dove	<i>Leptotila verreauxi</i>	6	10+
75	Gray-chested Dove	<i>Leptotila cassini</i>	1	2
76	Olive-backed Quail-dove	<i>Geotrygon veraguensis</i>	1	3
77	Scarlet Macaw	<i>Ara macao</i>	4	30
78	Crimson-fronted Parakeet	<i>Aratinga finschi</i>	3	40+
79	Olive-throated Parakeet	<i>Aratinga nana</i>	3	2
80	Orange-fronted Parakeet	<i>Aratinga canicularis</i>	4	12
81	Orange-chinned Parakeet	<i>Brotogeris jugularis</i>	4	40
82	White-crowned Parrot	<i>Pionus senilis</i>	4	12
83	White-fronted Parrot	<i>Amazona albifrons</i>	1	2
84	Red-lored Parrot	<i>Amazona autumnalis</i>	1	2
85	Yellow-naped Parrot	<i>Amazona auropalliata</i>	1	2
86	Mealy Parrot	<i>Amazona farinosa</i>	3	4
87	Squirrel Cuckoo	<i>Piaya cayana</i>	2	2
88	Groove-billed Ani	<i>Crotophaga sulcirostris</i>	3	10
89	Lesser Ground Cuckoo	<i>Morococcyx erythropygus</i>	1	Heard only
90	Pacific Screech-owl	<i>Otus choliba</i>	1	Heard only
91	Spectacled Owl	<i>Pulsatrix perspicillata</i>	3	2
92	Costa Rican Pygmy-owl	<i>Glaucidium costaricanum</i>	1	2
93	Ferruginous Pygmy-owl	<i>Glaucidium brasilianum</i>	3	1
94	Lesser Nighthawk	<i>Chordeiles acutipennis</i>	3	60+
95	Pauraque	<i>Nyctidromus albicollis</i>	2	Heard only
96	Dusky Nightjar	<i>Caprimulgus saturatus</i>	1	Heard only
97	Chestnut-collared Swift	<i>Cypseloides rutilus</i>	1	1
98	White-collared Swift	<i>Streptoprocne zonaris</i>	7	200

99	Costa Rican Swift	<i>Chaetura spinicauda</i>	2	50
100	Gray-rumped Swift	<i>Chaetura cinereiventris</i>	1	20
101	Lesser Swallow-tailed Swift	<i>Panyptila cayennensis</i>	2	2
102	Bronzy Hermit	<i>Glaucis aenea</i>	1	1
103	Band-tailed Barbthroat	<i>Threnetes ruckeri</i>	2	1
104	Long-billed Hermit	<i>Phaethornis strigularis</i>	3	3
105	Green-fronted Lancebill	<i>Doryfera ludovicae</i>	1	1
106	Scaly-breasted Hummingbird	<i>Phaeochroa cuvierii</i>	2	4
107	Violet Sabrewing	<i>Campylopterus hemileucurus</i>	1	1
108	White-necked Jacobin	<i>Florisuga mellivora</i>	1	1
109	Green Violet-ear	<i>Colibri thalassinus</i>	2	20
110	Green-breasted Mango	<i>Anthracothorax prevostii</i>	2	2
111	Violet-headed Hummingbird	<i>Klais guimeti</i>	2	4
112	Black-crested Coquette	<i>Lophornis helenae</i>	1	1
113	Cannivet's Emerald	<i>Chlorostilbon canivettii</i>	1	1
114	Garden Emerald	<i>Chlorostilbon assimilis</i>	1	1
115	Violet-crowned Woodnymph	<i>Thalurania colombica</i>	3	3
116	Fiery-throated Hummingbird	<i>Panterpe insignis</i>	1	20
117	Blue-chested Hummingbird	<i>Amazilia amabilis</i>	1	1
118	Mangrove Hummingbird E	<i>Amazilia boucardi</i>	1	1
119	Snowy-bellied Hummingbird	<i>Amazilia edward</i>	2	2
120	Cinnamon Hummingbird	<i>Amazilia rutila</i>	4	3
121	Steely-vented Hummingbird	<i>Amazilia saucerrottei</i>	2	3
122	Rufous-tailed Hummingbird	<i>Amazilia tzacatl</i>	7	Common
123	Stripe-tailed Hummingbird	<i>Eupherusa eximia</i>	2	1
124	Black-bellied Hummingbird	<i>Eupherusa nigriventris</i>	1	1
125	White-tailed Emerald	<i>Elvira chionura</i>	1	1
126	Snowcap	<i>Microchera albocoronata</i>	2	2
127	Bronze-tailed Plumeleteer	<i>Chalybura urochrysis</i>	1	1
128	Purple-throated Mountain-gem	<i>Lampornis calolaemus</i>	1	1
129	White-throated Mountain-gem	<i>Lampornis cinereicauda</i>	3	4
130	Green-crowned Brilliant	<i>Heliodoxa jacula</i>	3	1
131	Magnificent Hummingbird	<i>Eugenes fulgens</i>	3	10
132	Purple-crowned Fairy	<i>Heliothryx barroti</i>	3	1
133	Ruby-throated Hummingbird	<i>Archilochus colubris</i>	3	1
134	Magenta-throated Woodstar	<i>Calliphlox bryantae</i>	1	2
135	Scintillant Hummingbird	<i>Selasphorus scintilla</i>	3	2
136	Volcano Hummingbird	<i>Selasphorus flammula</i>	3	8
137	Resplendent Quetzal	<i>Pharomachrus mocinno</i>	2	2
138	Slaty-tailed Trogon	<i>Trogon massena</i>	1	2
139	Black-headed Trogon	<i>Trogon melanocephalus</i>	2	1
140	Collared Trogon	<i>Trogon collaris</i>	3	1
141	Black-throated Trogon	<i>Trogon rufus</i>	2	2
142	Gartered Trogon	<i>Trogon caligatus</i>	4	1
143	Ringed Kingfisher	<i>Ceryle torquata</i>	2	3
144	Amazon Kingfisher	<i>Chloroceryle amazona</i>	1	2
145	Green Kingfisher	<i>Chloroceryle americana</i>	2	2
146	American Pygmy Kingfisher	<i>Chloroceryle aenea</i>	1	1
147	Broad-billed Motmot	<i>Electron platyrhynchum</i>	1	1
148	Turquoise-browed Motmot	<i>Eumomota superciliosa</i>	3	5
149	Rufous Motmot	<i>Baryphthengus martii</i>	1	2
150	Blue-crowned Motmot	<i>Momotus momota</i>	4	3

151	Rufous-tailed Jacamar	<i>Galbula ruficauda</i>	1	Heard only
152	White-whiskered Puffbird	<i>Malacoptila panamensis</i>	2	1
153	Red-headed Barbet	<i>Eubucco bourcierii</i>	1	1
154	Prong-billed Barbet	<i>Semnornis frantzii</i>	1	Heard only
155	Emerald Toucanet	<i>Aulacorhynchus prasinus</i>	3	6
156	Collared Aracari	<i>Pteroglossus torquatus</i>	2	3
157	Keel-billed Toucan	<i>Ramphastos sulfuratus</i>	2	10
158	Black-mandibled Toucan	<i>Ramphastos ambiguous swainsonii</i>	4	6
159	Olivaceous Piculet	<i>Picumnus olivaceus</i>	1	1
160	Acorn Woodpecker	<i>Melanerpes formicivorus</i>	4	4
161	Black-cheeked Woodpecker	<i>Melanerpes pucherani</i>	3	2
162	Red-crowned Woodpecker	<i>Melanerpes rubricapillus</i>	1	1
163	Hoffmanns' Woodpecker	<i>Melanerpes hoffmannii</i>	7	5
164	Hairy Woodpecker	<i>Picoides villosus</i>	1	1

302	Tennessee Warbler	<i>Vermivora peregrina</i>	6	4
303	Tropical Parula	<i>Setophaga pitaiyumi</i>	1	3
304	Flame-throated Warbler	<i>Parula gutturalis</i>	4	8
305	Yellow Warbler	<i>Setophaga petechia</i>	7	10+
306	Mangrove Warbler	<i>Setophaga petechia bryanti</i>	1	3

307	Chestnut-sided Warbler	<i>Setophaga pensylvanica</i>	7	6
308	Black-throated Green Warbler	<i>Setophaga virens</i>	3	3
309	Black-and-white Warbler	<i>Mniotilta varia</i>	3	1
310	Prothonotary Warbler	<i>Protonotaria citrea</i>	2	1
311	Northern Waterthrush	<i>Parkesia noveboracensis</i>	4	1
312	Louisiana Warterthrush	<i>Parkesia motacilla</i>	1	1
313	Common Yellowthroat	<i>Geothlypis trichas</i>	1	2
314	Wilson's Warbler	<i>Wilsonia pusilla</i>	5	10
315	Slate-throated Redstart	<i>Myioborus miniatus</i>	3	3
316	Collared Redstart	<i>Myioborus torquatus</i>	2	8
317	Rufous-capped Warbler	<i>Basileuterus rufifrons</i>	1	2
318	Black-cheeked Warbler	<i>Basileuterus melanogenys</i>	2	6
319	Three-striped Warbler	<i>Basileuterus tristriatus</i>	2	2
320	Buff-rumped Warbler	<i>Basileuterus fulvicauda</i>	3	2
321	Wrenthrush	<i>Zeledonia coronata</i>	1	Heard only
322	Bananaquit	<i>Coereba flaveola</i>	4	2
323	Common Bush-tanager	<i>Chlorospingus ophthalmicus</i>	4	6
324	Sooty-capped Bush-tanager	<i>Chlorospingus pileatus</i>	3	6
325	Dusky-faced Tanager	<i>Mitrospingus cassinii</i>	1	2
326	Carmioli's Tanager	<i>Chlorothraupis carmioli</i>	2	4
327	Gray-headed Tanager	<i>Eucometis penicillata</i>	1	1
328	White-shouldered Tanager	<i>Tachyphonus luctuosus</i>	2	2
329	Tawny-crested Tanager	<i>Tachyphonus delatrii</i>	1	3
330	Red-throated Ant-tanager	<i>Habia fuscicauda</i>	3	4
331	Flame-colored Tanager	<i>Piranga bidentata</i>	3	3
332	Summer Tanager	<i>Piranga rubra</i>	4	4
333	Western Tanager	<i>Piranga ludoviciana</i>	1	4
334	Cherries Tanager	<i>Ramphocelus costaricensis</i>	4	8
335	Passerini's Tanager	<i>Ramphocelus passerinii</i>	4	10
336	Blue-gray Tanager	<i>Thraupis episcopus</i>	10	Common
337	Palm Tanager	<i>Thraupis palmarum</i>	8	6
338	Yellow-crowned Euphonia	<i>Euphonia luteicapilla</i>	1	2
339	Thick-billed Euphonia	<i>Euphonia lanirostris</i>	1	2
340	Elegant Euphonia	<i>Euphonia elegantissima</i>	2	4
341	Spot-crowned Euphonia	<i>Euphonia imitans</i>	3	2
342	Olive-backed Euphonia	<i>Euphonia gouldi</i>	2	4
343	Tawny-capped Euphonia	<i>Euphonia anaeae</i>	1	6
344	Golden-browed Chlorophonia	<i>Chlorophonia callophrys</i>	1	1
345	Plain-colored Tanager	<i>Tangara inornata</i>	1	2
346	Emerald Tanager	<i>Tangara florida</i>	1	1
347	Silver-throated Tanager	<i>Tangara icterocephala</i>	5	6
348	Speckled Tanager	<i>Tangara guttata</i>	1	2
349	Bay-headed Tanager	<i>Tangara gyrola</i>	2	1
350	Golden-hooded Tanager	<i>Tangara larvata</i>	5	6
351	Spangle-cheeked Tanager	<i>Tangara dowii</i>	3	6
352	Scarlet-thighed Dacnis	<i>Dacnis venusta</i>	3	2
353	Green Honeycreeper	<i>Chlorophanes spiza</i>	3	3
354	Shining Honeycreeper	<i>Cyanerpes lucidus</i>	2	2
355	Red-legged Honeycreeper	<i>Cyanerpes cyaneus</i>	4	6
356	Rufous-collared Sparrow	<i>Zonotrichia capensis</i>	4	10+
357	Volcano Junco	<i>Junco vulcani</i>	1	8
358	Stripe-headed Sparrow	<i>Aimophila ruficauda</i>	3	6

359	Orange-billed Sparrow	<i>Arremon aurantirostris</i>	1	1
360	Olive Sparrow	<i>Arremonops rufivirgatus</i>	1	2
361	Black-striped Sparrow	<i>Arremonops conirostris</i>	2	2
362	Chestnut-capped Brush-Finch	<i>Atlapetes brunneinucha</i>	1	1
363	Large-footed Finch	<i>Pezopetes capitalis</i>	1	4
364	Yellow-thighed Finch	<i>Pselliophorus tibialis</i>	3	4
365	Blue-black Grassquit	<i>Volatinia jacarina</i>	6	20+
366	Variable Seedeater	<i>Sporophila americana</i>	5	6
367	White-collared Seedeater	<i>Sporophila torqueola</i>	2	4
368	Nicaraguan Seed-finch	<i>Oryzoborus nuttingi</i>	1	3
369	Thick-billed Seed-finch	<i>Oryzoborus angolensis</i>	2	2
370	Yellow-faced Grassquit	<i>Tiaris olivacea</i>	4	8
371	Slaty Flower-piercer	<i>Diglossa plumbea</i>	2	2
372	Rose-breasted Grosbeak	<i>Pheucticus ludovicianus</i>	1	3
373	Black-faced Grosbeak	<i>Caryothraustes poliogaster</i>	3	8
374	Black-headed Saltator	<i>Saltator atriceps</i>	1	1
375	Buff-throated Saltator	<i>Saltator maximus</i>	7	4
376	Blue-black Grosbeak	<i>Cyanocompsa cyanooides</i>	2	1
377	Indigo Bunting	<i>Passerina cyanea</i>	1	4
378	Painted Bunting	<i>Passerina ciris</i>	2	6
379	Chestnut-headed Oropendola	<i>Psarocolius wagleri</i>	3	10
